Council File No: 20-0838

Comments for Public Posting: Motion in support of CF #20-0838 / Permanent Slow Streets On May 15, 2020, Mayor Eric Garcetti announced the Slow Streets Program in Los Angeles. This program - putting up temporary barriers at intersections asking cars to slow down and not cut through - has successfully led to many of our streets being calmer and having fewer cars, making them safer to walk, run, bike and scoot. All over Los Angeles, cut through traffic is a constant issue, making our streets less safe and peaceful. Furthermore, during the COVID-19 stay at home order, many more people are walking, running, and biking in our streets, and our sidewalks are not wide enough to allow people to do so while maintaining recommended social distance guidelines. Therefore, we would like to state our support for Council File 20-0838, and ask the City to make slow streets permanent. We believe that using permanent materials will have a positive impact on the safety of our streets, the peacefulness of our community, and quality of life in Los Angeles.
