Date Submitted: 12/04/2022 09:23 AM

Council File No: 20-1575

Comments for Public Posting: Please support the western lifestyle, western tradition and history the sport of rodeo and the real life, current agricultural and animal husbandry skills displayed in rodeo. The animals in rodeo competition are better cared for and treated than most domestic pets, shelter animals and those that have been left on urban streets to breed to infinity.

Comments for Public Posting: To the three council people that are trying to get rodeo banned, please know you are trying to ban one of the most wholesome sports in the world. First of all you must realize what rodeo means and does for the youth. We gladly pray in public, honor this great country with the national anthem without kneeling for political agendas, set family values, respect the livestock, and appreciate the freedom that allows all this to happen. May God bless you and we are praying that you are also prayful in making your decision.

Comments for Public Posting: Please do Not Ban the use of horses, or any activity regarding this proposal. Horseback riding and all activities relating to are beneficial in helping our youth of La and CA to become better citizens. The western heritage breeds people with compassion, respect, honesty and are necessary for. Better La and CA, The loss of jobs for this industry would affect feed stores, farmers, veterinarians, delivery people as well. Please hear my voice and REJECT this proposal!!!

Comments for Public Posting: I am writing as a concerned advocate of the western way of life and an avid rodeo fan. On behalf of millions of rodeo fans, I'm asking the Los Angeles City Council to rethink banning Rodeo events in and around Los Angeles county. The western way of life and rodeo is the bread and butter of thousands upon thousands of citizens in the United States. I urge you to read and be informed in regards to rodeo. Thank you, Bruce and Teresa Duran Gordon

Comments for Public Posting: As a licensed veterinarian, graduate of UC Davis and California resident for the past 59 years I'm asking you to support the sport of rodeo. I grew up in the Bay Area attending those local rodeos and in awe of the excitement and caliber of horses at the Cow Palace. Anthropomorphism has no place in politics and the skill, talent and true animal husbandry required in the sport of rodeo should be applauded not punished with censorship. I'm still living the dream of roping horseback and raising livestock!

Comments for Public Posting: Why exactly are we messing with the rodeo Community? These people in this community are the most polite, hard working, blue collar individuals in this nation! Their animals are the most well taken care of animals that you will find anywhere! If you want to find animal abuse just go look in the backyard of individuals right here in our local community! that's where the animal abuse is being taken place quit messing with these fine hard-working individuals that would help you in a heartbeat if you needed it. If this goes through believe me you will be voted out!

Comments for Public Posting: City council, please educate yourselves. The treatment animals in the rodeo world is and has been by far above and beyond that of your domestic cats & dogs. Their living conditions and daily diets are priority concerns of all rodeo personnel and contestants. Pride in your ignorance is becoming the destruction of your city and state's quality of living. Please rethink your standings on AMERICA's oldest and continuing sport. -For your consideration.

Comments for Public Posting: I spent my career as a high school English teacher and then as a principal for LAUSD. I am a reasonable, experienced person. I am also a big fan of Professional Bull Riding. Those who believe animals are hurt in this sport are misinformed. The hybrid Brahman bulls that are bred for the PBR have a hump on their back which evolved because large, feline predators attacked them in their habitat, in an attempt to injure their necks. Also for this natural and historical reason, or this reason, these bulls naturally buck. They are not "made to" buck when performing. I have had the privilege of visiting these animals and their human guardians at a ranch. The bulls appeared to show affection for the humans, coming near the fence for treats and scratches, like a horse or even a dog. I am attaching a picture of me scratching the neck of Mexcal, one of the toughest "rankest" bulls in the industry. He just wanted to be petted! Please don't attempt to stop this sport, due to misinformation. Respectfully, Monica Fiello, Ph.D.

Comments for Public Posting: Please reconsider the effort to ban roping events and rodeo in LA. California is one of the leading ranch and farming communities in the country, and this effort will alienate a huge number of Californians. Rodeo and roping events are a direct outcome of the history of this great state. A true rodeo treats their livestock with care and consideration with veterinary care and animal safety rules in the forefront. A blanket ban on roping will have a huge negative impact on equine and western heritage events for all of California. Please reconsider this action and support the history and safe continuation of amazing western and equine sports.

Comments for Public Posting: In reference to banning rodeos in LA, please reconsider this action. Barrel Horse women spend thousands of dollars to care for their horses. In fact animal welfare is a top priority because what use is the animal if it's lame or hurt? The ranches that provide the calves, bulls, and broncs win money for the animal's performance also. So again it would hurt ranchers if they abused their livestock. At rodeos veterinary is always there if there was an accident. I've seen more race horses put down because of broken legs than I've ever seen at a rodeo. If this is about animal welfare, these animals are better taken care of than livestock breed for slaughter and even treated better than some humans. Million dollar ranches where livestock lives in barns fancier than half the us population lives in. Please talk to large animal vets who work rodeos before making a decision. If animal welfare is an issue, look at animals breed for slaughter that live in deplorable conditions. Look at horse racing where the horses are doped and so high strung that they just pace back and forth in stalls. Banning rodeos is the least of concerns. Poverty and mental health should be higher priorities in LA county. Thank-you for your time and consideration.

Council File No: 20-1575

Comments for Public Posting: American rodeo is truly the American sport. At the beginning of the biggest and smallest rodeos the nation is honored with its National Anthem and prayer. To ban an event that has always honored and respected the nation would be very detrimental for this country. Rodeo teaches the highest standards for morality to those who live this lifestyle. Respect and responsibility are two of these morals, this is necessary to care for the animals that also compete in the sport. The animals that are involved in the sport need to be cared for at such a high level, so they too can compete to the best of their ability. It would be a great shame to ban something so rooted in the history of this great nation.

Comments for Public Posting: Slow down, take a breath. This is not a solution. Rodeo is a way of life, western and rural people are always thinking of their animals. This sport is healthy, this atmosphere for youth to elders is where the USA came from. Spend time with us, get involved with us. There is a romance to rodeo and horse and cattle events, it is not evil. More than 40 million people are rodeo fans. And no, they are not all cowboys and wranglers. Let the public speak not a small board. Please consider a vote to ban ropes, spurs etc. is not a plus. Regards and keep a piece of history going Val Loftin

Comments for Public Posting: The Western way of life should not be shut down, the animals used in Rodeo and any equine event are well taken care of. The cowboys and event coordinators ensure that everyone of the animals involved are well taken care of and there is always a veterinary on site. These animals are just like your own pets and we treat them like they are family. Such a shame that people want to shut down this way of life. So sad that this is on your list of things that do when there are so many other problems in this world that you should be focusing on.
