Comments for Public Posting: I support working animals, doing what the are bred and love to do. These animal athletes are treated like the royalty they are. Do not destroy our cultural heritage for an animal rights extremist agenda that will eventually eliminate animal use and ownership of even domestic animals. Educate yourself in the writings, lawsuits and well documented agenda of these organizations.

Comments for Public Posting: I'm opposed to the ban on rodeo and Equestrian competitions! Western heritage has been around a lot longer then all the shallow hals pushing the ban! We take pride in the animals and take better care of them then the people that are pushing these agendas take care of their own children! Letting a few uneducated people with more money than sense have a say over a lifestyle and true professionals in a field is just shy of complete ignorance!

Comments for Public Posting: Please keep rodeo!!! It is so unfortunate that the ignorance of some people can destroy an industry. Rodeo animals are not cheap.... these animals are cared for better than a lot of people in this country. They may have a minute that looks bad.. if you notice most the time rodeo events are under a minute in each event!!! Most people have more the one minute per day that isn't fun! The positive economic impact that a rodeo brings to a city is big. Most young people in rodeo are productive members in our society. Leave rodeo be

Comments for Public Posting: I don't understand your misguided attempts to do away with a sport that is part of our heritage. I really don't understand why anyone believes the lies that PETA spues. That organization is against anyone having anything to do with animals. Please do not listen to them ever and let the sport of rodeo continue. Go to one yourselves to see the great condition the animals are in!

Comments for Public Posting: PETA is just another liberal group thinking they are the most important thing in the world. Where was PETA when livestock was being burned in the panhandle of TEXAS, no where. Animals in rodeo are more taken care of than humans and are spoiled their whole life.

Comments for Public Posting: I 100% support rodeo. Rodeo has been a way of life for many generations of my family. There is no way that abuse has any role in rodeo. We love our animals, they are our family. They are taken care of with the best that money can buy. I know for certain mine are better taken care of than a lot of people's children. Don't stop rodeo because of people not understanding the sport and not having any idea of what goes on. This is another way to try to control a way of life and a business for so many people, by people who have total ignorance about the industry. I want to see rodeo stay so my family can continue to enjoy the western way of life, have the endless friendships made, and most importantly have the amazing connections with our horses that we have.

Comments for Public Posting: Rodeo sports or any sport astride a horse has its own governing systems of checks and balances. The proper remedy to any concerns would be through those channels. These sports have strengthened and supported many charities as well as developed our future leaders of community and Nation. This bill is a knee jerk response to a poorly researched and misrepresented topic. I urge the city to deny passage of this bill and to direct any public concerns to the governing entities and the legal recourse provided therein.

Comments for Public Posting: We as a society are trying to ban a lot of things these days. Rodeo is a sport that has taken place since the 1860's and still with all that history people have a real lack of knowledge with what takes place at a rodeo. It seems that every time we don't like something in this world we overemphasizes misinformation and try to ban the event. Please get the correct information before you vote to ban something.

Comments for Public Posting: Rodeos have been around for over a hundred years, they should be around for another hundred years. Rodeo stock is better cared for than many children in this country. There is a lot of misinformation out there, some uneducated but most a deliberate set of untruths. Before making any decisions do your research, go to a rodeo and see how well they are run and the care taken for all the livestock. Thank you

Comments for Public Posting: Please get the real facts about rodeo and all of its values before you make an unguided and uninformed decision to ban it in your city. This is an original American sport unlike many others. Many folks in your city are rodeo fans or work in associated businesses. The people pushing this are really going after anything livestock related which will impact our food supply making it more expensive, something many folks in your city can ill afford.

Comments for Public Posting: I support California rodeo! It is a wholesome family sport that has the best community engagement of anything I've seen. The cowboys competitors and ranchers have the animals best interest. Rodeo gives those animals a job and provides for countless family's. They would be meat otherwise PETA is delusional
