Comments for Public Posting: Living in California is a beautiful thing and in living here we cannot forget how this state was founded and the people that helped make it so. California is still a place where country lifestyles and agrarian realities exist and along with that the skills that made it so. Ranching and Ranch animals are a part of that story and Rodeo was a part of that lifestyle and still is. We the people of California have done everything we can to insure the safety and health of our animal partners to make sure that they receive the healthcare from veterinarians, farriers, trainers and alike that give our equine and other animals that we own life affirming practices so that we can enjoy them and they us. The skills that are used in Rodeo came from the ranches and are celebrated all throughout America. We don't stop others from enjoying motor sports or camping to other athletic endeavors from enjoying their endeavors so we should have the freedom to enjoy ours. Many of the people who are trying to ban our sport know nothing about what it takes to maintain our animal rodeo partners and what it takes to keep them in top condition in order to compete. I'm hoping that this ban doesn't take place or is overturned for Rodeo fans and competitors! Please don't make this our reality we have invested so much in our animal athletes and what it takes to have them in our lives. They're a part of our lifestyle and they are also family. Thank you!??
