**Comments for Public Posting:** I am responding to item #1. And how I don't want J or B to pass. It's such a shame we are here! And how many of you are quick to forget why is it we need police. As a Latina woman who lives alone, there's been many times where I was in dangerous situations and the police were there. We already know how much crime and rape goes down in this city. We also ALL know how we don't have enough police officers out to protect all of us in this city. Yet, all of you think defunding the police is the right thing to do! You all make me sick. It seems like you have forgotten about the rest of us who depend on police officers for our safety. I'm mostly ashamed in all of you council women who want them defunded. Did you women forget the dangers we face on a daily basis? Who can defend us when we can't defend ourselves? Police! I hope that none of you, your wives, or daughters are ever in a position where they are faced with danger and you need the police around.

**Comments for Public Posting:** This is for topic 1 and how items J/B should not pass. I have never done this. I've never felt the need to voice my opinion. But what's going on in our city and how many of you are bending over to certain people has made me do this. I'm furious that many of you are so quick to defund police. As a minority woman, I've faced many challenges growing up. Yes, it can be frustrating at times but no matter what, if I needed from Police Officers, they have been there. As a woman, I'm in constant fear. But knowing there are strangers (police officers) willing to help me, gives me peace. All of you know calling 911 already takes longer than usual. All of you know we lack of police officers. All of you know police officers have to pay for simple items such as uniforms because the city can't even provide them with that. But you guys want to defund them more!? Why don't we remove the constant police officers who are watching the Mayor's house 24/7. Instead of spending money there, we can use the officers to be patrolling our city! All of you know there has been a spike in crime in our city. Why do you want to defund the group who is trying to protect us? What is your agenda? To destroy our city more!? I hope you all rethink. Think of the chaos this can cause. Think of the dangers this can cause. If you don't want to think about your city, at least think of your families! Who will they call if they are in danger? What if something could've been prevented if a police officer was on time but YOU decided to defund them? Will you be able to live with that guilt? I hope you all do the right thing. This city needs police. This city cannot defund those who are protecting us!

**Comments for Public Posting:** Defunding our police department is just an emotional response to some left wing protester's. We need to support the agency that risks their lives every day they hit the streets. If the city needs money, take it from other departments that don't risk lives. Consider scraping the DONE program that wastes our tax dollars enriching some officers. This is one of the worst programs which our mayor & fellow councilmen voted for about 10 years ago. Our current police chief got about a million dollars out of this fund despite still earning his salary. Please protect our officers by not defunding their budget. We need them on the streets for safety

**Comments for Public Posting:** I defend LAPD & vote against budget cuts. The city of Los Angeles has a high substance abuse problem in skid row with many of the inhabitants carrying weapons & taking over the Fashion District. Services are offered daily by unarmed CARE units. How do you invest more into social Programs when you can look directly into statistics of high violence crime. You are leaving vulnerable communities subject to further violence. It is completely unsafe & irresponsible to cut funding for such a target city for criminals, & terrorist.

**Comments for Public Posting:** I'm responding to Item Number 1 on the agenda & do NOT want items J or B passed causing a decline in LA's Police Budget. Los Angeles crime & inhabitants have only increased these past 5 years. Central Division has become a place where a business owner can NO longer conduct their business because the homeless populations attack our customers & invade our front business space causing an obstruction for our customers. The paraphernalia found on City Street sidewalks Is shameful. I see unarmed officers known as the CARE units approach the homeless population every day. Only they refuse to seek treatment, to be monitored, & refuse any type of service. You have abandoned the business owners that worked hard to develop the City along side Council Members. Do NOT defund our police department making this a city run by criminals who refuse responsibility or to change.

**Comments for Public Posting:** The LAPD has always been asked to do more with less. Now with all the improvements that have occurred over the years, you want to say "Do the same with even less". It is an impossible task that will impact the very same communities that hold this misconception that LAPD officers are randomly stopping law abiding community members. What will be cut? More training! The same training the community claims is needed.. The officers already have reduced training. Training has reduced to watching on-line videos. Officers are here to enforce the law and apprehend law violators. They are not here to manage your failed social programs. What will be cut? Equipment! Officers already deal with the lack of proper equipment and left to purchase needed equipment on their own. Your cuts will erase years of progress and will only lead to an increase of victims. You were voted to represent the citizens in your district and not some ideology that will grant you points towards your political future. You have this misconception of police work that is fed by this false spreading narrative. I challenge you to learn the truth and not hide behind your field representative. That last thing you should be doing is cutting funding to something that promotes a secure society. Without a secure society you will lose business. You will lose funding. You will lose the community.

Stop wasting money in your bureaucracy, elected politicians should take a 25% pay cut, not have any police security, take away take home cars. Then see how much money is saved, the citizens of Los Angeles will be surprised to the waste at the top! You need to find the police so the criminals are taken off the streets! Elected politicians will tell you crime has gone down, what has gone down are the citizens reporting crimes committed since prosecutors don't punish criminals, they always give a less plea negotiation.

**Comments for Public Posting:** I am adamantly opposed to defunding our LAPD. Currently, as it is, we do not have enough officers to respond & protect our city. Defunding will increase our crime rate. Current criminals know with recent changes in the law, they can steal up to \$950.00 or commit other crimes without arrest or prosecution. I also think the idea of sending a “trained” unarmed person on a mental health or domestic dispute call to deescalate, without officer back up, is a potential for disaster. If budget cuts are necessary, they should start at the top... not with our officers.. Thank you.

You need to really think about the impact of passing these items will do to the best law enforcement agency in the country who has already be doing the reforms everyone is wanting. If you had any sense, you would have made the same cut across all of the city agencies of 10-15% of EVERYONE'S Budget and you would have reached your goal for this COVID-19 excuse of no money. All agencies should be loosening the same percentage as LAPD. You are caving into loud-mouth activists that are anti-police and want no law and order. It is all political and the Silent Majority will remember your decisions in any future endeavors you may have your eyes on your political careers. I demand and expect a safe city for everyone, no matter what color their skin is. This will not happen if you keep blaming LAPD for everything and continue to take away their ability to uphold the laws. THIS IS NOT A BLACK OR WHITE, RACIAL THING to have a strong and efficient police department. It is a failure of how this city is run, and the police are in charge of running the city, are they? Make the same percentage cuts for ALL city departments, starting with yours and the Mayors. I do not support the defunding or any of you.

**Comments for Public Posting:** Please do not lower the LAPD's budget. I am against racial profiling and police violence against persons of color or against anyone for that matter. I abhor the way African American men are treated by all police departments in this country. It is truly a national disgrace. It is a national disaster. I love African American people, in particular. Their strength, love of family, God, their quest for education and a better life for their children and their families. And yes, their love of country in the face of the shameful bigotry they have endured. I am a progressive who supports human rights. Has the LAPD has made progress since 1992 with the Christopher Commission, etc.? Yes. Are they perfect? No. Should more be done? Yes. But the public in a city the size of Los Angeles needs the help and support of our police department. And the Police Department needs the public's support. NYC Police Department has a larger department and they cover only 12 square miles. The City of Los Angeles is so large it is almost unmanageable for the police. The Mayor acts like this isn't his responsibility. That he is not part of the problem. He is part of the problem. Now, in my opinion, he is the problem. It was and is irresponsible of the Mayor to turn on the LAPD during a time of crisis. They are, after all, HIS police department. There is a problem and he's part of it. I believe that a national data base of violent/racist police offenders is necessary and that an independent body should review and remove any and all of these offenders. There needs to be more dialogue between our police and communities of color. Perhaps a 311-like number where victims of profiling or police violence can call. With a sufficient staff to follow-up. Take away the Getty House from the Mayor and sell it. Why should he live rent free at tax payers expense (with LAPD protecting him and his family 24/7)? Lower the Mayor's and City Council's salaries. Give that money to poor communities. But don't take away much needed dollars from the LAPD or the Sheriff's Department. LA Unified School District is a disaster. The Mayor acts like they get very little money. As we all know, LA Unified gets hundreds and hundreds of millions if not billions of tax payer dollars. That system is broken and this is the Mayor's and City Council's responsibility. The problem starts there. I grew up in a poor Los Angeles community until I was 9 years old. I attended South Park Elementary School and in the 4th

grade I still could not read. Thank God my parents moved to Torrance. It was a poor community as well, but Torrance has their own school district. Within 2 months I was reading. I firmly believe I may have never learned to read if we would have stayed in the LA Unified School District. The LAPD is protecting our community. What's next? No Fire Department? No Lifeguards at the beach? Public safety is a major responsibility of government. The input of caring citizens of our city is needed.

**Comments for Public Posting:** Last week there was a gang murder in my grocery store parking lot at Venura & Laurel Canyon. My family has been going to that grocery store for 20 years. We no longer feel safe. How are social workers going to handle murderous gang turf wars? Burglaries and car break-ins have become common in my neighborhood. Police say their hands are tied and that the lenient laws release perpetrators almost immediately. How will social workers help deter criminals who have learned that crime pays after all, because they can commit crimes with impunity? I've witnessed blatant theft from stores in broad daylight and store owners can do nothing about it. I don't feel safe going into stores. This neighborhood used to be safe enough for children to play outside. My family and I want a safe Los Angeles and do not support defunding LAPD in any way.

Defunding the police in any form and manner will result in an increase of violence crime in the same communities that this bill/effort aims to help. Please use common sense and focus on attainable positive impact police reforms such as extra funding for modernized non-lethal equipment options, training and modernized police protection equipments to aid in de-escalation.

**Comments for Public Posting:** I am opposed to defunding our LAPD and moving those funds into the general fund. Our police dept is understaffed as it is. What we do need is better training, more recruitment of college grads and less emphasis on military experience (unless MP). We need more police on the streets, so that our communities can get to know and casually recognize the "cops on the beat". Having an officer in a squad car drive past at a distance does not allow local residents and businesses to establish a friendly relationship with those officers. Reducing training, salaries, and staff will not improve things. Even if the defunding went directly to social & mental case workers (which it won't).... you cannot call a case worker on 911 to report a situation of DOMESTIC VIOLENCE in the apartment near you.... you hear screams, shouting, and crashing noises. You need a trained POLICE OFFICER to break up the fight before someone gets killed or brutally beaten. Marriage counselors can play a role, later. If you see a man, wildly swinging a large knife in a parking lot, and trying to stab shoppers... you do not call a mental health counselor; you need law enforcement ASAP to control the threat. Removing law enforcement (SRO) from school campuses..... what short memories people have. Last year, we were worried about active school shooters, but did not want to have volunteer & trained faculty with guns. So we opted for trained officers. And not only just to deal with active shooters, but campus felonies such as drugs, violent bullying, threats to faculty, gang presence. Those are not minor infractions for a vice principal to deal with, such as not doing homework. Those are CRIMINAL activities. Sure, police arrests increased when SRO's were available to intervene. Because major crimes were being committed; not because someone missed a question on a quiz.

**Comments for Public Posting:** Defunding the LAPD will be terrible mistake. How is compromising public safety and enabling a high crime rate going to help anyone? The truth is that the people that will be the most adversely affected by cutting the LAPD are in the poor neighborhoods where people of color live. They are the ones most likely to suffer the most if we lose our public safety. We need reconciliation and peace among people. We need to be sensitive to the lives and feelings of people of color. Changes must be made so that we are truly a nation of liberty and justice for all in deed and not just words. Increases in mayhem and crime will only lead to flight of the tax base and economic degradation. DO NOT DEFUND THE LAPD!

**Comments for Public Posting:** I am responding to Item # 1 on your agenda. The proposed budget cuts to the Los Angeles Police Department are foolish, and will place the citizens of Los Angeles and surrounding areas in great peril. At a time when the Los Angeles County Sheriff is releasing dangerous criminals at an unprecedented rate, the Citizens of Los Angeles need a stronger Police Department, not a weakened one. Your proposed cuts will result in a decrease in the number of civilian and sworn officers and will most certainly lead to significant increases in response times, resulting in Death and destruction. The rationale for redirecting monies from the Police budget to social programs and underserved communities, expecting a reduction in crime, is naive and uninformed. It will adversely affect the safety of the very communities you purport to help. I implore you, please DO NOT DECREASE FUNDING FOR THE LOS ANGELES POLICE DEPARTMENT. Additionally, please note my OPPOSITION to items J and B.  
Sincerely, Dr. Charles Litman

**Comments for Public Posting:** Council File 20-0692 Enclosed is my response to LAPD budget cuts. Why are they wearing so many "hats". They are being asked to be social workers, mental health counselors and medics to drug overdoses. Why haven't you demanded the State of California Health Services, including LA County DHS Mental Health fund these programs? I see what response teams they do deploy...they require having law enforcement present. So even if they start doing their jobs...you will still need to fund officers to these programs. Don't Defund LAPD and keep my City of Angels safe!!! Susan McCartney, RN

To: Los Angeles City Council Members,

Since 1967, California has closed State Hospitals and dumped their mental patients into our communities. We then empowered law enforcement to write psychiatric holds. We decide it is a "police matter" and expect them to remove mental illness from our communities. This fills our jails with people who are not getting the correct treatments. As a psychiatric nurse...I never saw DHS Mental Health organize enough SMART(Mental Health Response Team) people. I saw countless 5150 Holds (72 hour psychiatric evaluations) being brought in by law enforcement. Taking these units from real law enforcement duties. These officers are now having to administer Narcan for drug-over doses on our homeless. How many "freakin" hats to you expect them to wear? When did they become Mental Health counselors, Social workers and medics? Why isn't California DHS funding these programs? We hear "defund the police". Where in the "hades" is our DHS people on these 911 calls? FYI....Call 1-800-854-7771 on every bus stop bench. Educate the public to direct their "911 Calls" to this number and hold DHS accountable to doing their job!!! Make them put our tax dollars to work!!!

Susan McCartney, RN
