Comments for Public Posting: I'm writing to demand that the LA city Council vote to prohibit LAPD and any of our law enforcement organizations from cooperating with DHS, ICE, CBP, or any Federal law enforcement agency. Also writing to demand that LA County cancels rent for as long as we are under any form of covid 19 lockdown. Lastly, End Qualified Immunity, Prosecute Killer Cops, and Defund law enforcement and use those funds for community aid, education, healthcare, providing free or low cost housing, ending food apartheid and addressing mental illness in our communities.

Comments for Public Posting: Do not transfer AB 1290 Redevelopment Funds to Police Overtime or other Police funding. Funds earmarked for Redevelopment are essential. Defunding LAPD is an overwhelming force. End runs to expressly fund over-time Policing rates are particularly offensive as Redevelopment. In an area with active landfill the communities needs are intended to be met and can be met with the small amount remaining. The City has been bankrupting by bonding Civil Litigation debt from settlements for Police conduct that always derive from moneies to be used for direct public benefit. To intentionally finance overtime hours by a force KNOWN to be increasing the rate of settlements for improper conduct CLEARLY conflicts with the rights of residents to be free from over-worked public employees receiving inflated compensation with a heightened risk of executing poor and compromised judgment.

Comments for Public Posting: Redirection of Amenities Fund for use within 5 miles of landfill to fund additional Police work in Granada Hills is an end run attempt to offset & oppose police Defunding while sacrificing real improvement in the area adjacent to the landfill. The existence & functioning of areas adjacent to landfills are a necessary and dedicated funding function. Efforts to increase Policing are not amenity funding activity. Additional Policing does not reduce crime and does increase the risk of Police Officers acting out in a manner that puts direct pressure on all other public monies to find settlements, the # of which are increasing steadily. Deny Board/Council member attempts to increasenfunding for increased Policing by means other than direct and transparent appeals to voters. Complicity in small fund earmarked redirections ARE not rewarded by your voting ublic. We are educated, active, alert & appalled by this motion and his similar motion in an adjacent are utilizing Redevelopment Funds of Police overtime.
