Comments for Public Posting: PBR bull riding has become part of our family! We tell people all the time this is our football. The care and love that goes into those animals is truly amazing. You can tell they are all loved and cherished. The riders put their life on the line for something they truly love. They take care of each other and support each other and not many sports do you ever see the same support of a fellow competitor. Banning this and taking it away is not okay and shouldn't happen!

Comments for Public Posting: Bull riding should NOT be banned. Rodeos are part of American heritage. The bulls get treated better than most people do, so using animal abuse or any other argument is unjustified. No harm comes to the animals. The bulls are treated amazingly well & they're not forced to buck. It's in their bloodlines, their genetics. They love what they do just as the cowboys love to ride. I think it's completely unfair that the liberals think the sport is abuse. Do boxers get abused? Do football players get abused? No they train, just as the bulls do. They get the best feed money can buy, the best vet care. The best if everything, so I really think you should reconsider this ban.
