Subject: BPW-2022-0539 STAP Contract Needs More Public Input  
Dear Mr. Espinosa,

RE: BPW-2022-0539, CF 20-1536 and 20-1536-S1

I write to urge you to demand more input and transparency on the STAP contract that the Board of Public Works is scheduled to review during its meeting on Wednesday, Aug. 17.

The STAP Program will introduce more unwanted and unsafe digital signage to LA neighborhoods.

No safety studies have been conducted, nor have environmental impact studies. Evidence shows that digital billboards kill.

An EIR should be done for a program of this scope. An MND is not enough.

The contract to be reviewed on Wednesday has been edited, but the marked-up version of the document has not been publicly shared, nor has a chart showing comparisons between the two versions.

The City Attorney Office's report is also not available for public review.

We do not know if the totally unacceptable newly proposed LAMC allowing undefined numbers and types of advertising structures on OUR public right-of-way remains part of the STAP program. It must not go forward and must be removed.

Thank you for your attention to this important matter.

Sincerely,  
Lynne Weiske  
6128 Wilshire  
Los Angeles, CA 90048

Dear Mr. Espinosa,

RE: BPW-2022-0539, CF 20-1536 and 20-1536-S1

There needs to be more public input on the industry-created STAP contract that the Board of Public Works is scheduled to review during its meeting on Wednesday, Aug. 17.

The STAP Program will introduce more unwanted and unsafe digital signage to our Los Angeles neighborhoods.

And, as always, the relatively small percentages of ad revenue going into City coffers will not come anywhere close to the COST to us residents in terms of reduced safety and diminished aesthetics.

Evidence shows that digital billboards kill.

An EIR should be done for a program of this scope. An MND is not enough.

Despite the huge investment of BPW bureaucratic staff time already vested in this industry – stimulated proposal, this project should STOP NOW.

At a minimum, further Board review should be delayed until there is proper study of the serious safety and environmental impacts.

Sincerely,  
John Welborne

No safety studies have been conducted, nor have environmental impact studies. Evidence shows that digital billboards kill.

An EIR should be done for a program of this scope. An MND is not enough.

The contract to be reviewed on Wednesday has been edited, but the marked-up version of the document has not been publicly shared, nor has a chart showing comparisons between the two versions.

The City Attorney Office's report is also not available for public review.

We do not know if the totally unacceptable newly proposed LAMC allowing undefined numbers and types of advertising structures on OUR public right-of-way remains part of the STAP program. It must not go forward and must be removed.

Thank you for your attention to this important matter.

Sincerely,  
Ken Rosen

Dear Mr. Espinosa,

RE: BPW-2022-0539, CF 20-1536 and 20-1536-S1

I write to urge you to demand more input and transparency on the STAP contract that the Board of Public Works is scheduled to review during its meeting on Wednesday, Aug. 17.

The STAP Program will introduce more unwanted and unsafe digital signage to LA neighborhoods.

No safety studies have been conducted, nor have environmental impact studies. Evidence shows that digital billboards kill.

An EIR should be done for a program of this scope. An MND is not enough.

The contract to be reviewed on Wednesday has been edited, but the marked-up version of the document has not been publicly shared, nor has a chart showing comparisons between the two versions.

Subject: BPW-2022-0539 STAP Contract Needs More Public Input  
Dear Mr. Espinosa,

RE: BPW-2022-0539, CF 20-1536 and 20-1536-S1

I write to urge you to demand more input and transparency on the STAP contract that the Board of Public Works is scheduled to review during its meeting on Wednesday, Aug. 17.

The STAP Program will introduce more unwanted and unsafe digital signage to LA neighborhoods.

No safety studies have been conducted, nor have environmental impact studies. Evidence shows that digital billboards kill.

An EIR should be done for a program of this scope. An MND is not enough.

The contract to be reviewed on Wednesday has been edited, but the marked-up version of the document has not been publicly shared, nor has a chart showing comparisons between the two versions.

The City Attorney Office's report is also not available for public review.

We do not know if the totally unacceptable newly proposed LAMC allowing undefined numbers and types of advertising structures on OUR public right-of-way remains part of the STAP program. It must not go forward and must be removed.

Thank you for your attention to this important matter.

Sincerely,  
Barbara Broide  
2001 Malcolm Ave.  
Los Angeles, CA 90025

Date: Mon, 15 Aug 2022 22:27:43 -0400  
Subject: BPW-2022-0539 STAP Contract Needs More Public Input  
Dear Mr. Espinosa,

RE: BPW-2022-0539, CF 20-1536 and 20-1536-S1

I don't believe it's proper to have a hearing on Wednesday, seeking public input on a contract that it not part of the file yet. How can anyone comment on a contract when they can't see it in advance of the hearing? Doesn't the Brown Act require information and transparency? The contract to be reviewed on Wednesday has supposedly been edited, but the edited version of the document has not been publicly shared, nor has a chart showing comparisons between the two versions.

I am strongly opposed to any STAP Program which includes advertising. It's selling our outdoor space to the highest bidder who will create visual blight by installing clutter and distracting signage. Studies show that digital billboards are unsafe. They are a menace to drivers, who then injure pedestrians.

How does the STAP Program reconcile with the City's ban on off-site outdoor advertising?

An EIR should be done for a program of this scope. An MND is not enough.

We do not know if the totally unacceptable newly proposed LAMC allowing undefined numbers and types of advertising structures on OUR public right-of-way remains part of the STAP program. It must not go forward and must be removed.

If any of the advertising is in the Coastal Zone, a Coastal Commission permit is required, and will be strongly opposed.

Thank you for considering my opinion.

Sincerely,  
Robert Aronson

The contract to be reviewed on Wednesday has been edited, but the marked-up version of the document has not been publicly shared, nor has a chart showing comparisons between the two versions.

The City Attorney Office's report is also not available for public review.

We do not know if the totally unacceptable newly proposed LAMC allowing undefined numbers and types of advertising structures on OUR public right-of-way remains part of the STAP program. It must not go forward and must be removed.

Thank you for your attention to this important matter.

Sincerely,  
Helen Fallon  
425 Linnie Canal  
Venice, CA 90291

Subject: BPW-2022-0539 STAP Contract Needs More Public Input  
Dear Mr. Espinosa,

RE: BPW-2022-0539, CF 20-1536 and 20-1536-S1

I write to urge you to demand more input and transparency on the STAP contract that the Board of Public Works is scheduled to review during its meeting on Wednesday, Aug. 17.

The STAP Program will introduce more unwanted and unsafe digital signage to LA neighborhoods.

No safety studies have been conducted, nor have environmental impact studies. Evidence shows that digital billboards kill.

An EIR should be done for a program of this scope. An MND is not enough.

The contract to be reviewed on Wednesday has been edited, but the marked-up version of the document has not been publicly shared, nor has a chart showing comparisons between the two versions.

The City Attorney Office's report is also not available for public review.

We do not know if the totally unacceptable newly proposed LAMC allowing undefined numbers and types of advertising structures on OUR public right-of-way remains part of the STAP program. It must not go forward and must be removed.
