**Comments for Public Posting:** Rodeo organisers ensure the safety and humane treatment of animals and always have. Rodeos have been an integral part of American society and specifically of our Western heritage, that has been integral to the development not only the United States but also North America as well, with Mexico and Canada also being influenced by the development of rodeo. The sports entailed in rodeos require physical training by people interested in protecting the heritage of the Old West and America, and comprise a unique skillset that inspires millions of others who watch these events. Stop interfering with the rodeo and allow it to continue. This needs to continue, for future generations, that they will not forget how this country was built.
