Council File No: 20-1536

Comments for Public Posting: I join all my fellow Angelenos who support the provision of shade and shelter for transit riders BUT cannot support and strongly oppose the STAP program as proposed. I urge the Council to reject the program. The STAP program is a failed effort that will open up our public right-of-way to advertising structures citywide with its new LA Municipal Code language. It is a Trojan Horse for advertising programs, not a transportation program. Transit riders and our city deserve a program that guarantees more shelters, reinvestment of program funds for shelters, and no distracting digital changing messages. Send the program back to Public Works/StreetsLA. It is not ready to be seriously considered.
