Some animals have died during this "fun and expertise of being cruel". These people should go through the ritual of what they do to the animals and experience firsthand their actions. Basically, these are just ignorant people who have no other talents or intelligence to do something constructive. Just what does this cruelty accomplish?

Overall, it's beyond time to evolve as a society and eliminate any use of an animal for entertainment purposes - especially one where you hogtie and throw down innocent animals for a competition score. Not to mention use of torture devices to 'motivate' them to move. Archaic, barbaric sport. CA is better than that.

**Comments for Public Posting:** RODEO - "AMERICA'S SHAME": Rodeos are a severely outdated form of “entertainment”, which subjects bulls, steers, and horses to mistreatment and cruelty. The animals used in rodeos are at a high risk of injury and possible death. ANIMAL CRUELTY IS NOT ENTERTAINING. Bull riding, calf roping, and bronc riding are shamefully cruel and a gross display of bravado. People provoke the bulls and horses into bucking and twisting, by using electric prodders, spurs on their shoes, and a ‘flank strap’, pulled tightly around their sensitive belly. “Calf roping” involves provoking, chasing, roping, and wrestling terrified babies to the ground. Animals in rodeos commonly suffer broken bones, torn ligaments, and spinal injuries, many of which can be fatal. They also exhibit signs of severe distress, such as crying out, drooling, and frantically trying to escape from the bucking chute. Animal cruelty is defined as an infliction, by humans, of suffering or harm upon any non-human animal. Rodeos are a perfect display of purposefully inflicting suffering and harm on non-human animals and have no place in society. - All rodeos should be banned.

**Comments for Public Posting:** Rodeo is more important than other sporting event. There is more to it than just the entertainment or sport. There is a extremely long history backing the sport of rodeo tying it to the doctoring and care of animals. If it wasn't for the need to take care of the animals rodeo wouldn't exist however Mother Nature is brutal and will kill all without protection. That could be a predator attack on a horse or a infection in a cow. Steer wrestling, calf roping, and team roping all originate from doctoring cattle outside in the elements. To get to a cow outside you can't just walk up to it without it running away from you. That's where the horses assistance is necessary to catch the cow and save its life. To take another step back, you cannot go jump on a untouched horse and go catch the cow you have to train the horse first. This is where saddle bronc and bareback bronc riding originated. The first time a horse handled they might try to fight or flight. And because they are athletes they can buck and run. The barrel racing is the basic demonstration of the skills a horse would need to complete the other events; speed, agility and surefooted. Breakaway roping is a simplified version of calf roping to showcase the women of the western industry. Bull riding and became a showcase of a human athlete and an animal athlete dancing as one. In conclusion without rodeo we're not America because this is a free country and everyone seemed determined to make it not free. Keep rodeo and keep America free!
