Subject: BPW-2022-0539 STAP Contract Needs More Public Input
Dear Mr. Espinosa,

RE: BPW-2022-0539, CF 20-1536 and 20-1536-S1

I write to urge you to demand more input and transparency on the STAP contract that the Board of Public Works is scheduled to review during its meeting on Wednesday, Aug. 17.

The STAP Program will introduce more unwanted and unsafe digital signage to LA neighborhoods.

No safety studies have been conducted, nor have environmental impact studies. Evidence shows that digital billboards kill.

An EIR should be done for a program of this scope. An MND is not enough.

The contract to be reviewed on Wednesday has been edited, but the marked-up version of the document has not been publicly shared, nor has a chart showing comparisons between the two versions.

The City Attorney Office's report is also not available for public review.

We do not know if the totally unacceptable newly proposed LAMC allowing undefined numbers and types of advertising structures on OUR public right-of-way remains part of the STAP program. It must not go forward and must be removed.

Thank you for your attention to this important matter.

Sincerely,
Amelia Jones

Dear Mr. Espinosa,

RE: BPW-2022-0539, CF 20-1536 and 20-1536-S1

I write to urge you to demand more input and transparency on the STAP contract that the Board of Public Works is scheduled to review during its meeting on Wednesday, Aug. 17.

The STAP Program will introduce more unwanted and unsafe digital signage to LA neighborhoods.

No safety studies have been conducted, nor have environmental impact studies. Evidence shows that digital billboards kill.

An EIR should be done for a program of this scope. An MND is not enough.

The contract to be reviewed on Wednesday has been edited, but the marked-up version of the document has not been publicly shared, nor has a chart showing comparisons between the two versions.

The City Attorney Office's report is also not available for public review.

We do not know if the totally unacceptable newly proposed LAMC allowing undefined numbers and types of advertising structures on OUR public right-of-way remains part of the STAP program. It must not go forward and must be removed.

Thank you for your attention to this important matter.

Sincerely,
Karen Pedersen
954 Elyria Dr
Los Angeles, CA 90065

Dear Mr. Espinosa,

RE: BPW-2022-0539, CF 20-1536 and 20-1536-S1

I write to urge you to demand that you abandon the STAP contract that the Board of Public Works is scheduled to review during its meeting on Wednesday, Aug. 17.

While it is the view of some that an EIR or increased transparency would be enough to appraise or revise such a contract, it is my view that advertising in publicly owned or operated space is unconscionable and must be totally prohibited. It is bad for the mental health of the viewers, allowing dubious corporations and organizations to target and influence old and young alike. Furthermore it allows corrupt governments to fund projects without taxpayer support. This reduces the need for resident buy-in and creates more government activity (and/or less efficient activity) than would otherwise occur. Essentially, constituents of politicians who sell public space for advertising aren't just victims of advertising they're forced to consume, they're also victims of whatever government projects the advertising will fund. And the corrupt politicians involved are now dependent on the advertisers and advertising companies to fund their projects when they ought to be beholden to the taxpayers alone.

Shame on any politician who would sell off our public spaces as tools of influence for corporations. You're selling access to the minds of your constituents to the highest bidder.

Sincerely,
Andrew Utas

An EIR should be done for a program of this scope. An MND is not enough.

The contract to be reviewed on Wednesday has been edited, but the marked-up version of the document has not been publicly shared, nor has a chart showing comparisons between the two versions.

The City Attorney Office's report is also not available for public review.

We do not know if the totally unacceptable newly proposed LAMC allowing undefined numbers and types of advertising structures on OUR public right-of-way remains part of the STAP program. It must not go forward and must be removed.

Thank you for your attention to this important matter.

Sincerely,
Denise Hudson

Subject: BPW-2022-0539 STAP Contract Needs More Public Input
Dear Mr. Espinosa,

RE: BPW-2022-0539, CF 20-1536 and 20-1536-S1

I write to urge you to demand more input and transparency on the STAP contract that the Board of Public Works is scheduled to review during its meeting on Wednesday, Aug. 17.

The STAP Program will introduce more unwanted and unsafe digital signage to LA neighborhoods.

No safety studies have been conducted, nor have environmental impact studies. Evidence shows that digital billboards kill.

An EIR should be done for a program of this scope. An MND is not enough.

The contract to be reviewed on Wednesday has been edited, but the marked-up version of the document has not been publicly shared, nor has a chart showing comparisons between the two versions.

The City Attorney Office's report is also not available for public review.

Subject: BPW-2022-0539 STAP Contract Needs More Public Input
Dear Mr. Espinosa,

RE: BPW-2022-0539, CF 20-1536 and 20-1536-S1

The entire process of considering the STAP street furniture contract has been conducted without transparency or compliance with the California Environmental Quality Act.

The STAP Program will introduce more unwanted, polluting, unsafe digital signage to LA neighborhoods, but no safety studies have been conducted, nor have environmental impact studies. An EIR should be done for a program of this scope; a MND is not defensible.

The contract to be reviewed on Wednesday has been edited, but the marked-up version of the document has not been publicly shared, nor has a chart showing comparisons between the two versions.

The City Attorney Office's report is also not available for public review.

These documents must be released for public review or the project must be rejected.

Thank you for your attention to this important matter.

Sincerely,
jess zelniker
