Item Number:

Summary: 20-0636 Rapid-Results Testing Protocols / COVID-19 / Staff and Essential Workers / Hotspots The Arroyo Seco Neighborhood Council (ASNC) supports this motion calling for the LA County Department of Public Health to report back on ways to implement more robust “rapid-results” testing protocols to further reduce the spread of COVID-19 among staff of potential transmission hotspots, such as hospitals, jails, nursing homes, grocery stores, mass transit and other locations susceptible to outbreaks. The city is starting to re-open in phases, despite our public health data showing 7% increases in new cases. With increased potential for exposure, we will require more frequent and reliable test results

Title: Rapid-Results Testing Protocols / COVID-19 / Staff and Essential Workers / Hotspots

Position: Support

Summary:

The Arroyo Seco Neighborhood Council (ASNC) supports this motion calling for the LA County Department of Public Health to report back on ways to implement more robust “rapid-results” testing protocols to further reduce the spread of COVID-19 among staff of potential transmission hotspots, such as hospitals, jails, nursing homes, grocery stores, mass transit and other locations susceptible to outbreaks. The city is starting to re-open in phases, despite our public health data showing a continuous increase in new cases. With increased potential for exposure, we will require more frequent and reliable test results. We also call on the city and its partners to remove any barriers to testing such as requesting insurance requirements.
