Comments for Public Posting: It is so sad that people enjoy watching the suffering of animals, it is sick. It is troubling that parents take their children to see events that use animals as entertainment and the kids learn that hurting animals is okay. Well it is not okay. Today there are so many animals that are abused by young kids, we need to change the way the kids think and especially the parents. I would love to see the day that animals are not used for entertainment and treated compassionately, It will take a huge mindset to get people to change from loving animals that get abused for entertainment. Stop the rodeo'e

Comments for Public Posting: I have great memories of going to the rodeo with my son ,Travis, who died in 2007. Rodeos are a great venue of entertainment here in Los Angeles and other parts of California. Rodeos are also a sport. The men and women who compete are Amazon athletes. They provide employment for many who work at and for the Rodeo events. Please keep Rodeos in tact. Thank you
