**Comments for Public Posting:** I am writing to strongly oppose the part of "STAP" that includes digital advertising structures on LA's sidewalks, parkways and streets. These are a blight to our streets and create significant light pollution and driver distraction. Please don't sell out the beauty of our city (again). The existing ones should never have been approved in the first place. Burying this language in the "STAP" proposal proves that LA City officials are not being transparent about important issues affecting our neighborhoods. This kind of action feeds mistrust of leadership.
