Comments for Public Posting: I see you are trying to allocate funds for a renovation and pedestrianization of Hollywood Boulevard. Christopher Street West, which organizes the LA pride every year, has for the first time decided not to host the event in West Hollywood, citing new construction, changing demographics, and seeking a location to better align themselves with other causes. I think Hollywood would be ideal. Hollywood is a diverse neighborhood, it is a center-point /meeting point for protestors and calls fro action, and it is affordable for many lgbtq and doc "just off the bus". I feel like it would be a great idea if Hollywood could lure the pride festival onto Hollywood boulevard, and with the extra revenue that brings to businesses and hotels, it might help secure funding for the needed renovation! Best Declan
