We find this alternative ordinance takes into account the concerns of residents while still providing consideration to the greater restaurant community. Thank you for hearing the voice of the Independent Hospitality Community. We are dedicated to serving our community by working with government agencies on reasonable progress. The food service business community suffered the most job losses compared to any other business type, changing the way we must forge ahead to survive. Making processes like these easier to navigate will give us confidence that our elected officials are hearing us and serving us – so we may ALL be the best active citizens in our city. Thank you, Andrea Achroer
