Dear City Clerk, Council Members, and Councilmember Jurado,

Please accept this email as a public comment regarding Council File 20-1575 and include it in the official legislative record for this matter. I respectfully request that this comment be distributed to all Council Members and included in the Council File.

I am a resident of Santa Barbara and am writing in support of the proposed rodeo animal welfare protections. Although I do not live in Los Angeles, animal welfare is a matter of statewide concern. The treatment of animals at public events affects all Californians, and the standards adopted by one community can help shape humane practices throughout our state.

As someone who supports animal rights and the humane treatment of animals, I believe animals should be protected from unnecessary stress, injury, and suffering. I respectfully encourage the City of Los Angeles to adopt and maintain strong protections for animals.

Thank you for your consideration. Please include this correspondence in the public comment file and official record for Council File 20-1575 and distribute it to all Council Members.

Sincerely,

Joann Olejnik
Santa Barbara, California
