Comments for Public Posting: Increased scientific and public awareness of the intense misery that rodeo driven entertainment causes bulls during Bull riding has come to light. Bulls are tormented by the application of the flank strap. They seek to kick the painful object off from around their abdomen. Bulls are tormented both physically and psychologically in the backfield and in the chute by the electric prod. They seek to avoid the pain and or exposure to the pain. Bulls are tormented by the application of the boot spurs that not abrade and irritate their sensitive sides, but also contribute to internal injuries. And equally egregiously, bulls are threatened when feeling as if a predator has pounced on their back. In a fight or flight mode bulls are genetically wired to try to free themselves from being killed by the predator (rider) on them, and thus are frantic to protect themselves from injury from the predator - to the point where the Bull is in a potential self-injurious frenzy risking injury to their muscles, tendons, and bones to liberate themselves from the predator. Please prohibit the use of the flank strap, the electric prod, and the spurs on bulls; and please ban the harassment bulls experience when they are rudely forced into being used as an outlet for entertainment by spectators who are indifferent to the harm bulls experience. Thank you for your compassion.

Comments for Public Posting: Rodeo preserves the history, skills, and values of the Old West, celebrating cowboy heritage, rugged individualism, and connection to the land, while also serving as a vibrant cultural event that unites communities, showcases athleticism, boosts rural economies, and fosters family traditions. Teaches youth disciplines and responsibilities for the betterment of our future.

Comments for Public Posting: I'm here to tell you that's it's not right that wolfs can kill live stock and ranchers can not kill the wolves. It's like a person coming to your house and taking your stuff kill your dog or cat and you can't do anything about that. Thats just wrong. You need to get your head out of your ass.
