**Comments for Public Posting:** It is the role of the LAEAC to advise the City on equine issues, research conducted by LCA found a bias in that one LAEAC representative owns a private ranch that hosts team roping events, including calf roping. It is unacceptable for anyone to tackle a baby animal, slam it to the ground and tie its legs together. If you did this to a puppy you would be charged with animal abuse. I support the Rodeo Device Ban. There is no excuse for animal abuse in Los Angeles.

**Comments for Public Posting:** "I vehemently support the Rodeo Device Ban. There is absolutely NO excuse for any animal abuse in Los Angeles." on the L.A. City Council file #20-1575 Recently, the Los Angeles Equine Advisory Committee (LAEAC) published a letter of NON-SUPPORT for the Ban in the L.A. Times. It is the role of the LAEAC to advise the City on equine issues. Why the Hell not? Apparently, research was conducted by LCA which found a bias in one LAEAC representative owns a private ranch which hosts sadistic team roping events, including calf roping. Anyone with a heart knows it's wrong to tackle a baby animal, slam it to the ground and tie its legs together. If you did this to a puppy you would be charged with animal abuse. It is common knowledge the Rodeo Device Ban has an overwhelming 72% support among 600+ L.A. voting residents who were polled. Late last year, the City Council's Personnel, Audits, and Animal Welfare Committee agreed with the people of L.A. and passed the Ordinance. The next step is the City Council's final vote. I urge the City County to pass the final vote and end these sadistic, "manly" displays of utter stupidity, cruelty and almost proof that some humans are, unfortunately, de-evolving, while passing these so-called "traditions" to children and grandchildren.

**Comments for Public Posting:** Dear LA City Council: THANK YOU for having the courage to stand up to bullies who enjoy watching innocent farm animals being roped, wrestled, wrangled, hog tied, slammed to the ground. What kind of sick, twisted individual would enjoy watching a baby calf get strangled? Terrified horses and bulls violently bucking in a futile attempt to get that flank strap off? Steers man-handled until their necks are torqued at such an unnatural angle that it cuts off oxygen to their brains? (Look at any standard steer wrestling photo and you will see the steer's eyes rolled to the back of his head. That is cerebral hypoxia.) Animals are routinely injured and killed in rodeos. So are humans, but they choose to participate. The PBR tried to hide this video but here it is. RED ALERT was killed. Copy and paste this link to see what the Professional Bull Riders are all about.  
[https://youtu.be/\\_UfIp6FsuWM](https://youtu.be/_UfIp6FsuWM) We do not need this in the City of Angels. Thank you for doing the right thing. It is time to evolve.

**Comments for Public Posting:** This is not entertainment, or sport, this is normalized animal cruelty, which the majority of us do not condone and so we look away. But I hope you can see the time for looking away is passing. The animal rights movement is the largest and fastest growing social justice movement in the world. As with everything, as we evolve, we must review and transcend actions that do not reflect who we are and where we want to go. "As long as Man continues to be the ruthless destroyer of lower living beings, he will never know health or peace. For as long as men massacre animals, they will kill each other. Indeed, he who sows the seed of murder and pain cannot reap joy and love." - Pythagoras If we really want peace in our world, maybe we can start by granting it to the most innocent and vulnerable. Thank you Rhiannon
