**Comments for Public Posting:** The City of Los Angeles should ban stops for all equipment and administrative (i.e., non-moving) violations. To the extent these stops occur, officers should not be allowed to conduct consent searches, nor searches based solely on a person's probation or parole status.

**Comments for Public Posting:** I ask for the Council's support to end Pretextual Stops, an enforcement that contributes to racial profiling, harm and violence, specifically for our Black and Brown communities. We need to move from an ineffective approach to traffic safety that prioritizes criminalization instead of community healing policies and practices that are rooted in principles of care, equity, and anti-racism.
