Subject: CF 20-1536 and CF 20-1536-S1 Comments: STAP Contract Needs More Public Input

To: City Clerk <CityClerk@lacity.org>

To whom it may concern:

RE: BPW-2022-0539, CF 20-1536 and 20-1536-S1

I write to urge you to demand more input and transparency on the STAP contract that the Board of Public Works is scheduled to review during its meeting on Wednesday, Aug. 17.

The STAP Program will introduce more unwanted and unsafe digital signage to LA neighborhoods.

No safety studies have been conducted, nor have environmental impact studies. Evidence shows that digital billboards kill.

An EIR should be done for a program of this scope. An MND is not enough.

The contract to be reviewed on Wednesday has been edited, but the marked-up version of the document has not been publicly shared, nor has a chart showing comparisons between the two versions.

The City Attorney Office's report is also not available for public review.

We do not know if the totally unacceptable newly proposed LAMC allowing undefined numbers and types of advertising structures on OUR public right-of-way remains part of the STAP program. It must not go forward and must be removed.

Thank you for your attention to this important matter.

Sincerely,
Rick VanDran

The residents of Los Angeles are fed up with the City spending OUR money yet not disclosing contracts and reports to the tax payers footing the bills for the City- including all cc'd on this public comment. The digital advertising being forced on the residents in the guise of shelter for those using public transportation is quite simply dangerous to public safety. The City will be held responsible for pursuing this when traffic fatalities and pedestrian fatalities are up- and will be sued when distracted driving takes even more lives with these dangerous ads.

Sincerely,
Janine Milne

To whom it may concern:

RE: BPW-2022-0539, CF 20-1536 and 20-1536-S1

I write to urge you to demand more input and transparency on the STAP contract that the Board of Public Works is scheduled to review during its meeting on Wednesday, Aug. 17.

The STAP Program will introduce more unwanted and unsafe digital signage to LA neighborhoods.

No safety studies have been conducted, nor have environmental impact studies. Evidence shows that digital billboards kill.

An EIR should be done for a program of this scope. An MND is not enough.

The contract to be reviewed on Wednesday has been edited, but the marked-up version of the document has not been publicly shared, nor has a chart showing comparisons between the two versions.

The City Attorney Office's report is also not available for public review.

We do not know if the totally unacceptable newly proposed LAMC allowing undefined numbers and types of advertising structures on OUR public right-of-way remains part of the STAP program. It must not go forward and must be removed.

Thank you for your attention to this important matter.

Sincerely,
Brenda Martinez

To whom it may concern:

RE: BPW-2022-0539, CF 20-1536 and 20-1536-S1

I write to urge you to demand more input and transparency on the STAP contract that the Board of Public Works is scheduled to review during its meeting on Wednesday, Aug. 17.

The STAP Program will introduce more unwanted and unsafe digital signage to LA neighborhoods.

No safety studies have been conducted, nor have environmental impact studies. Evidence shows that digital billboards kill.

An EIR should be done for a program of this scope. An MND is not enough.

The contract to be reviewed on Wednesday has been edited, but the marked-up version of the document has not been publicly shared, nor has a chart showing comparisons between the two versions.

The City Attorney Office's report is also not available for public review.

We do not know if the totally unacceptable newly proposed LAMC allowing undefined numbers and types of advertising structures on OUR public right-of-way remains part of the STAP program. It must not go forward and must be removed.

Thank you for your attention to this important matter.

Sincerely,
Fjaere Christine Nilssen Mooney

To whom it may concern:

RE: BPW-2022-0539, CF 20-1536 and 20-1536-S1

I write to urge you to demand more input and transparency on the STAP contract that the Board of Public Works is scheduled to review during its meeting on Wednesday, Aug. 17.

The STAP Program will introduce more unwanted and unsafe digital signage to LA neighborhoods.

No safety studies have been conducted, nor have environmental impact studies. Evidence shows that digital billboards kill.

An EIR should be done for a program of this scope. An MND is not enough.

The contract to be reviewed on Wednesday has been edited, but the marked-up version of the document has not been publicly shared, nor has a chart showing comparisons between the two versions.

The City Attorney Office's report is also not available for public review.

We do not know if the totally unacceptable newly proposed LAMC allowing undefined numbers and types of advertising structures on OUR public right-of-way remains part of the STAP program. It must not go forward and must be removed.

Thank you for your attention to this important matter.

Sincerely,
Daniel Costa

The City Attorney Office's report is also not available for public review.

We do not know if the totally unacceptable newly proposed LAMC allowing undefined numbers and types of advertising structures on OUR public right-of-way remains part of the STAP program. It must not go forward and must be removed.

Thank you for your attention to this important matter.

To whom it may concern:

RE: BPW-2022-0539, CF 20-1536 and 20-1536-S1

I write to urge you to demand more input and transparency on the STAP contract that the Board of Public Works is scheduled to review during its meeting on Wednesday, Aug. 17.

The STAP Program will introduce more unwanted and unsafe digital signage to LA neighborhoods.

No safety studies have been conducted, nor have environmental impact studies. Evidence shows that digital billboards kill.

An EIR should be done for a program of this scope. An MND is not enough.

The contract to be reviewed on Wednesday has been edited, but the marked-up version of the document has not been publicly shared, nor has a chart showing comparisons between the two versions.

The City Attorney Office's report is also not available for public review.

We do not know if the totally unacceptable newly proposed LAMC allowing undefined numbers and types of advertising structures on OUR public right-of-way remains part of the STAP program. It must not go forward and must be removed.

Thank you for your attention to this important matter.

Sincerely,
