Comments for Public Posting: The proposal to ban rodeo or any other equine / bovine activity is one of the most uninformed politically and special interest money influenced issues to be considered in history. Those considering this must take the time and make the effort to discover the truth of these events and quit acting upon the advice of the special interest representatives that are obviously influencing this proposal. Rodeo and equine event producers and contestants are by far the most knowledgeable of the facts and the most conscientious of the welfare of all animals involved. If the animals were being endangered by the sport we would obviously be putting ourselves out of business by continuing. Please do your homework and fulfill the duties of the position you fill by acting on facts not politically correct narrative. The fact that they are sitting in your office and buying you lunch does not mean they are giving you the correct information. Please do NOT vote for this proposal. Thank you.

Comments for Public Posting: I was always told if a man can't do what he loves then why should he do anything at all? What's the point in living? You take a man's way of life then you take his lively hood. It's not something people can just do if it was easy everyone would be good at it. It's in our blood it's what we know it's what we love it's what we do. Why cut our throats because of people who have never lived this life don't like/understand this way of life? Some of us have never had anything handed to us.. blood, sweat, tears, drive and dedication is what made us. We are grateful for the life we live, we understand the meaning of respect. This country wasn't built behind a office desk and key pad. It was long hard days and very little sleep. I stand with the working man and the cowboy way of life.

Comments for Public Posting: I support the Rodeo and believe it is part of our heritage and history of our country. The events at a rodeo were a part of everyday life when this country was being settled. Cattle were grazing in open land and the cowboys did just what you see at a rodeo to brand, sort and gather cattle. Please get informed as to what a rodeo is and does and what tools are used for the events. These animals are taken care of and not harmed. They are valuable to their owners and they are treated like it. Please keep the Rodeo. The Rodeo is as American as the American Flag.

Comments for Public Posting: Please save our western heritage and support rodeos. Nobody truly cares about the health and safety of All livestock more then the cowboys and cowgirls who work with these animals as a daily part of their lives. It is the backbone of our country. The livestock in rodeos are true athletes and are treated and celebrated as such. False narratives are dominating platforms damaging the true supporters of this livestock.

Comments for Public Posting: Please do not ban rodeo in LA. The roots of our western lifestyle are deeply planted in California. Even California's own Vaquero culture has impacted some of the finest horse people in the world. Rodeo is America's original family sport, where animal welfare is the highest priority. The cowboys and cowgirls in this Country are carrying on a legacy of our great tradition, every day, you just can't see them from the road. Don't let a part of America die. Thank you for your consideration.

Comments for Public Posting: Please recognize the good rodeo brings to the community. The professional rodeo community has supported the humane treatment of animal athletes through providing safety in all areas of the sport. Misinformation is a regrettable step in closing the door to the “western lifestyle” that exemplifies California’s rich heritage.

Comments for Public Posting: I am 73 years old and raised going and participating until I can't anymore. Raising my family the same way as well as my grandchildren. I love rodeo and really think y'all are misinformed about any cruel intentions. The stock and horses are so expensive that it would be crazy to mistreat them. Please give us a break as it is our way of enjoyable life for us. Thanks Pat Ferguson
