**Comments for Public Posting:** Item 3: In regard to “retaining certain emergency ordinances” The Ordinances imposing mask mandates and vaccine mandates are unconstitutional. Our Constitution ensures Equal protection of the law, meaning that every human being who has a lawful purpose and is behaving appropriately in public should be subject to the same laws as everyone else despite their religious beliefs and personal characteristics. Our Constitution also ensures that we have the freedom of expression and religion meaning that any person should be subject to the same access to expression, religion, and speech as everyone else. The ordinances such as the Mask and Vaccine proof mandates are unlawful, unconstitutional, and proof of a eugenicist trend to stamp out individual liberties in favor this current public health oligarchy. We the people demand a redress of the vaccine proof ordinance, the mask mandates, and we demand an end to this pseudo-scientific emergency.
