Council File No: 20-1359

Comments for Public Posting: I am a community organizer with the Eastside LEADS coalition. We believe that any development must center and be guided by the needs and priorities of local residents. This project does not meet the need and in fact, is of concern to long-time residents because of it being a toxic site. Do not use public funds to support its construction. Listen to the recommendations and concerns of the Lincoln Heights Community Coalition.
