Comments for Public Posting: It's time for Los Angeles to turn its unanimous vote into meaningful action. Animals should not be subjected to fear, stress, injury, or suffering for the sake of entertainment. Practices such as bull riding, calf roping, and steer wrestling have no place in a modern and compassionate society. I strongly support moving this ordinance forward and hope the City Council acts without further delay. Protecting animals is not a partisan issue—it's a matter of basic decency and respect for living beings.
