I am writing to let you know that I called in to the appeal meeting and was unable to listen to the meeting from my phone, but had to listen on my computer. I was holding on the phone for 77 minutes, I had followed the directions *9 etc. when the committee called my number to speak, the call was disconnected! Literally as the speaker was saying my number, the prompter on the phone said-thank you goodbye. There was no ability to listen on the phone while holding for public comment.

Thank you,

Varsi Amerian
