Comments for Public Posting: Please consider what you are doing when you consider outlawing rodeo. You could set a precedence that could take my families way of living. We raise bucking horses and have for 3 generations. If there are no rodeos our horses have no reason to exist. They are amazing animals but will never be pets because they love to buck. Please think long and hard about your choices. We live is two different worlds and I hope you will consider researching our sport before making a decision.

Comments for Public Posting: The sport of Rodeo is the heart of American culture and tradition. It has grown to be one of the most niche sport industries we have. Everything from the Bronc horses to the bulls were bred to do this sport, they love their jobs! It's literally in their blood. They get cared for better than most people do; food, shelter, water, veterinarian care, etc. Just because people don't understand this way of living does not mean it should be taken away!

Comments for Public Posting: Rodeo is a great opportunity for the American people to be connected to the spirit of the west. You won't find a group of people more passionate about western life and the animal athletes than rodeo cowboys and cowgirls.

Comments for Public Posting: This lifestyle and sport doesn't happen without these amazing animals and anyone who tries to claim the care of these animals is not world class lacks real experience being around what goes into making sure these athletes are feeling their best and enjoying their jobs. God bless Rodeo.

Comments for Public Posting: We support Rodeo has a good expression of western heritage and culture. The animals are well taken care of and celebrates the animals involved and what they are capable of- it respects the relationship between man and animal.
