Comments for Public Posting: My name is Alex, I live in district 9. I urge the council members to fund SHLA. I'm here on behalf of my parents. We've been dealing with threats of eviction, harassment, and illegal practices from our landlord. The SHLA program would provide the necessary funds for lawyers to make a living, and provide an opportunity for me and families like mine, dealing with financial and health struggles to get access representation. We are struggling as is, my little sister has leukemia and have another with struggling with Alzheimer's. Again, we, the people of ACCE and constituents of California, to fund SHLA, this could change everything for us. Thank you for your time.

Comments for Public Posting: Ítem 50 and General Public comment. My name is Flor, I live in District 8. I am an organizer with ACCE. I urge council member Marqueece to add to the agenda SHLA MOTION and instruct the city attorney city attorney to carry on with the 4 contracts with the SHLA Program and to instruct LAHD to release the allocation funds immediately in accordance with the budget amounts and expedite the payment process to ensure organizations can continue providing SHLA Services to tenants in the city of LA. I currently have two families that are hopeful that they can get representation when their hearing date comes. These families are at risk of becoming homeless. Ralease the funds before July first. Community organizations are needed in our community to educate and guide the constituents of Los Angeles.
