Subject: BPW-2022-0539 STAP Contract Needs More Public Input
Dear Mr. Espinosa,

RE: BPW-2022-0539, CF 20-1536 and 20-1536-S1

I write to urge you to demand more input and transparency on the STAP contract that the Board of Public Works is scheduled to review during its meeting on Wednesday, Aug. 17.

The STAP Program will introduce more unwanted and unsafe digital signage to LA neighborhoods.

No safety studies have been conducted, nor have environmental impact studies. Evidence shows that digital billboards kill.

An EIR should be done for a program of this scope. An MND is not enough.

The contract to be reviewed on Wednesday has been edited, but the marked-up version of the document has not been publicly shared, nor has a chart showing comparisons between the two versions.

The City Attorney Office's report is also not available for public review.

We do not know if the totally unacceptable newly proposed LAMC allowing undefined numbers and types of advertising structures on OUR public right-of-way remains part of the STAP program. It must not go forward and must be removed.

Thank you for your attention to this important matter.

Sincerely,
Rick VanDran
9318 S Figueroa St
Los Angeles, CA 90003

Subject: BPW-2022-0539 STAP Contract Needs More Public Input
Dear Mr. Espinosa,

RE: BPW-2022-0539, CF 20-1536 and 20-1536-S1

I write to urge you to demand more input and transparency on the STAP contract that the Board of Public Works is scheduled to review during its meeting on Wednesday, Aug. 17.

The STAP Program will introduce more unwanted and unsafe digital signage to LA neighborhoods.

No safety studies have been conducted, nor have environmental impact studies. Evidence shows that digital billboards kill.

An EIR should be done for a program of this scope. An MND is not enough.

The contract to be reviewed on Wednesday has been edited, but the marked-up version of the document has not been publicly shared, nor has a chart showing comparisons between the two versions.

The City Attorney Office's report is also not available for public review.

We do not know if the totally unacceptable newly proposed LAMC allowing undefined numbers and types of advertising structures on OUR public right-of-way remains part of the STAP program. It must not go forward and must be removed.

Thank you for your attention to this important matter.

Sincerely,
Susan. Meals

The residents of Los Angeles are fed up with OUR money paying for items we do not get to see appropriate contracts, reports, for. The City's lack of concern for basic public safety by allowing digital ads under the guise of shelter for public transportation is appalling- and with traffic fatalities up, pedestrian fatalities up, please expect law suits holding the City responsible for the digital ads being shoved down out throats as distracted driving surges.

Sincerely,
Janine Milne

The STAP Program will introduce more unwanted and unsafe digital signage to LA neighborhoods.

No safety studies have been conducted, nor have environmental impact studies. Evidence shows that digital billboards kill.

An EIR should be done for a program of this scope. An MND is not enough.

The contract to be reviewed on Wednesday has been edited, but the marked-up version of the document has not been publicly shared, nor has a chart showing comparisons between the two versions.

The City Attorney Office's report is also not available for public review.

We do not know if the totally unacceptable newly proposed LAMC allowing undefined numbers and types of advertising structures on OUR public right-of-way remains part of the STAP program. It must not go forward and must be removed.

Thank you for your attention to this important matter.

Sincerely,
Timothy Vila

Subject: BPW-2022-0539 STAP Contract Needs More Public Input

Dear Mr. Espinosa,

RE: BPW-2022-0539, CF 20-1536 and 20-1536-S1

I write to urge you to demand more input and transparency on the STAP contract that the Board of Public Works is scheduled to review during its meeting on Wednesday, Aug. 17.

The STAP Program will introduce more unwanted and unsafe digital signage to LA neighborhoods.

No safety studies have been conducted, nor have environmental impact studies. Evidence shows that digital billboards kill.

An EIR should be done for a program of this scope. An MND is not enough.

The contract to be reviewed on Wednesday has been edited, but the marked-up version of the document has not been publicly shared, nor has a chart showing comparisons between the two versions.

The City Attorney Office's report is also not available for public review.

We do not know if the totally unacceptable newly proposed LAMC allowing undefined numbers and types of advertising structures on OUR public right-of-way remains part of the STAP program. It must not go forward and must be removed.

Thank you for your attention to this important matter.
