**Comments for Public Posting:** We need transit shelters. Transit shelters provide a better experience while riding transit as you get shade and a seat while waiting for a bus. Abolish the Police, abolish 41.18, stop limiting public comment and listen to public comment

**Comments for Public Posting:** I support bus shelters that provide shade and electronic information for riders. I oppose electronic billboards that can be seen by drivers. These are very distracting and cause accidents.

**Council File No:** 20-1536-S2

**Comments for Public Posting:** The proposed project would include excess additional light and glare into the nighttime environment. This impact needs to be evaluated, especially as it contributes to light pollution from the City of Los Angeles, which has an adverse impact on migratory birds. On behalf of Los Angeles Audubon Society, I urge a no vote on approval of the environmental clearance for the Sidewalk and Transit Amenities Program (STAP). Travis Longcore, Ph.D. President Los Angeles Audubon Society
