Executive Summary

SKA Consulting, L.P. (SKA) was retained by Belmont Village, L.P. (User) to perform a Phase I Environmental Site Assessment (ESA) of a ±1.62-acre developed property (subject property) located at 10822 Wilshire Boulevard and 10812 Ashton Avenue in Los Angeles, Los Angeles County, California. This assessment was performed, in part, to satisfy one of the requirements of the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA) innocent landowner defense; that is, the practices that constitute "all appropriate inquiry into the previous ownership and uses of the property consistent with good commercial or customary practice," as defined in 42 USC 9601(35)(B). Title 40 of the Code of Federal Regulations, Part 312 specifies standards and practices for "all appropriate inquiries" required to obtain protection from liability under CERCLA. 40 CFR 312.11(a) identifies a Phase I ESA completed in accordance with American Society of Testing and Materials (ASTM) Practice E 1527-13 as one way to achieve compliance with requirements of the "all appropriate inquiries" rule.

The objective of the Phase I ESA was to identify, to the extent feasible pursuant to the processes prescribed in ASTM Practice E 1527-13, *recognized environmental conditions* (RECs), *historical recognized environmental conditions* (HRECs), or *controlled recognized environmental conditions* (CRECs) in connection with the subject property.

The subject property consists of approximately 1.62-acre institutionally and residentially developed tract of land situated on the south side of Wilshire Boulevard, approximately 800 feet east of Westwood Boulevard, and 10.5 miles west of downtown Los Angeles. The subject property is owned by Westwood Presbyterian Church. The subject property consists of an irregular L-shaped tract of land developed with three buildings constructed in 1950 (sanctuary, offices/classrooms, Janss Building) totaling 16,504 square feet (sq-ft), and a 2,392 sq-ft single-family residence constructed in 1929. The remainder of the subject property consists of two surface parking lots (northern and southern) associated with the church and an outdoor play area for the on-site church preschool. Prior to this land use, the subject property was residential land. Access to the subject property is via two, fenced concrete driveways leading from Wilshire Boulevard to the north and Ashton Avenue to the east, and by a residential driveway along Ashton Avenue.

The subject property is bound to the north by Wilshire Boulevard followed by multi-family residential housing (The Legacy at Westwood, 10833 Wilshire Boulevard); to the east by multi-family (The Californian of Wilshire, 10800 Wilshire Boulevard and The Wilshire Villa, 10811 Ashton Avenue) and single-family residential property; to the south by single-family residences; and, to the west by a commercial office tower (AVCO Center, 10850 Wilshire Boulevard) and movie theatre (iPic, 10840 Wilshire Boulevard), surface parking lot, and Westwood Memorial Park cemetery and mausoleum.

The subject property was inspected for obvious or potential sources of environmental contamination. There were no obvious indications on the subject property of underground or aboveground storage tanks (USTs/ASTs), hydraulic lifts, pits, ponds, lagoons, landfills, stained soils, fill dirt, monitoring or water wells, pipelines, or stressed vegetation during the site inspection. No items of significant environmental concern were observed on the subject property.

SKA also reviewed regulatory database listings, a vapor encroachment screen, historical aerial photographs, historical Sanborn® Fire Insurance Maps (Sanborn Maps), historical topographic maps, historical city directory listings, and public information obtained from governmental agencies to determine if there are indications of RECs, CRECs, or HRECs for the subject property. No historical uses or occupants of the subject property were determined to represent an environmental concern for the subject property. Based on their distance from the subject property and/or regulatory status, no commercial sites in the vicinity of the subject property were determined to represent an environmental concern for the subject property.

The results of the assessment have revealed no RECs, CRECs, or HRECs in connection with the subject property.

Although not considered an REC, CREC, or HREC, the following condition warrants mention:

- Limited asbestos-containing material (ACM) abatement was reportedly performed during acoustic tile replacement activities in the sanctuary building in 2012. However, a survey for the presence of ACM was beyond the scope of this assessment. As such, SKA makes no warranty as to the presence of asbestos in structural improvements to the on-site buildings without conducting a comprehensive survey for ACM. In addition, certain local ordinances may require the performance of a survey for ACM prior to issuance of renovation or demolition permits. An ACM survey should be conducted in accordance with applicable State and Federal regulations prior to performing any renovation or demolition activities on the buildings.

These conclusions have been based on, among other things, a limited inspection and research of public documents pertaining to the subject property. Conclusions drawn by others from the results of this assessment should recognize the limitations of the methods used. This report was produced for the exclusive use of Belmont Village, L.P. and their authorized representatives. Further dissemination or reliance upon this report by any other party (except a governmental entity having jurisdiction over the subject property) without prior written authorization from SKA and Belmont Village, L.P. is strictly prohibited. Any reuse or distribution without such written consent shall be at the Client's or recipient's sole risk, without liability to SKA.

While the Executive Summary is an integral part of this report, it is presented only for the reader's convenience and should not be used in lieu of reading the entire report. The reader is expected to read the entire text of this report for interpretive discussions relevant to the services provided herein.

1.0 Introduction

This section describes the purpose, scope, and limitations of the Phase I ESA, as performed by SKA Consulting, L.P. (SKA) for the subject property.

1.1 Subject Property Name and Location

Subject Property Name:	±1.62-Acre Church Property
Street Address (or Other Physical Subject Property Location Description):	10822 Wilshire Boulevard/10812 Ashton Avenue Los Angeles, Los Angeles County, California
Latitude	34.0589160
Longitude	-118.4404850

A map showing the location of the subject property and the general vicinity is presented as ***Figure 1***.

1.2 Contact Information

Client ("User"):	Belmont Village, L.P. 5800 Armada Drive, Suite 200 Carlsbad, California 92008 Mr. Brent Covey 760-931-1134
Subject Property Owner ("Owner"):	Westwood Presbyterian Church 10822 Wilshire Boulevard Los Angeles, California 90024 Ms. Mayra Newbon 310-474-4535
"Key Subject Property Manager":	Westwood Presbyterian Church 10822 Wilshire Boulevard Los Angeles, California 90024 Ms. Mayra Newbon 310-474-4535
Date Project Authorized:	March 7, 2016

1.3 Purpose

This assessment was performed, in part, to satisfy one of the requirements of the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA) innocent landowner defense; that is, the practices that constitute "all appropriate inquiry into the previous ownership and uses of the property consistent with good commercial or customary practice," as defined in 42 USC 9601(35)(B). Title 40 of the Code of Federal Regulations, Part 312 specifies standards and practices for "all appropriate inquiries" (AAI) required to obtain protection from liability under CERCLA. In the federal AAI rule, 40 CFR 312.11(a) identifies a Phase I ESA completed in accordance with American Society of Testing and Materials (ASTM) Practice E 1527-13 as one way to achieve compliance with the requirements of "all appropriate inquiries".

The objective of the Phase I ESA was to identify, to the extent feasible pursuant to the processes prescribed in ASTM Practice E 1527-13, "Standard Practice for Environmental Site Assessments: Phase I Environmental Site Assessment Process," *recognized environmental conditions* (RECs), *historical recognized environmental conditions* (HRECs), or *controlled recognized environmental conditions* (CRECs) in connection with the subject property.

The term *recognized environmental condition* is defined by the ASTM Practice as the presence or likely presence of any hazardous substances or petroleum products (see ***Appendix 1*** for Definitions) in, on, or at a property under conditions that indicate an existing release, a past release, or a material threat of a release of any such substances to the environment, including the ground, groundwater, or surface water of the property. The term includes hazardous substances or petroleum products even under conditions in compliance with laws. The term is not intended to include *de minimis* conditions that generally do not present a material risk of harm to public health or the environment and that generally would not be the subject of an enforcement action if brought to the attention of appropriate governmental agencies. Conditions determined to be *de minimis* are not *recognized environmental conditions*.

The term *historical recognized environmental condition* is defined by the ASTM Practice as a past release of any hazardous substances or petroleum products that has occurred in connection with the property and has been addressed to the satisfaction of the applicable regulatory authority or meeting unrestricted use criteria established by a regulatory authority, without subjecting the property to any required controls.

The term *controlled recognized environmental condition* is defined by the ASTM Practice as an REC resulting from a past release of hazardous substances or petroleum products that has been addressed to the satisfaction of the applicable regulatory authority (for example, as evidenced by the issuance of a no further action letter or equivalent, or meeting risk-based criteria established by regulatory authority), with hazardous substances or petroleum products allowed to remain in place subject to the implementation of required controls (for example, property use restrictions, activity and use limitations, institutional controls, or engineering controls).

1.4 Scope of Services

The following components, as prescribed in the ASTM Practice, comprise the fundamental scope under which the Phase I ESA was performed.

- Section 2 - An overview of the subject property, including location, general description, and property use and occupancy;

- Section 3 - A summary of User Provided Information regarding the subject property including specialized knowledge or experiences, property value appraisal, and other environmental documents associated with the subject property;

- Section 4 - A review of federal, state, tribal, and local regulatory agency listings and records to determine if the subject property or adjoining properties have faced or are currently facing any regulatory actions, fines, or violations, a search of environmental liens for the subject property, and a vapor encroachment screen;

- Section 5 - A summary of subject property background information, including reviews of historical aerial photographs, historical topographic maps, historical city directories, historical Sanborn Fire Insurance Maps, zoning records, and building permit records;

- Section 6 - A description of the environmental setting of the subject property, including topography, drainage, flood potential, surface water, hydrogeology and utilization of groundwater;

- Section 7 - Results of the subject property site inspection, including a visual inspection for indications of soil, groundwater, and surface water contamination and other hazards, and an evaluation of the environmental condition of the areas surrounding the subject property;

- Section 8 - Interviews with the current and/or past property owner, key site manager, major occupants, and/or other relevant entities to obtain information pertaining to the current and historical uses and conditions of the subject property;

- Section 9 - A summary of the historical uses of the subject property and adjoining properties based on historical records review, site reconnaissance, and interviews;

- Section 10 - A summary of data gaps associated with this assessment;

- Section 11 - Conclusions; and,

- Section 12 - Declarations of Environmental Professional.

Photographs taken during the site visual inspection are presented in ***Appendix 2***. References, regulatory records, records of communication, historical aerial photographs, historical topographic maps, historical city directory listings, historical Sanborn Fire Insurance Maps (Sanborn Maps), and User Provided Information utilized in the preparation of this report are included in ***Appendix 3***. Brief resumes of the environmental professionals conducting this assessment are included in ***Appendix 4***.

The ASTM Practice states that there may be environmental issues or conditions on a property that parties may wish to assess in connection with commercial real estate that are outside the scope of Practice E 1527-13. These issues and/or conditions are designated *non-scope considerations*. Examples of *non-scope considerations* include Asbestos-Containing Materials (ACM), biological agents, cultural and historic resources, ecological resources, threatened/endangered species, health and safety, indoor air quality (including radon), industrial hygiene, Lead-Based Paint, lead in drinking water, wetlands, regulatory compliance, and high voltage power lines. No implication is intended as to the relative importance of inquiry into such *non-scope considerations,* and this list of *non-scope considerations* is not intended to be all-inclusive. If, during the course of this assessment, such *non-scope considerations* are addressed in this report, they will be so designated.

1.5 Limitations and Exceptions of Assessment

The Phase I ESA Report and the opinions expressed herein concerning the potential for environmental impairment liabilities from regulated sites are partially based on published information.

Undetected environmental risks may be present and not documented by regulatory agency files. Therefore, SKA does not warrant, guarantee, or certify the accuracy or completeness of such regulatory information. SKA disclaims any and all liability for errors, omissions, or inaccuracies in such information and data, and for any and all inaccurate conclusions, inadvertent or otherwise, which may be based on such inaccurate information and data obtained from third parties.

This ESA cannot wholly eliminate uncertainty regarding the potential for RECs, HRECs, or CRECs in connection with the subject property. Performance of the ASTM Practice is intended to reduce, but not eliminate, uncertainty regarding the potential for such conditions, and the ASTM Practice recognizes reasonable limits of time and cost.

This report does not constitute an appraisal of value or legal opinion, and SKA makes no representations or warranties of the fitness of the property for any specific use or value. SKA assumes no responsibility for the User's, or a third party's, misinterpretation or improper use of this report.

SKA shall not be liable for any special, consequential, or exemplary damages resulting in whole or in part, from the User's use of this report. Liability on the part of SKA extends only to its Client and not to any other parties who may obtain the Phase I ESA report. Any use of this Phase I ESA report constitutes acceptance of the terms and conditions under which it was prepared.

1.6 User Reliance

This report was produced for the exclusive use of Belmont Village, L.P. and their authorized representatives. Further dissemination or reliance upon this report by any other party (except a governmental entity having jurisdiction over the subject property) without prior written authorization from SKA and Belmont Village, L.P. is strictly prohibited. Any reuse or distribution without such written consent shall be at the Client's or recipient's sole risk, without liability to SKA.

This Phase I ESA report is valid and can be relied upon for a period of one hundred eighty (180) days from the time of completion in accordance with ASTM Practice E1527-13 Section 4.6. Reliance letters can be issued only for Phase I ESA reports which are still valid (i.e., within 180 days of date of issuance of the Phase I ESA report). Request for reliance letters outside the validity period would require a full update of the Phase I ESA report.

2.0 Site Description

The following sections provide information on the location, description, and current use of the subject property.

2.1 Site Location and Legal Description

Subject Property and Area Description:	The subject property is an approximately 1.62-acre institutionally and residentially developed tract of land situated on the south side of Wilshire Boulevard, approximately 800 feet east of Westwood Boulevard, and 10.5 miles west of downtown Los Angeles. The majority of the subject property is developed with the Westwood Presbyterian Church and preschool and is addressed at 10822 Wilshire Boulevard. The subject property also includes a single-family residence located on the southeastern portion of the property and addressed as 10812 Ashton Avenue. According to the Los Angeles County Office of the Assessor, the portion of the subject property addressed at 10822 Wilshire Boulevard is legally described as Lot 9, Block 17 of the Rancho San Jose de Buenos Ayres Subdivision. The portion of the subject property addressed at 10812 Ashton Avenue is legally described as Lot 4, Block 31 of the Rancho San Jose de Buenos Ayres Subdivision. Current land use in the general area is a mixture of commercial and residential properties.
Structures, Roads, Other Improvements:	The subject property consists of an irregular L-shaped tract of land developed with three buildings occupied by Westwood Presbyterian Church (sanctuary, offices/classrooms, Janss Building) totaling 16,504 square feet (sq-ft) and constructed in 1950, and a 2,392 sq-ft single-family residence constructed in 1929. The remainder of the subject property consists of two surface parking lots (northern and southern) and an outdoor play area for the on-site preschool. The subject property is largely unfenced; however, the western subject property boundary abuts an adjoining movie theater building and cemetery mausoleum walls. The southwestern corner of the southern surface parking lot and the eastern boundary of the northern surface parking lot are fenced by low masonry walls. A portion of the eastern subject property boundary along a multi-family residential building is bound by a wooden fence. The yard

	of the residential lot at 10812 Ashton Avenue is bound by wooden fencing. Access to the subject property is via two, fenced concrete driveways leading from Wilshire Boulevard to the north and Ashton Avenue to the east, and by a residential driveway along Ashton Avenue.
Subject Property Size (acres):	±1.62 acres
Estimated % of Subject Property Covered by Buildings and/or Pavement:	An estimated 95% of the subject property is covered by the on-site buildings and paved parking and/or driving areas. The remaining portion is covered by landscaping or decorative trees (including the small vegetated backyard of the on-site residence).
Current Subject Property Use/Operations:	Church, preschool, and single-family residence.
Known Past Subject Property Use(s):	According to church representatives (see ***Section 8.0***), Westwood Presbyterian Church acquired the northern portion of the subject property (along Wilshire Boulevard) in 1948-1949. The property was vacant land. A small building formerly used by Janss Realty was moved to the site in 1950 and began operating as Westwood Presbyterian Church. This original building is currently the southernmost portion of the existing church building, is used for fellowship meeting rooms and offices, and is still called the Janss Building (see ***Figure 2***). Throughout the 1950s the church added the sanctuary and the office/classroom buildings currently connecting the sanctuary to the Janss Building. The church subsequently purchased a vacant piece of land from a western adjoining cemetery (currently utilized as the southern surface parking lot) and residential properties along Ashton Avenue. Since 1980, only the residence at 10812 Ashton Avenue is still owned by the church. This existing on-site residence (utilized for rental income) was constructed in 1929.
Sewage Disposal Method (and age):	City of Los Angeles (age unknown, assumed to be 1929 for the residence and 1950 for the church).
Potable Water Source:	Los Angeles Department of Water and Power
Electric Utility:	Los Angeles Department of Water and Power

A site plan is presented as ***Figure 2***.

2.2 Adjoining Property Uses

Adjoining property to North:	Wilshire Boulevard followed by multi-family residential housing (The Legacy at Westwood, 10833 Wilshire Boulevard).
Adjoining property to South:	Single-family residences.

Adjoining property to East:	Multi-family (The Californian of Wilshire, 10800 Wilshire Boulevard and The Wilshire Villa, 10811 Ashton Avenue) and single-family residential.
Adjoining property to West:	A commercial office tower (AVCO Center, 10850 Wilshire Boulevard) and movie theatre (iPic, 10840 Wilshire Boulevard), surface parking lot, and Westwood Memorial Park cemetery and mausoleum.

3.0 User Provided Information

Prior to initiating the site reconnaissance, SKA requested information relevant to performance of this Phase I ESA with a written questionnaire submitted to the User. A copy of the questionnaire returned by Mr. Brent Covey of Belmont Village, L.P., a representative of the User, is provided in ***Appendix 3***. The significant information provided by the User is summarized below.

Information on Environmental Cleanup Liens on the Subject Property:	The User reported no knowledge of current or former environmental cleanup liens related to the subject property.
Information on Subject Property Activity or Use Limitations (including Institutional and Engineering Controls):	The User reported no knowledge of any activity and use limitations related to the subject property.
Commonly Known Or Reasonably Ascertainable Information About Subject Property: **1) Past Uses** **2) Current or former presence of chemicals, hazardous substances, or petroleum products** **3) Spills or releases of chemicals, hazardous substances or petroleum products** **4) Environmental cleanups** **5) Obvious indicators of contamination**	1) The subject property has not historically been used for an industrial purpose, or as a gasoline station, motor repair facility, commercial printing facility, dry cleaners, photo developing laboratory, junkyard or landfill, waste treatment facility or recycling facility. 2) No chemical use is present at the subject property. 3) There are no known spills or releases. 4) There are no known environmental cleanups. 5) There are no obvious indicators of environmental contamination.
Reason Why the User Wants to Have the Phase I ESA Performed:	As a component of a long-term lease agreement.

3.1 Specialized Knowledge or Experience

The federal AAI rule (40 CFR 312.28) and ASTM E1527-13 require that all appropriate inquiry must take into account relevant and applicable specialized knowledge and experience on the part of the User regarding the subject property, the area surrounding the subject property, the conditions of adjoining properties, and any other experience relevant to identifying RECs, HRECs, or CRECs on the subject property.

SKA submitted a written questionnaire to the User (identified in ***Section 1.2***) inquiring whether the User had any specialized knowledge or experience relative to this inquiry. The User representative responded that he was unaware of such specialized knowledge or experience.

3.2 Relationship of Purchase Price to Value of the Property

The federal AAI rule (40 CFR 312.29) and ASTM E1527-13 require that all appropriate inquiry must take into account the relationship of the purchase price to the fair market value of the property if it was not contaminated. The rule states that this portion of the inquiry may be the responsibility of the User, and the User has the option of sharing or not sharing this information with the Environmental Professional performing the Phase I ESA.

Based on information provided to SKA by the User, this Phase I ESA was not requested relative to a purchase or sale of the subject property. Consequently, this portion of the AAI rule is not relevant and was not included in this investigation.

3.3 User Provided Documents

The following documents were provided to SKA for review:

Document	Source	Brief Description
None.		

3.4 Summary of Findings from User Provided Information

Based on the data described above, the review of the User Provided Information did not identify evidence of an REC, HREC, or CREC for the subject property.

4.0 Environmental Records Review

A review of environmental regulatory records was performed to determine if the subject property or nearby properties have faced or are currently facing any regulatory actions, fines, or violations for conditions that would have an environmental impact on the subject property.

4.1 Federal, State, and Tribal Regulatory Agency Listings

The following federal and state information sources were reviewed by Environmental Data Resources, Inc. (EDR) of Shelton, Connecticut to determine suspected or confirmed sites of environmental concern within the following approximate minimum search distances of the subject property (specified by ASTM):

Environmental Agency Lists, Search Distance, Listings

Agency List/Database	Search Radius	Number of Listed Sites
Federal NPL Sites	1.0 mile	0
Federal Delisted NPL Sites	0.5 mile	0
Federal CERCLIS List	0.5 mile	0
Federal CERCLIS NFRAP List	0.5 mile	0
Federal RCRA CORRACTS Facilities	1.0 mile	0
Federal RCRA Non-CORRACTS TSD	0.5 mile	0
Federal RCRA Generators	Subject Property/ Adjoining Property	0
Federal ERNS	Subject Property	0
State and Tribal - Equivalent NPL	1.0 mile	1
State and Tribal - Equivalent CERCLIS	0.5 mile	9
State and Tribal Solid Waste Facilities	0.5 mile	0
State and Tribal Registered Storage Tank Sites	Subject Property/ Adjoining Property	0
State and Tribal Leaking Storage Tank Sites	0.5 mile	8
State and Tribal Institutional Control/Engineering Control Registries	Subject Property	0
State and Tribal Voluntary Cleanup Sites	0.5 mile	0
State and Tribal Brownfield Sites	0.5 mile	0

4.1.1 Listings for the Subject Property

The subject property was identified in the California Environmental Protection Agency Facility and Manifest Data environmental database (HAZNET), which is a listing of properties with associated hazardous waste manifests. The subject property, Westwood Presbyterian Church, reportedly disposed of two tons of asbestos-containing wall board in 2012 as part of a replacement of the sanctuary acoustic tile. The work was performed by Rapco-West Environmental Services, Inc. (Contractor's License #671425, CAL/OSHA #263) and the material was disposed at a regulated landfill. The Key Subject Property Manager provided a copy of the proposal prepared by Rapco-West Environmental Services, Inc. (see ***Appendix 3***). As the listing is not related to an environmental release or any

environmentally adverse condition of the subject property, the listing does not represent an REC for the subject property. SKA further researched the subject property addresses on the State Water Resources Control Board GeoTracker website (GeoTracker), the "Board's Internet-accessible database system used to track and archive compliance data from authorized or unauthorized discharges of waste to land, or unauthorized releases of hazardous substances from underground storage tanks." The subject property addresses were not identified.

4.1.2 Listings for Nearby Sites with Potential to Impact Subject Property

SKA evaluated data presented in the environmental agency database search report prepared by EDR. Based on this review, the following individual facilities were identified as the most likely potential sources of environmental concern to the subject property. Each of these sites was further evaluated to assess whether the site represents an REC, HREC, or CREC for the subject property.

Listed Facility Name/Address	Database Listing	Distance/Direction from Subject Property	REC, HREC, or CREC? (Yes or No)
10850 Wilshire Boulevard	**EDR Hist Auto/ Cleaner**	**Adjoining west**	**No**
The site was observed during SKA's site reconnaissance as an office tower (AVCO Center) and movie theatre (iPic). EDR identified Slauson Gas Station, LLC and Professional Touch Cleaners at this address in 2008 and 2003, respectively. According to an internet search, Slauson Gas Station has a headquarters office at this address. The dry cleaners is likely a drop-off location within the building. SKA reviewed the GeoTracker website for additional information regarding the site; however, the site address was not identified as a site of environmental significance. Based on the nature of the listings and the development of the property, they do not represent an REC for the subject property.			
Westwood Place 10866 Wilshire Boulevard	**CA FID UST, EMI, UST, SWEEPS UST**	**300 feet west**	No
The site was observed during SKA's site reconnaissance as an office tower. The site is listed as a UST site (Facility ID No. 25397) and Emissions Inventory Data (EMI) site, a listing related to sites whose criteria pollutant emissions data is tracked by the California Air Resources Board. No additional information is provided; however, it is likely that the UST listing is associated with on-site emergency generators. No additional information, such as evidence of releases, spills, or leaks is provided by EDR. SKA reviewed the GeoTracker website for additional information regarding the site; however, the site address was not identified as a site of environmental significance. Based on the nature of the regulatory listing, the lack of documented releases, and the distance from the subject property, this site does not represent an REC for the subject property.			
Longford Condominium Association 10790 Wilshire Boulevard	**CA FID UST, UST, SWEEPS UST**	**300 feet east**	No

Listed Facility Name/Address	Database Listing	Distance/Direction from Subject Property	REC, HREC, or CREC? (Yes or No)
The site was observed during SKA's site reconnaissance as a multi-story residential tower. The site is listed as a UST site (Facility ID No. 24071). No additional information is provided; however, it is likely that the UST listing is associated with on-site emergency generators. No additional information, such as evidence of releases, spills, or leaks is provided by EDR. SKA reviewed the GeoTracker website for additional information regarding the site; however, the site address was not identified as a site of environmental significance. Based on the nature of the regulatory listing, the lack of documented releases, and the distance from the subject property, this site does not represent an REC for the subject property.			
Center West Wilshire Glendon Associates 10877 Wilshire Boulevard	**LUST, ENF, HIST CORTESE, SWEEPTS UST, CA FID UST**	**300 feet northwest**	No
This site was observed by SKA during the site reconnaissance as a multi-story commercial office building. According to a web-based search, the office tower was constructed in 1990. According to historical city directory listings (see ***Section 5.0***), this address was occupied by a restaurant from 1962 until 1980. According to database information provided by EDR, a former gasoline UST resulted in a LUST case in 1981 (LUST Facility ID 900240098). Regulatory closure was granted in 1998, following the redevelopment of the site. SKA reviewed files regarding the site on the State Water Resources Control Board GeoTracker website (www.geotracker.waterboards.ca.gov). The status is listed as "Completed – Case Closed." Based on the closed nature of the regulatory listing and its distance from the subject property, this site does not appear to constitute an REC for the subject property.			

Based on their distance from the subject property and/or nature of the regulatory listings, the remaining sites listed in the database search report provided by EDR (see ***Appendix 3***) were determined not to constitute an REC, HREC, or CREC for the subject property.

4.2 Local/Regional Environmental Records

SKA contacted the following sources in writing to obtain information regarding the use or any environmental violations associated with the subject property.

4.2.1 Local Health Department

Agency Name, Contact Information	Finding
Public Health Investigator, Custodian of Records Public Health Investigation Administration Los Angeles County Department of Public Health ehmail@ph.lacounty.gov	The Los Angeles County Department of Health responded by email to contact the Public Health Investigation Administration (323-890-7801). SKA contacted the Administration and was informed there are no active investigations at the subject property.

4.2.2 Local Fire Department

Agency Name, Contact Information	Finding
City of Los Angeles Fire Department LAFDrequest@lacity.org	The City of Los Angeles Fire Department responded by email to contact the Arson Section (213-893-9800). SKA contacted the Section and was informed there have been no arson investigations at the subject property.

4.2.3 Local Pollution Control Department

Agency Name, Contact Information	Finding
Department of Toxic Substances Control (DTSC) Freedom of Information Mr. Daniel Knight 916-323-4911 Via Email: dknight@dtsc.ca.gov	An automated response was received to research the subject property on the ENVIROSTOR database, where all environmentally significant data on the subject property would be maintained. The subject property does not appear listed as a cleanup site, permitted site, or "other" site.
Los Angeles Regional Water Quality Control Board Via Email: clarity.quidilla@waterboards.gov	On April 7, 2016, the Regional Water Quality Control Board responded that "it does not have any records" regarding the subject property.

4.3 Records of Activity and Use Limitations for Subject Property

Registries and publicly available lists of activity and use limitations (AULs), also known as institutional controls and engineering controls, were reviewed by EDR to identify any AULs for the subject property. Information on the registries and lists reviewed and listings found, if any, are provided in the EDR Regulatory Database Search Report in ***Appendix 3***.

No AULs for the subject property were identified in this review.

4.4 Environmental Cleanup Liens

No environmental cleanup liens were noted by EDR for the subject property. As Belmont Village, L.P. is only considering a lease of the property, a search for environmental cleanup liens was not performed.

4.5 Oil and Gas Well Review

A review of the California Department of Conservation's Oil and Gas Well Locations database by EDR indicated no oil and/or gas wells on the subject property or within a ½-mile radius of the subject property. The oil and gas well search information provided by EDR is included in ***Appendix 3***.

4.6 Vapor Encroachment Screen

As part of the scope of this Phase I ESA, EDR reviewed federal and state databases to prepare a Tier I *vapor encroachment screen* (VES) to identify a possible *vapor encroachment condition* (VEC), which is the presence or likely presence of chemical of concern (COC) vapors in the sub-surface caused by the release of vapors from contaminated soil or groundwater within the approximate minimum search distances of the subject property to determine the area of concern (AOC). The Tier I VES is intended to reduce, but not eliminate, uncertainty regarding whether or not a VEC exists in connection with the subject property. The VES processes are described in ASTM Standard E2600-10, "*Standard Guide for Vapor Encroachment Screening on Property Involved in Real Estate Transactions*." The minimum search distances are 0.10-mile for petroleum hydrocarbon COCs and ⅓-mile for all other COCs. Based on, among other things, their distances from the subject property, regulatory histories, and/or regulatory status, the sites listed in the database search report provided by EDR (see ***Appendix 3***) were determined not to constitute a VEC for the subject property.

The EDR Vapor Encroachment Screen prepared using EDR's vapor encroachment worksheet is presented in ***Appendix 3.***

4.7 Summary of Findings from Environmental Records Review

Based on the data described above, the review of government environmental records did not identify evidence of an REC, HREC, or CREC for the subject property.

5.0 Historical Records Review

The following subsections provide information regarding the development history of the subject property as determined through SKA's analysis of property deed records, available planning records, historical aerial photographs, historical Sanborn Fire Insurance Maps, historical city directory listings, and historical topographic maps.

5.1 Land Title Records/Deeds

According to the Key Subject Property Manager and historical records discussed later in this section, the subject property has been owned by Westwood Presbyterian Church since 1947. Prior to 1947, the subject property was residential land. The nature of the institutional and residential ownership of the subject property does not appear to represent an environmental concern to the subject property. Additional sources were not searched because the historical use of the subject property appeared to be sufficiently documented by other reviewed sources.

5.2 Historical Aerial Photographs

Year	Scale	Observations, Subject Property and Adjoining Properties
1928	1"=500'	The subject property consists of undeveloped and/or residential land with one apparent residential building on the south side of Wilshire Boulevard. Existing roadways Malcolm Avenue, Ashton Avenue, and Glendon Avenue are also displayed in their current locations. The subject property is bordered to the north by Wilshire Boulevard followed by cleared, graded land; to the east and south by undeveloped and/or residential land; and to the west by an apparent cemetery followed by undeveloped land. Land use in the general area of the subject property appears to be undeveloped or residential in nature.

Year	Scale	Observations, Subject Property and Adjoining Properties
1938	1"=500'	The subject property consists of undeveloped and/or residential land with two residential buildings (one on the portion of the subject property referred to as 10822 Wilshire Boulevard and one on the portion of the subject property referred to as 10812 Ashton Avenue). The subject property is bordered to the north by Wilshire Boulevard followed by vacant lots and multi-family housing; to the east and south by undeveloped and/or residential land; and to the west by an apparent cemetery followed by vacant and commercial lots. Land use in the general area of the subject property appears to be undeveloped or residential in nature with increasing commercial development along the major thoroughfares (such as Wilshire Boulevard).
1947	1"=500'	The portion of the subject property referred to as 10822 Wilshire Boulevard appears to be undeveloped, vegetated land. The portion of the subject property referred to as 10812 Ashton Avenue appears to be residentially developed. The subject property is bordered to the north by Wilshire Boulevard followed by multi-family housing; to the east and south by undeveloped and/or residential land; and to the west by an apparent cemetery followed by vacant and commercial lots. Land use in the general area of the subject property appears to be undeveloped, commercial, or residential in nature.

Year	Scale	Observations, Subject Property and Adjoining Properties
1952	1"=500'	The portion of the subject property referred to as 10822 Wilshire Boulevard appears to be developed with a small commercial or institutional building and a surface parking lot. The southern portion of the lot appears to be undeveloped and covered in grass. The portion of the subject property referred to as 10812 Ashton Avenue appears to be residentially developed. The subject property is bordered to the north by Wilshire Boulevard followed by multi-family housing; to the east and south by undeveloped and/or residential land; and to the west by an apparent cemetery followed by vacant and commercial lots. Land use in the general area of the subject property appears to be undeveloped, commercial, or residential in nature.
1964, 1967	1"=500'	The subject property appears to be developed with the existing church building and northern surface parking lot (10822 Wilshire Boulevard) and residence (10812 Ashton Avenue). The southern portion of the subject property (west of the residence) appears to be undeveloped, vacant land. The subject property is bordered to the north by Wilshire Boulevard followed by multi-family residential and/or commercial land; to the east and south by apparent single-family and multi-family residential land; and to the west by a surface parking lot, cemetery, and commercial land. Land use in the general area of the subject property appears to be commercial or residential in nature.
1977, 1979, 1983	1"=500'	The subject property and adjoining properties appear unchanged except for the construction of two office/commercial buildings on the adjoining western property along Wilshire Boulevard.
1989, 1994, 2002	1"=500'	The subject property and adjoining properties appear unchanged except for the construction of a multi-family residential building on the adjoining eastern property (along the north side of Ashton Avenue).

Year	Scale	Observations, Subject Property and Adjoining Properties
2005	1"=500'	The subject property appears unchanged from the previous photographs. The southernmost portion of the subject property remains undeveloped. The adjoining properties appear largely as they did at the time of the site visit. The subject property is bordered to the north by Wilshire Boulevard followed by large multi-family residential buildings; to the east by a multi-family residential tower along Wilshire Boulevard, a shorter multi-family residential building along the north side of Ashton Avenue, and single-family residences to the east of the on-site residence; to the south by single-family residential land; and to the west by a surface parking lot, cemetery, and commercial buildings. Land use in the general area of the subject property appears to be commercial or residential in nature.
2009, 2010, 2012	1"=500'	The subject property and adjoining properties appear unchanged except for the paving and striping of the surface parking lot on the southern portion of the subject property.

The historical aerial photographs for these years were obtained from EDR and are included in ***Appendix 3***.

5.3 Historical City Directories

Subject/Adjoining Property	Street Address	Year	Listed Occupant
Subject Property	10822 Wilshire Boulevard	1954-1965	Westwood Presbyterian Church
		1980-1985	Westwood Presbyterian Church/Weekday Nursery School
		1991	Westwood Presbyterian Church/Weekday Preschool, Westwood Printing and Reproduction Co.
		2006-2013	Westwood Presbyterian Church/Weekday Preschool

Subject/Adjoining Property	Street Address	Year	Listed Occupant
Subject Property	198012 Ashton Avenue	1933-1942	Fred and Louise Dunlap
		1970	Donald Hartsock
		1980-1991	Reverend Orr
		2000	Bahman Falakassa
		2006	Mount Royal Entertainment
Adjoining N	10833 Wilshire Boulevard	1954-1975	Residential
		1980	Doctor's Office
		2006-2013	Multi-family residential (The Legacy at Westwood)
Adjoining W	10850 Wilshire Boulevard	1975-2013	Multi-tenant commercial offices
Adjoining E	10800 Wilshire Boulevard	1976	Residential
		1980-1981	TRW Telecommunications/TRW Electronics Group Offices
		1991	Marlar International, Marlboro Pictures
		2006	Grayson & Grayson
		2008-2013	Multi-family residential (The Californian on Wilshire)
Adjoining E	10811 Ashton Avenue	1985-2013	Multi-family residential (Wilshire Village Apartments)

Based on interviews with church representatives, SKA believes the listing of Westwood Printing and Reproduction Co. at the subject property is erroneous. No evidence of historical commercial printing operations was observed on site. The historical city directory listings were obtained from EDR and are included in ***Appendix 3.***

5.4 Historical Sanborn Fire Insurance Maps

Year	Occupant of Subject Property/Adjoining Properties; Indications of Hazardous Material Storage
1938	The subject property is depicted as residential land on the south side of Wilshire Boulevard. Existing roadways Malcolm Avenue, Ashton Avenue, and Glendon Avenue are also displayed in their current locations. The portion of the subject property addressed as 10822 Wilshire Boulevard is depicted as developed with one single-family residence and associated automobile garage. The portion of the subject property addressed as 10812 Ashton Avenue is depicted as developed with one single-family residence and associated automobile garage. The subject property is bordered to the north by Wilshire Boulevard followed by undeveloped lots and a multi-family residential complex; to the west by Westwood Memorial Park cemetery and chapel followed by a veterinary hospital, auto service facility (1240, 1244, 1250, 1252 Glendon Avenue) and vacant lots followed by Glendon Avenue; to the east by residences and vacant lots followed by Malcolm Avenue; and to the south by residences followed by Wellworth Avenue.
1950	The portion of the subject property addressed as 10822 Wilshire Boulevard is depicted as developed with one small church building and an associated surface parking lot. The portion of the subject property addressed as 10812 Ashton Avenue is depicted as developed with one single-family residence and associated automobile garage. The subject property is bordered to the north by Wilshire Boulevard followed by multi-family residential housing and University Bible Church; to the west by Westwood Memorial Park cemetery and chapel followed by a veterinary hospital, two auto service facilities (1220, 1230, 1240, 1244, 1250, 1252 Glendon Avenue) and vacant lots followed by Glendon Avenue and a multi-tenant office building; to the east by multi-family residential housing and single-family residences followed by Malcolm Avenue; and to the south by residences followed by Wellworth Avenue.

Year	Occupant of Subject Property/Adjoining Properties; Indications of Hazardous Material Storage
1969	The portion of the subject property addressed as 10822 Wilshire Boulevard is depicted as developed with the existing Westwood Presbyterian Church building (including a chapel and classrooms) and an associated surface parking lot. The portion of the subject property addressed as 10812 Ashton Avenue is depicted as developed with one single-family residence and associated automobile garage. Adjoining properties to the north, east, and south appear relatively unchanged from the previous map. The subject property is bordered to the west by a surface parking lot (10850 Wilshire Boulevard), Westwood Memorial Park cemetery, mausoleum, and chapel followed by a veterinary hospital (1240 Glendon Avenue), an auto service facility (1244 Glendon Avenue), a new car storage lot, and an office building (10866 Wilshire Boulevard) followed by Glendon Avenue and a multi-tenant office building.

The historical Sanborn Fire Insurance Maps were obtained from EDR and are included in ***Appendix 3.***

5.5 Planning/Zoning Records

Agency Name, Contact Information	Finding
Los Angeles County Office of the Assessor, http://maps.assessor.lacounty.gov/ Los Angeles County Department of Regional Planning, http://rpgis.isd.lacounty.gov/GIS-NET3_Public/Viewer.html	According to the Los Angeles County Office of the Assessor assessment website, the portion of the subject property addressed as 10822 Wilshire Boulevard (Assessor Parcel No. 4325-005-054) is listed as "other" developed with one 16,504 sq-ft building constructed in 1938/1949. The portion of the subject property addressed as 10812 Ashton Avenue (Assessor Parcel No. 4325-005-010) is listed as a 2,392-sq-ft single-family residence constructed in 1929/1943. According to the Los Angeles County Department of Regional Planning website, the subject property is zoned as Institutional/Churches and residential.

5.6 Building Permit Records

Agency Name, Contact Information	Finding
City of Los Angeles Department of Building and Safety (DBS), http://ladbs.org/services/check-status/online-building-records	SKA reviewed on-line building permits for the subject property, beginning in 1950 for the church property and 1929 for the on-site residence. No environmentally significant records were identified. The residence at 10812 Ashton Avenue apparently has a sump pump. In 1983, the house was expanded with a master bedroom/bathroom and a Certificate of Occupancy was granted on February 29, 1984. In 2006, the western portion of the residential lot was graded and paved to create a surface parking lot for the church. The "Compaction File" was approved by the DBS on August 1, 2006. Approximately 250 cubic yards of soil was removed from the site. A Certificate of Occupancy was issued for the parking lot on January 28, 2008.

5.7 Historical Topographic Maps

Year	Scale	Observations
1902	1"=2,000'	The subject property and adjoining properties are depicted as undeveloped land along an unnamed roadway (present-day Wilshire Boulevard). The subject property is approximately 0.25 mile east of a "Soldiers Home." No structures or indicators of potential RECs were depicted on the subject property.
1921, 1925		The subject property is depicted as undeveloped land along the south side of Wilshire Boulevard. The adjoining western property is a cemetery. No structures or indicators of potential RECs were depicted on the subject property.
1934		The subject property is depicted as residential and/or undeveloped land occupied by two single-family residences. Adjoining properties are depicted as undeveloped and/or residential land.

Year	Scale	Observations
1950, 1966	1"=2,000'	The general vicinity of the subject property is shaded pink, indicating general urban development. Therefore, property uses and individual buildings are not depicted. The subject property is bordered to the west by Westwood Memorial Park Cemetery and to the north by a church. The former "Soldiers Home" is depicted as a large US Veterans Administration campus. No structures or indicators of potential RECs were depicted on the subject property.
1972, 1981, 1994, 1995, 2012	1"=2,000'	The general vicinity of the subject property is shaded pink, indicating general urban development. However, the existing church building is depicted on the northern portion of the subject property. No indicators of potential RECs were depicted on the subject property.

The historical topographic maps for these years were obtained from EDR and are included in ***Appendix 3.***

5.8 Other Historical Sources

There were no other sources of historical information reviewed during this assessment.

5.9 Summary of Findings from Historical Records Review

Based on the data described above, the review of historical records did not identify evidence of an REC, HREC, or CREC for the subject property.

6.0 Physical Setting

This section provides information on the geology, hydrogeology, and groundwater characteristics beneath the subject property.

6.1 Hydrologic Characteristics

A review of the U.S.G.S. Beverly Hills, California 7.5-minute topographic quadrangle map of the area (see ***Figure 1***) indicates the subject property is located approximately 300 feet above mean sea level (AMSL). Surface runoff on the subject property is generally directed to the northern and eastern property boundaries into stormwater drainage inlets along Wilshire Boulevard and Ashton Avenue. Additionally, there are stormwater drainage inlets within the southern portion of the church property surface parking lot.

FEMA Flood Insurance Rate Map Nos. 06037C1580F, 06037C158F, 06037C1590F, and 06037C1595F (dated 9/26/2008) indicate the subject property is classified as Zone X (unshaded). This zone consists of areas determined by FEMA to be outside the 0.2% annual chance floodplains (see ***Figure 3***).

6.2 Subsurface Geological Characteristics

According to the USDA Natural Resources Conservation Service (NRCS) Web Soil Survey, no soil data is available for the subject property vicinity. According to the Soil Survey of the Los Angeles Area, California, available on the NRCS website, the dominant soils in the vicinity of the subject property consist of gravelly loams derived from granitic rocks. The subsoil soil consists of granitic sand and gravel with scattered boulders.

Radon can be found in high concentrations in certain soils and rocks containing uranium, and in granite, shale, phosphate, and pitchblende. It can also be found in soils contaminated with certain types of industrial wastes such as the by-products of uranium or phosphate mining. According to the US Environmental Protection Agency (EPA), natural indoor radon levels throughout Los Angeles County are below the specified action level of 4.0 picocuries per liter (pCi/L), but above 2 pCi/L, which is designated as Federal EPA Zone 2. No industrial wastes that could contain radon were observed or known to exist on the subject property.

6.3 Groundwater Characteristics

According to the Los Angeles County Waterworks Districts website (https://dpw.lacounty.gov), there are no potable groundwater resources in the vicinity of the subject property. Potable water is imported from Northern California using the California Aqueduct through the State Water Project. Seasonal perched groundwater (if present) could be encountered at depths of approximately 40 ft-bgs. However, groundwater in this region of California is extremely dependent on seasonal variations and precipitation.

6.4 Water Well Search

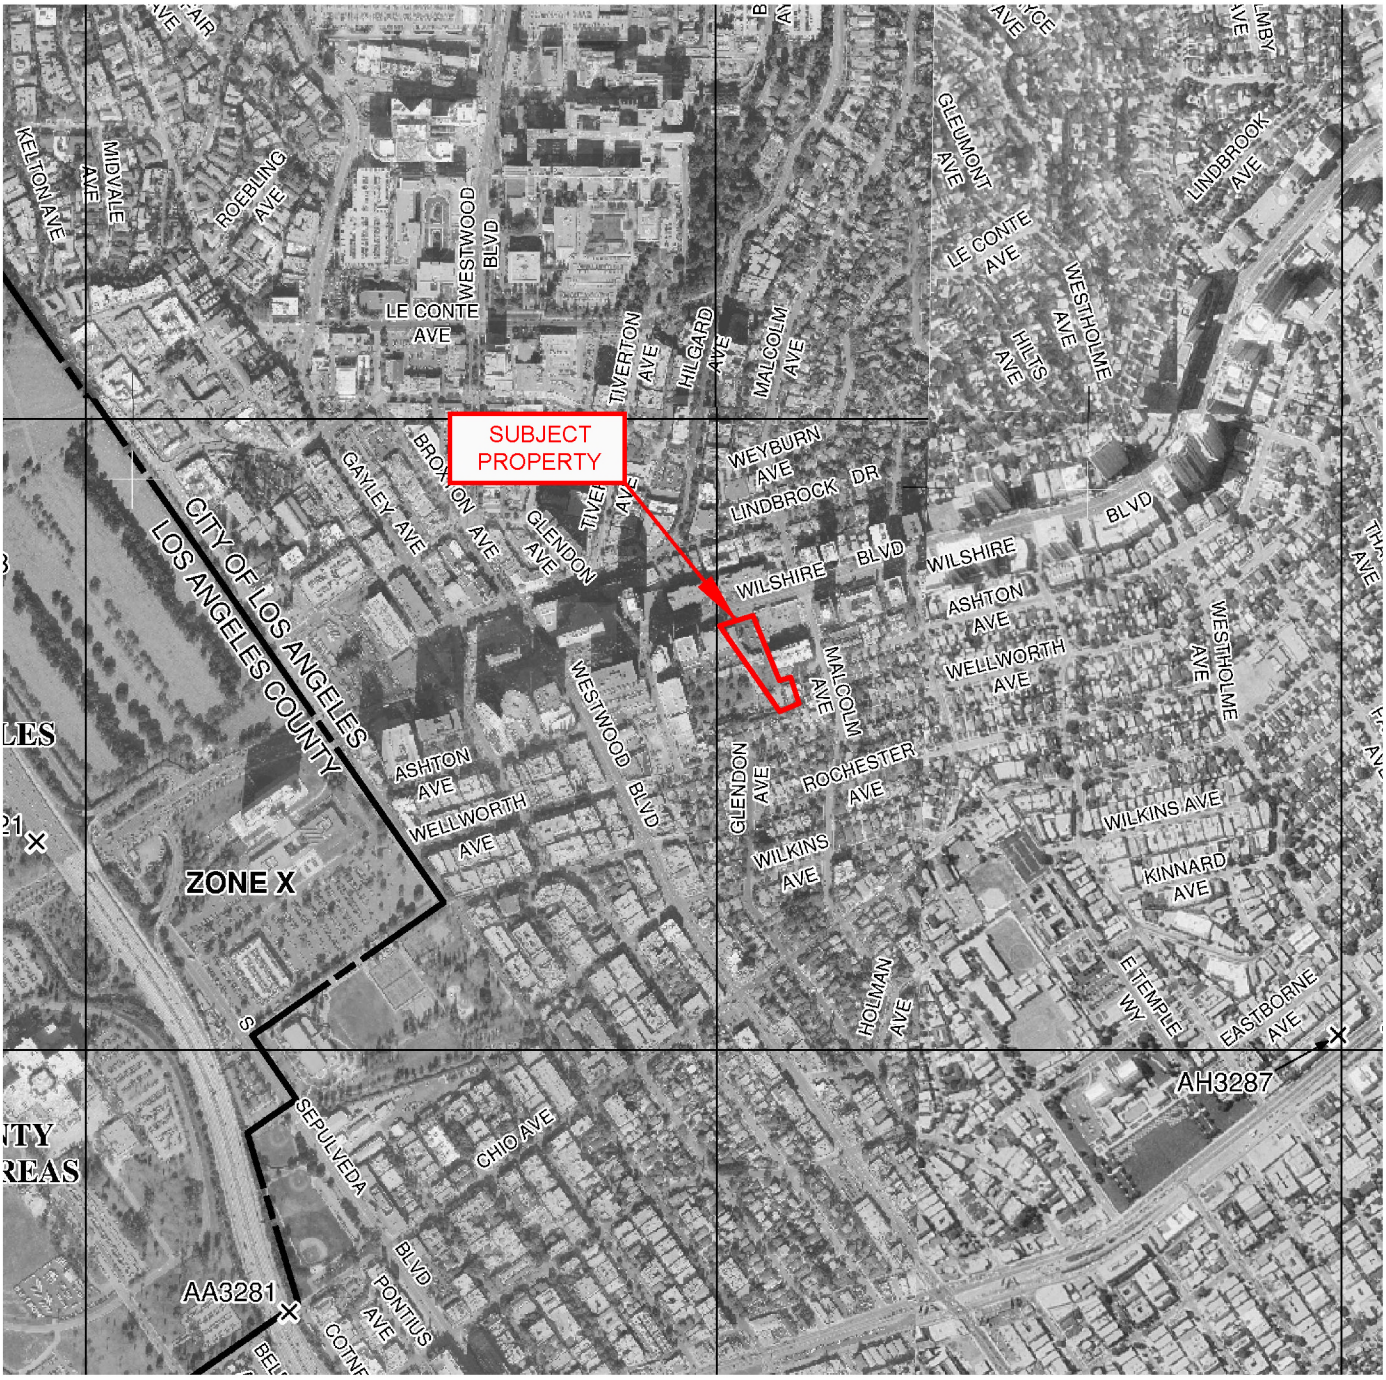

A search of registered water wells by EDR identified no wells on the subject property or within a one-mile radius of the subject property. Information pertaining to the search for registered water wells is included in the EDR report in ***Appendix 3***.

6.5 Groundwater Quality and Gradient

Information concerning the groundwater beneath the subject property is not readily available. As a result, SKA cannot provide an evaluation of the flow direction or quality of the groundwater immediately beneath the subject property.

6.6 Summary of Findings from Physical Setting

Based on the data described above, the review of the physical setting did not identify evidence of an REC, HREC, or CREC for the subject property.

EXPLANATION:
Zone X (unshaded) - Areas determined to be outside the 0.2% annual chance floodplains.

7.0 Site Reconnaissance

This section describes the findings of an on-site inspection of the subject property. The inspection was conducted by Jessica Jenkins on March 28, 2016. The property inspection included a visual inspection of the ground surface for signs of contamination, inspection of the premises for other items of environmental concern, and evaluation of the environmental condition of adjoining properties. Photographs of the property taken during the site visual inspection are included in ***Appendix 2***. A Site Plan showing significant features of the subject property is included as ***Figure 2***.

7.1 General Description

Subject Property Description:	The subject property is an approximately 1.62-acre institutionally and residentially developed tract of land situated on the south side of Wilshire Boulevard, approximately 800 feet east of Westwood Boulevard, and 10.5 miles west of downtown Los Angeles. Current land use in the general area is a mixture of commercial and residential properties.
Structures, Roads, Other Improvements:	The subject property consists of an irregular L-shaped tract of land occupied by Westwood Presbyterian Church (10822 Wilshire Boulevard), two surface parking lots (northern and southern) and a single-family residence (10812 Ashton Avenue) (see ***Figure 2***). The 2,392 sq-ft single-family residence was constructed in 1929 on the southeastern portion of the subject property. The structure consists of a single-story wood-framed building with a crawlspace and a single carport. The church property is improved with three 16,504 sq-ft buildings consisting of a sanctuary, offices, and preschool constructed between 1950 and the 1960s. The original church building (currently called the Janss Building) is located on the central portion of the subject property and is a one-story building used for fellowship and offices. The Janss Building was moved to the subject property in 1950. Between 1952 and 1964, a sanctuary with a balcony level was constructed on the northern portion of the subject property, along Wilshire Boulevard and a rectangular, two-story, office and preschool building with a partial basement was constructed to connect the sanctuary and the Janss Building. The Janss Building and office/classroom building are one- and two-story wood framed structures with a slab-on-grade foundation. A partial basement houses the furnace, water heater, and electrical panels. The buildings have an exterior façade of stucco and/or wooden siding and

	pitched tile roofs. The interior office areas are finished with sheetrock walls, floor tile and/or carpet, and drop-in ceiling tile. The sanctuary building is constructed of concrete and also has a partial basement for the furnace, water heater, and electrical panels. The remainder of the church property consists of a paved surface parking lot and an outdoor play area for the on-site preschool. The subject property is largely unfenced; however, the western subject property boundary abuts the adjoining movie theater building and the cemetery mausoleum walls. The southwestern corner of the southern surface parking lot and the eastern boundary of the northern surface parking lot are fenced by low masonry walls. A portion of the eastern subject property boundary along a multi-family residential building is bound by a wooden fence. The yard of the residential lot at 10812 Ashton Avenue is bound by wooden fencing. Access to the church property is via two, fenced concrete driveways leading from Wilshire Boulevard to the north and Ashton Avenue to the east. Access to the on-site residence is via a driveway along Ashton Avenue.
Subject Property Size (acres):	±1.62 acres
Estimated % of Subject Property Covered by Buildings and/or Pavement:	An estimated 95% of the subject property is covered by the on-site buildings and paved parking and/or driving areas. The remaining portion is covered by landscaping or decorative trees (including the small vegetated backyard of the on-site residence).
Observed Current Subject Property Use/Operations:	Church, preschool, and single-family residence.
Observed Evidence of Past Subject Property Use(s):	None observed.

7.2 Hazardous Substances and Petroleum Products

The following visual observations were made by SKA personnel during the site visual inspection regarding hazardous or otherwise regulated substances at the subject property:

Observation	Description
Hazardous Substances and Petroleum Products:	Household quantities of various cleaners, bleach, and surfactants in manufacturer-supplied, labeled containers were observed in a janitorial closet located within the covered patio along the eastern exterior wall of the office/classroom building. Additional janitorial supplies were observed within two kitchen areas in the preschool area and the Janss Building. None of the containers exceeded two gallons in capacity. Numerous 1-gallon and 5-gallon cans of paint were observed within a plastic storage shed at the southeastern corner of the Janss Building. SKA did not observe any evidence of spills, leaks, or releases in association with any of the chemical storage areas.
Drums (≥ 5 gallons):	None observed.
Strong, Pungent, or Noxious Odors:	None observed.
Pools of Liquid:	None observed.
Unidentified Substance Containers:	None observed.
PCB-Containing Equipment:	None observed.
Other Observed Evidence of Hazardous Substances or Petroleum Products:	None observed.

7.3 Facility Interior Observations

The following observations were made by SKA personnel during the site visual inspection of the building interiors at the subject property:

Observation	Description
Heating/Cooling Method:	The building is heated/cooled with pad-mounted, electrical A/C units and natural gas-powered furnaces.
Surface Stains or Corrosion:	None observed.
Floor Drains and Sumps:	None observed.
Other Interior Observations:	None observed.

7.4 Facility Exterior Observations

The following observations were made by SKA personnel during the site visual inspection of exterior areas of the subject property:

Observation	Description
On-site Pits, Ponds, or Lagoons:	None observed.
Stained Soil or Pavement:	None observed.
Stressed Vegetation:	None observed.
Waste Streams and Waste Collection Areas:	Solid waste generated is reportedly stored in a single, steel municipal dumpster at the southeastern corner of the Janss Building and regularly hauled off-site by United Pacific Waste & Recycling Services. No indication of a release of hazardous substances or petroleum products was observed in the designated waste collection area.
Solid Waste Disposal:	None observed.
Potential Areas of Fill Placement:	No mounds, piles, or depressions suggesting the placement of fill material were observed on the subject property.
Wastewater:	No exterior wastewater discharge was observed.
Storm Water:	Surface runoff flows into drop inlets within the southern surface parking lot on the church property, or flows to the drop inlets within the neighboring roadways (Wilshire Boulevard and Ashton Avenue). No potential off-site sources of contamination flowing onto subject property via storm water were observed.
Wells:	No wells were observed.
Septic Systems:	No visible evidence of the existence of a septic system was observed.
Other Exterior Observations:	A recent borehole location was observed on the southern portion of the surface parking lot. According to the Key Subject Property Manager, the borehole is associated with a current geotechnical assessment.

7.5 Underground Storage Tanks or Related Structures

Existing USTs:	No visible evidence (fill pipes, vent pipes, dispensers, surface patches), which would indicate the presence of USTs, was discovered during the site reconnaissance.
Former USTs:	No visible evidence (fill pipes, vent pipes, dispensers, surface patches), reports, or other evidence of the former presence of USTs was discovered during this Phase I ESA.
Other Underground Structures:	None observed.

7.6 Aboveground Storage Tanks or Related Structures

Existing ASTs:	No ASTs were observed during the site reconnaissance.
Former ASTs:	No reports or other evidence of the former presence of ASTs was discovered during this Phase I ESA.

7.7 Electrical Transformers

No electrical transformers were observed on the subject property.

7.8 Asbestos-Containing Material (ACM)

As further discussed in ***Sections 4.0 and 8.0***, the Key Subject Property Manager provided documentation of ACM removal activities during acoustic tile replacement activities in the sanctuary in 2012. However, a survey for the presence of ACM was beyond the scope of this assessment. As such, SKA makes no warranty as to the presence of asbestos in structural improvements to the on-site buildings without conducting a comprehensive survey for ACM. In addition, certain local ordinances may require the performance of a survey for ACM prior to issuance of renovation or demolition permits. An ACM survey should be conducted in accordance with applicable State and Federal regulations prior to performing any renovation or demolition activities on the buildings.

7.9 Area Reconnaissance

The following observations were made by SKA personnel during an area reconnaissance (windshield survey) conducted as part of the site reconnaissance:

7.9.1 Current Uses of Adjoining Properties

SKA made the following observations about use and activities on adjoining properties as viewed from the subject property and/or from public rights-of-way:

North:	Wilshire Boulevard followed by multi-family residential housing (The Legacy at Westwood, 10833 Wilshire Boulevard).
South:	Single-family residences.
East:	Multi-family (The Californian of Wilshire, 10800 Wilshire Boulevard and The Wilshire Villa, 10811 Ashton Avenue) and single-family residential.
West:	A commercial office tower (AVCO Center, 10850 Wilshire Boulevard) and movie theatre (iPic, 10840 Wilshire Boulevard), surface parking lot, and Westwood Memorial Park cemetery and mausoleum.

7.9.2 Observed Evidence of Past Uses of Adjoining Properties

Observations of adjoining properties providing indications of past use and activities, if any, are described below.

North:	None observed.
South:	None observed.
East:	None observed.
West:	None observed.

7.9.3 Pits, Ponds, or Lagoons on Adjoining Properties

SKA made the following observations about the presence of pits, ponds and lagoons on adjoining properties as viewed from the subject property:

North:	None observed.
South:	None observed.
East:	None observed.
West:	None observed.

7.10 Summary of Findings from Site Reconnaissance

Based on the observations and data described above, the site reconnaissance of the subject property and surrounding area did not identify evidence of an REC, HREC, or CREC for the subject property.

8.0 Interviews

This section describes the findings of interviews conducted with the current property owner, a Key Site Manager, major occupants of the subject property, and/or other pertinent persons. Copies of the owner/occupant inquiry forms and/or records of communication with the interviewees are included in ***Appendix 3***.

8.1 Summary of Findings from Interview with Current Property Owner

Name, Title, Telephone Years Familiar with Subject Property:	Mayra Newbon Director of Operations Westwood Presbyterian Church 10822 Wilshire Blvd. Los Angeles, CA 90024 310.474.4535 x100 Familiar for twenty years
Current Use of Subject Property:	Church, residential. Specific information regarding the use and operation of the subject property has been incorporated into the appropriate sections of this report.
Past Use(s) of Subject Property:	Church, residential.
Current Use of Surrounding Properties:	Commercial, residential, cemetery.
Past Use(s) of Surrounding Properties:	Unknown.
Current or Past Hazardous/ Petroleum Material Use, Storage, Disposal:	None.
Past Releases of Hazardous/Petroleum Materials on the Property:	None.
Other Environmental Information (Permits, etc.):	The acoustic tile in the sanctuary was replaced in 2012, resulting in the disposal of two tons of asbestos-containing material.
Aware of Any Pending, Threatened or Past Litigation Relevant to Hazardous Substances or Petroleum Products in, on, or From Subject Property?	None.
Aware of Any Pending, Threatened or Past Administrative Proceedings Relevant to Hazardous Substances or Petroleum Products in, on, or From Subject property?	None.

Aware of Any Pending, Threatened or Past Notices From Any Governmental Entity Regarding Possible Violations Of Environmental Laws Or Possible Liability Relating To Hazardous Substances Or Petroleum Products?	None.

8.2 Summary of Findings from Interview with Key Site Manager

Name, Title, Telephone Years Familiar with Subject Property:	See ***Section 8.1***.
Current Use of Subject Property:	
Past Use(s) of Subject Property:	
Current Use of Surrounding Properties:	
Past Use(s) of Surrounding Properties:	
Current or Past Hazardous/ Petroleum Material Use, Storage, Disposal:	
Current or Past Regulatory Action(s):	
Past Releases of Hazardous/Petroleum Materials on the Property:	
Other Environmental Information (Permits, etc.):	
Aware of Any Pending, Threatened or Past Litigation Relevant to Hazardous Substances or Petroleum Products in, on, or From Subject Property?	
Aware of Any Pending, Threatened or Past Administrative Proceedings Relevant to Hazardous Substances or Petroleum Products in, on, or From Subject property?	
Aware of Any Pending, Threatened or Past Notices From Any Governmental Entity Regarding Possible Violations Of Environmental Laws Or Possible Liability Relating To Hazardous Substances Or Petroleum Products?	

8.3 Summary of Findings from Interviews with Major Occupants

Occupant Company Name	Name, Title, Telephone # of Individual	Occupant Since (Year)	Comments
None.			

8.4 Summary of Findings from Interviews with Others

SKA interviewed the following people likely to be knowledgeable of the environmental condition or history of the subject property, such as local agency officials, neighbors, past owners, operators, or occupants, etc.:

Name, Title, Company	Telephone	Qualifications relevant to subject property knowledge	Comments
Ms. Martha Kadue	m.kadue@gmail.com	Parishioner	Ms. Kadue was contacted by SKA to determine information regarding church history and a 1991 city directory listing of "Westwood Printing & Reproduction" at the subject property. Ms. Kadue responded to SKA: "When the Wilshire property was purchased by the Presbyterian Church in around 1948-1949, the property was vacant. The Presbyterian Church/WPC did not do any demolition. If it had ever been used for anything else, I am unaware. At various times since 1950, WPC purchased additional property -- the back parking lot (which was also vacant land) from the cemetery, the Ashton house (as far as I know, always a single-family residence), and the property on the north side of Ashton where the apartment building is now (that property had one empty lot and a duplex when owned by WPC). The north-side-of-Ashton property was sold by WPC around 1980." Ms. Kadue believed the city directory listing to be erroneous.

8.5 Summary of Findings from Interviews

Based on the interview responses described above, the findings of the interviews did not indicate the existence of an REC, HREC, or CREC for the subject property.

9.0 Summary of Historical Subject Property and Adjoining Property Use

The following summary of the historical uses of the subject property and adjoining properties was compiled from the referenced materials and interviews detailed in ***Sections 5.0, 7.0, and 8.0***.

9.1 Subject Property Use

Year	Summary of Subject Property Use
Prior to 1950	Residential.
1950 to Present	The portion of the subject property addressed at 10822 Wilshire Boulevard is developed with Westwood Presbyterian Church and preschool. The portion of the subject property addressed at 10812 Ashton Avenue remains residential.

9.2 Adjoining Property Use

Direction	Summary of Historical Adjoining Property Use
North	Wilshire Boulevard has been present to the north of the subject property since the 1800s. Adjoining properties were developed residentially in the 1940s.
South	Single-family residences since the 1930s.
East	Multi-family and single-family residential since the 1930s.
West	A cemetery since the 1920s and commercial development beginning in the 1970s.

10.0 Data Gaps

The federal AAI rule [40 CFR 312.10(a)] and ASTM E1527-13 identify a "data gap" as the lack or inability to obtain information required by the standards and practices of the rule despite good faith efforts by the Environmental Professional or the User.

Any data gaps resulting from the Phase I ESA described in this report are listed and discussed below.

Weather-Related Restrictions To Site Reconnaissance:	None.
Facility Access Restrictions to Site Reconnaissance:	Due to the residence being currently occupied by a tenant, SKA was unable to access the on-site residence. This did not affect SKA's ability to adequately assess the environmental condition of the subject property.
Other Site Reconnaissance Restrictions:	None.
Data Gaps From Environmental Records Review:	SKA requested information from the User of this report regarding environmental cleanup liens recorded in the property deed records for the subject property. However, no documentation was provided that a search for environmental cleanup liens had been completed by the User. Based on reviews of other historical sources, this data gap does not affect SKA's ability to adequately assess the environmental condition of the subject property.
Data Gaps From Historical Records Review:	SKA has not received responses from every governmental agency from whom information was requested by the date of this report. However, based on reviews of other sources documented in this report, this did not affect SKA's ability to adequately assess the environmental condition of the subject property.
Data Gaps From Interviews:	None.
Other Data Gaps:	None.

11.0 Conclusions

SKA was retained by Belmont Village, L.P. (User) to perform a Phase I Environmental Site Assessment (ESA) of a ±1.62-acre developed property (subject property) located at 10822 Wilshire Boulevard and 10812 Ashton Avenue in Los Angeles, Los Angeles County, California. This assessment was performed in conformance with the scope and limitations of ASTM Practice E 1527-13. SKA has, in the course of this inquiry, attempted to identify and review commonly known or reasonably ascertainable information about the subject property that is relevant to evaluating the presence of RECs, HRECs, or CRECs in connection with the subject property. Any exceptions to, or deletions from, this practice are described in ***Section 10.0*** of this report.

The results of the assessment have revealed no RECs, HRECs, or CRECs in connection with the subject property.

Although not considered an REC, CREC, or HREC, the following condition warrants mention:

- Limited asbestos-containing material (ACM) abatement was reportedly performed during acoustic tile replacement activities in the sanctuary building in 2012. However, a survey for the presence of ACM was beyond the scope of this assessment. As such, SKA makes no warranty as to the presence of asbestos in structural improvements to the on-site buildings without conducting a comprehensive survey for ACM. In addition, certain local ordinances may require the performance of a survey for ACM prior to issuance of renovation or demolition permits. An ACM survey should be conducted in accordance with applicable State and Federal regulations prior to performing any renovation or demolition activities on the buildings.

These conclusions have been based on, among other things, a limited inspection and research of public documents pertaining to the subject property. Conclusions drawn by others from the results of this assessment should recognize the limitations of the methods used. This report was produced for the exclusive use of Belmont Village, L.P. and their authorized representatives. Further dissemination or reliance upon this report by any other party (except a governmental entity having jurisdiction over the subject property) without prior written authorization from SKA and Belmont Village, L.P. is strictly prohibited. Any reuse or distribution without such written consent shall be at the Client's or recipient's sole risk, without liability to SKA.

12.0 Declarations of Environmental Professional

The federal AAI rule and ASTM E-1527-13 require that the Phase I ESA report include the following declarations by the Environmental Professional who completed the assessment.

1. *I declare that, to the best of my professional knowledge and belief, I meet the definition of Environmental Professional as defined in 40 CFR 312.10.*

2. *I have the specific qualifications based on education, training, and experience to assess a property of the nature, history, and setting of the subject property. I have developed and performed the all appropriate inquiries in conformance with the standards and practices set forth in 40 CFR 312.*

APPENDICES

APPENDIX 1
DEFINITIONS

DEFINITIONS

For purposes of conducting a Phase I Environmental Site Assessment Report pursuant to ASTM Practice 1527-13, the following definitions relate to *hazardous substance, hazardous waste*, and *petroleum products* in this report:

Hazardous Substance - A substance defined as a hazardous substance pursuant to CERCLA 42 USC 9601(14), as interpreted by EPA regulations and the courts: "(A) any substance designated pursuant to section 1321(b)(2)(A) of Title 33, (B) any element, compound, mixture, solution, or substance designated pursuant to section 9602 of this title, (C) any hazardous waste having the characteristics identified under or listed pursuant to section 3001 of the Solid Waste Disposal Act (42 USC 6921) (but not including any waste the regulation of which under the Solid Waste Disposal Action (42 USC 6901 *et seq.*) has been suspended by Act of Congress, (D) any toxic pollutant listed under section 1317(a) of Title 33, (E) any hazardous air pollutant listed under section 112 of the Clean Air Act (42 USC 7412), and (F) an imminently hazardous chemical substance or mixture with respect to which the Administrator (of EPA) has taken action pursuant to section 2606 of Title 15. The term does not include petroleum, including crude oil or any fraction thereof which is not otherwise specifically listed or designated as a hazardous substance under subparagraphs (A) through (F) of this paragraph, and the term does not include natural gas, natural gas, liquefied natural gas, or synthetic gas usable for fuel (or mixtures of natural gas and such synthetic gas)."

Hazardous Waste - any hazardous waste having the characteristics identified under or listed pursuant to section 3001 of the Solid Waste Disposal Action (42 USC 6921) (but not including any waste the regulation of which under the Solid Waste Disposal Act (42 USC 6901 *et seq.* has been suspended by Act of Congress). The Solid Waste Disposal Act of 1980 amended RCRA. RCRA defines hazardous waste, in 42 USC 6903, as: "a solid waste, or combination of solid wastes, which because of its quantity, concentration or physical, chemical, or infectious characteristics may--(A) cause, or significantly contribute to an increase in mortality or an increase in serious irreversible, or incapacitating reversible, illness; (B) pose a substantial present or potential hazard to human health or the environment when improperly treated, stored, transported, or disposed of, or otherwise managed.

Petroleum Products - those substances included within the meaning of the *petroleum exclusion* to CERCLA, 42 USC 9601(14), as interpreted by the courts and EPA, that is: petroleum, including crude oil or any fraction thereof which is not otherwise specifically listed or designated as a hazardous substance under Subparagraphs (A) through (F) of 42 USC 9601(14), natural gas, natural gas liquids, liquefied natural gas, and synthetic gas usable for fuel (or mixtures of natural gas and such synthetic gas). The word fraction refers to certain distillates of crude oil, including gasoline, kerosene, diesel oil, jet fuels, and fuel oil, pursuant to *Standard Definitions of Petroleum Statistics, American Petroleum Institute*.

APPENDIX 2
SITE PHOTOGRAPHS

Photo No. 1: View to the south from Wilshire Boulevard of the subject property (sanctuary building).

Photo No. 2: View of the interior of the sanctuary building.

Photo No. 3: View to the west of the subject property, including the northern surface parking lot, sanctuary, and church offices.

Photo No. 4: View to the south of the subject property, including the church offices and preschool classrooms.

Photo No. 5: View of the single dumpster located on the southeastern corner of the Janss Building on the subject property.

Photo No. 6: View of the preschool play area on the southern portion of the subject property.

Photo No. 7: View of a representative interior classroom at the church (used for choir practice).

Photo No. 8: View of the janitorial closet for the church.

Photo No. 9: View of the hazardous materials storage area within the janitorial closet at the church.

Photo No. 10: View of the mechanical room for the church offices/classrooms.

Photo No. 11: View of the mechanical room for the church sanctuary.

Photo No. 12: View of the residential portion of the subject property (10812 Ashton Avenue).

Photo No. 13: View to the east of the eastern adjoining properties and Ashton Avenue.

Photo No. 14: View to the north of Wilshire Boulevard and northern adjoining property.

Photo No. 15: View to the west of the sanctuary and the western adjoining properties along Wilshire Boulevard.

Photo No. 16: View to the east of Wilshire Boulevard and eastern adjoining property.

EXECUTIVE SUMMARY

A search of available environmental records was conducted by Environmental Data Resources, Inc (EDR). The report was designed to assist parties seeking to meet the search requirements of EPA's Standards and Practices for All Appropriate Inquiries (40 CFR Part 312), the ASTM Standard Practice for Environmental Site Assessments (E 1527-13) or custom requirements developed for the evaluation of environmental risk associated with a parcel of real estate.

SURROUNDING SITES: SEARCH RESULTS

Surrounding sites were identified in the following databases.

Elevations have been determined from the USGS Digital Elevation Model and should be evaluated on a relative (not an absolute) basis. Relative elevation information between sites of close proximity should be field verified. Sites with an elevation equal to or higher than the target property have been differentiated below from sites with an elevation lower than the target property.
Page numbers and map identification numbers refer to the EDR Radius Map report where detailed data on individual sites can be reviewed.

Sites listed in ***bold italics*** are in multiple databases.

Unmappable (orphan) sites are not considered in the foregoing analysis.

EXECUTIVE SUMMARY

STANDARD ENVIRONMENTAL RECORDS

Federal RCRA generators list

RCRA-LQG: RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Large quantity generators (LQGs) generate over 1,000 kilograms (kg) of hazardous waste, or over 1 kg of acutely hazardous waste per month.

A review of the RCRA-LQG list, as provided by EDR, and dated 06/09/2015 has revealed that there is 1 RCRA-LQG site within approximately 0.25 miles of the target property.

CVS PHARMACY #9576	*10889 WELLWORTH AVE*	*SW 1/8 - 1/4 (0.163 mi.)*	*20*	*27*

RCRA-SQG: RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Small quantity generators (SQGs) generate between 100 kg and 1,000 kg of hazardous waste per month.

A review of the RCRA-SQG list, as provided by EDR, and dated 06/09/2015 has revealed that there are 3 RCRA-SQG sites within approximately 0.25 miles of the target property.

State- and tribal - equivalent NPL

RESPONSE: Identifies confirmed release sites where DTSC is involved in remediation, either in a lead or oversight capacity. These confirmed release sites are generally high-priority and high potential risk.

A review of the RESPONSE list, as provided by EDR, and dated 11/07/2015 has revealed that there is 1 RESPONSE site within approximately 1 mile of the target property.

State- and tribal - equivalent CERCLIS

ENVIROSTOR: The Department of Toxic Substances Control's (DTSC's) Site Mitigation and Brownfields Reuse Program's (SMBRP's) EnviroStor database identifes sites that have known contamination or sites for which there may be reasons to investigate further. The database includes the following site types: Federal Superfund sites (National Priorities List (NPL)); State Response, including Military Facilities and State Superfund; Voluntary Cleanup; and School sites. EnviroStor provides similar information to the information that was available in CalSites, and provides additional site information, including, but not limited to, identification of formerly-contaminated properties that have been released for reuse, properties where environmental deed restrictions have been recorded to prevent inappropriate land uses, and risk characterization information that is used to assess potential impacts to public health and the environment at contaminated sites.

A review of the ENVIROSTOR list, as provided by EDR, and dated 11/07/2015 has revealed that there are 9 ENVIROSTOR sites within approximately 1 mile of the target property.

Local Lists of Registered Storage Tanks

SWEEPS UST: Statewide Environmental Evaluation and Planning System. This underground storage tank listing was updated and maintained by a company contacted by the SWRCB in the early 1990's. The listing is no longer updated or maintained. The local agency is the contact for more information on a site on the SWEEPS list.

A review of the SWEEPS UST list, as provided by EDR, and dated 06/01/1994 has revealed that there are

11 SWEEPS UST sites within approximately 0.25 miles of the target property.

EDR HIGH RISK HISTORICAL RECORDS

EDR Exclusive Records

EDR Hist Auto: EDR has searched selected national collections of business directories and has collected listings of potential gas station/filling station/service station sites that were available to EDR researchers. EDR's review was limited to those categories of sources that might, in EDR's opinion, include gas station/filling station/service station establishments. The categories reviewed included, but were not limited to gas, gas station, gasoline station, filling station, auto, automobile repair, auto service station, service station, etc. This database falls within a category of information EDR classifies as "High Risk Historical Records", or HRHR. EDR's HRHR effort presents unique and sometimes proprietary data about past sites and operations that typically create environmental concerns, but may not show up in current government records searches.

A review of the EDR Hist Auto list, as provided by EDR, has revealed that there is 1 EDR Hist Auto site within approximately 0.125 miles of the target property.

Equal/Higher Elevation	Address	Direction / Distance	Map ID	Page

EDR Hist Cleaner: EDR has searched selected national collections of business directories and has collected listings of potential dry cleaner sites that were available to EDR researchers. EDR's review was limited to those categories of sources that might, in EDR's opinion, include dry cleaning establishments. The categories reviewed included, but were not limited to dry cleaners, cleaners, laundry, laundromat, cleaning/laundry, wash & dry etc. This database falls within a category of information EDR classifies as "High Risk Historical Records", or HRHR. EDR's HRHR effort presents unique and sometimes proprietary data about past sites and operations that typically create environmental concerns, but may not show up in current government records searches.

A review of the EDR Hist Cleaner list, as provided by EDR, has revealed that there are 4 EDR Hist

EXECUTIVE SUMMARY

Cleaner sites within approximately 0.125 miles of the target property.

Equal/Higher Elevation	Address	Direction / Distance	Map ID	Page
Not reported	10850 WILSHIRE BLVD	W 0 - 1/8 (0.040 mi.)	A3	8
BEVERLY BRENTWOOD CA	10802 WILSHIRE BLV	NNE 0 - 1/8 (0.050 mi.)	B4	8
Not reported	10787 WILSHIRE BLVD	NE 0 - 1/8 (0.083 mi.)	B12	17

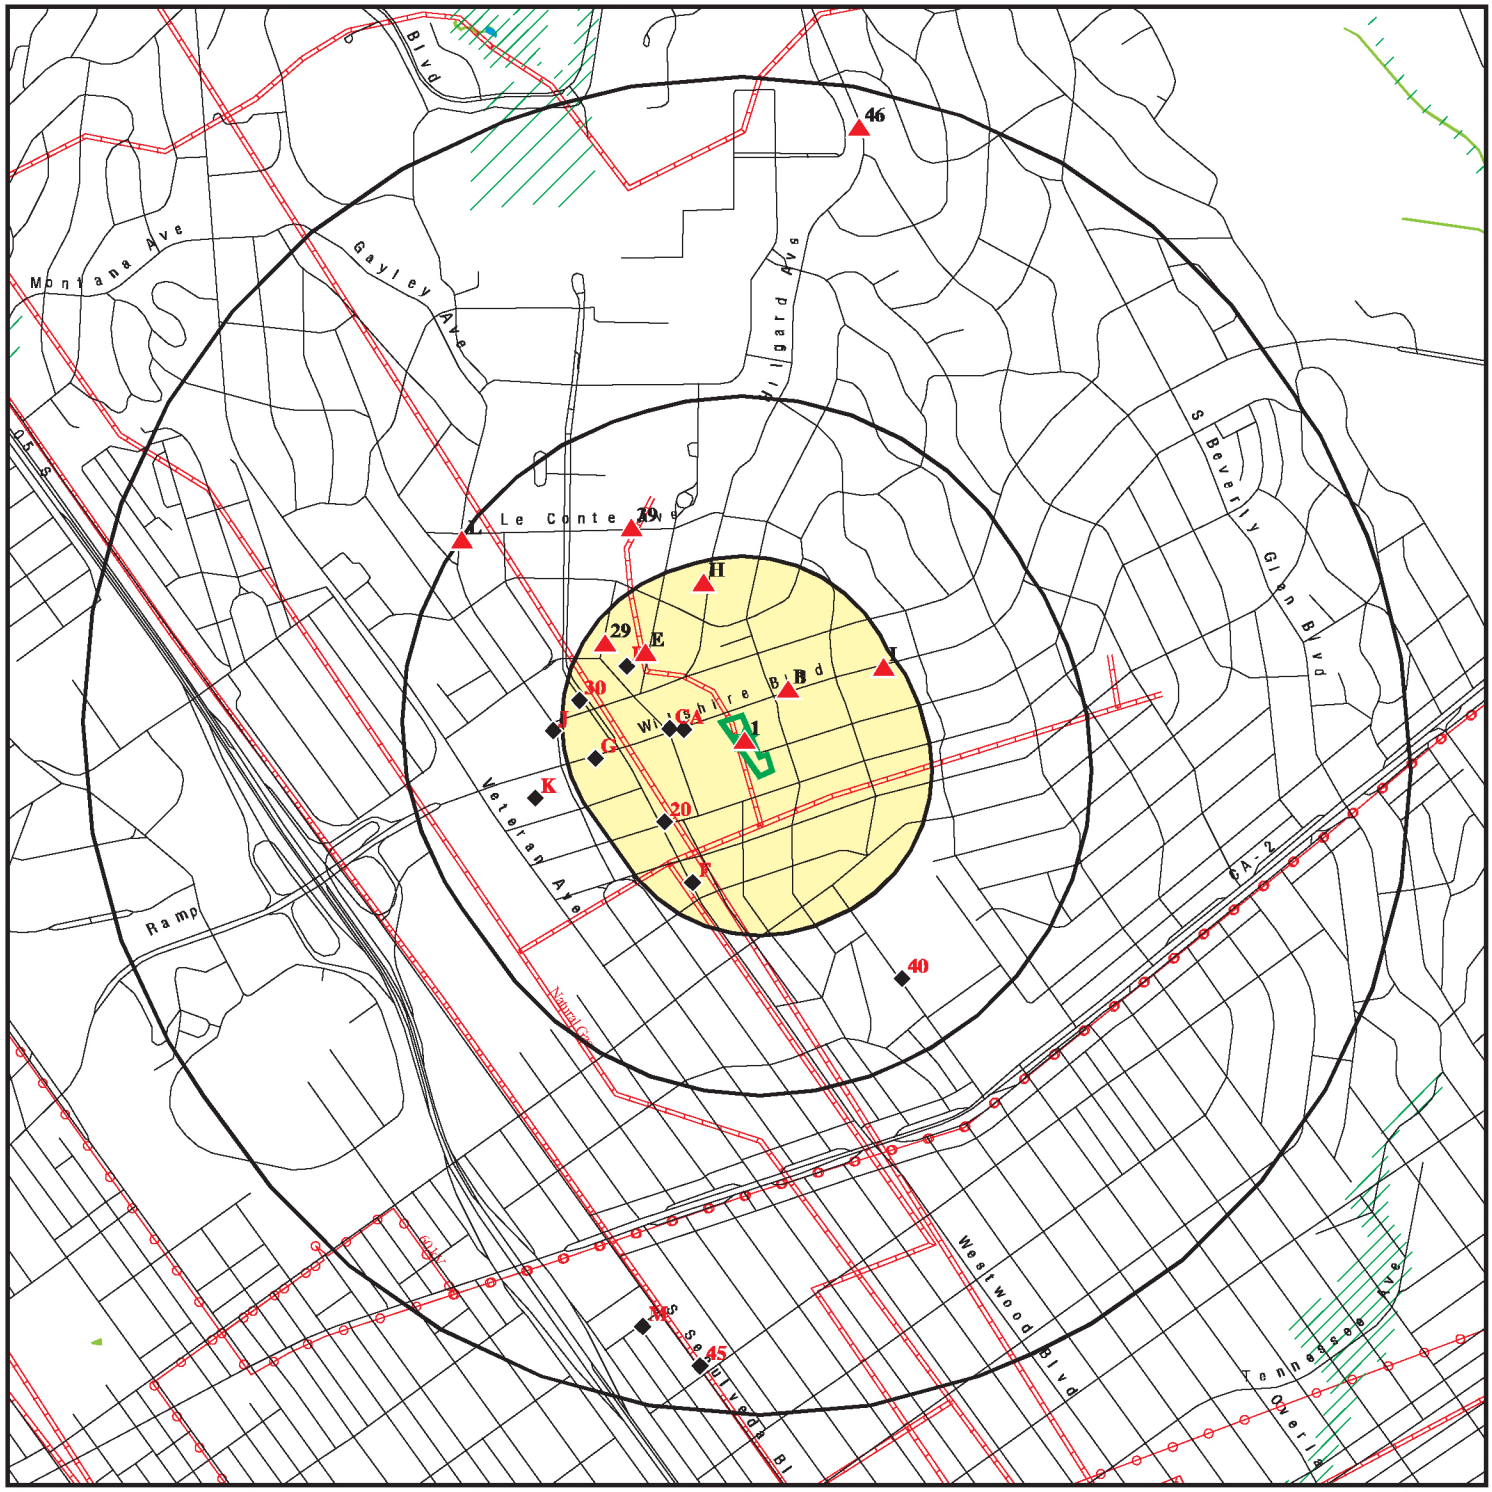

Lower Elevation	Address	Direction / Distance	Map ID	Page
Not reported	10880 WILSHIRE BLVD	WSW 0 - 1/8 (0.117 mi.)	C14	21

EXECUTIVE SUMMARY

Due to poor or inadequate address information, the following sites were not mapped. Count: 2 records.

Site Name	Database(s)
VETERAN'S ADMINISTRATION HOSPITAL	ENVIROSTOR, HIST CORTESE
UNIVERSITY HIGH SCHOOL SOIL GAS ST	ENVIROSTOR

Environmental Interest/Information System
RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Environmental Interest/Information System

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Background Info:	The area involved was a construction site for a 23-story office building. During the foundation excavation, a strong gasoline odor emanated from the borings. Source of the gasoline was probably from a leaking underground storage tank since the area served formerly as a gasoline service station. After investigations, some of the soils were found to be contaminated with Benzene, Toluene and Xylene (BTX). To test the soil, a total of 33 borings were drilled and samples were taken at every 10 feet interval. In addition, all soils were regularly tested for hydrocarbons with a portable OVA analyzer. The site was cetified in 1986 and a post cleanup confirmatio was received by the Department on July 22, 1986.
Comments Date:	01011986

Environmental Interest/Information System
RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

To maintain currency of the following federal and state databases, EDR contacts the appropriate governmental agency on a monthly or quarterly basis, as required.

Number of Days to Update: Provides confirmation that EDR is reporting records that have been updated within 90 days from the date the government agency made the information available to the public.

STANDARD ENVIRONMENTAL RECORDS

Federal NPL site list

NPL: National Priority List

National Priorities List (Superfund). The NPL is a subset of CERCLIS and identifies over 1,200 sites for priority cleanup under the Superfund Program. NPL sites may encompass relatively large areas. As such, EDR provides polygon coverage for over 1,000 NPL site boundaries produced by EPA's Environmental Photographic Interpretation Center (EPIC) and regional EPA offices.

Proposed NPL: Proposed National Priority List Sites

A site that has been proposed for listing on the National Priorities List through the issuance of a proposed rule in the Federal Register. EPA then accepts public comments on the site, responds to the comments, and places on the NPL those sites that continue to meet the requirements for listing.

NPL LIENS: Federal Superfund Liens

Federal Superfund Liens. Under the authority granted the USEPA by CERCLA of 1980, the USEPA has the authority to file liens against real property in order to recover remedial action expenditures or when the property owner received notification of potential liability. USEPA compiles a listing of filed notices of Superfund Liens.

GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

Federal Delisted NPL site list

Delisted NPL: National Priority List Deletions

The National Oil and Hazardous Substances Pollution Contingency Plan (NCP) establishes the criteria that the EPA uses to delete sites from the NPL. In accordance with 40 CFR 300.425.(e), sites may be deleted from the NPL where no further response is appropriate.

CERCLIS: Comprehensive Environmental Response, Compensation, and Liability Information System

CERCLIS contains data on potentially hazardous waste sites that have been reported to the USEPA by states, municipalities, private companies and private persons, pursuant to Section 103 of the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA). CERCLIS contains sites which are either proposed to or on the National Priorities List (NPL) and sites which are in the screening and assessment phase for possible inclusion on the NPL.

Federal CERCLIS NFRAP site list

CERCLIS-NFRAP: CERCLIS No Further Remedial Action Planned

Archived sites are sites that have been removed and archived from the inventory of CERCLIS sites. Archived status indicates that, to the best of EPA's knowledge, assessment at a site has been completed and that EPA has determined no further steps will be taken to list this site on the National Priorities List (NPL), unless information indicates this decision was not appropriate or other considerations require a recommendation for listing at a later time. This decision does not necessarily mean that there is no hazard associated with a given site; it only means that, based upon available information, the location is not judged to be a potential NPL site.

Federal RCRA non-CORRACTS TSD facilities list

RCRA-TSDF: RCRA - Treatment, Storage and Disposal

RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Transporters are individuals or entities that move hazardous waste from the generator offsite to a facility that can recycle, treat, store, or dispose of the waste. TSDFs treat, store, or dispose of the waste.

ENVIROSTOR: EnviroStor Database

The Department of Toxic Substances Control's (DTSC's) Site Mitigation and Brownfields Reuse Program's (SMBRP's) EnviroStor database identifes sites that have known contamination or sites for which there may be reasons to investigate further. The database includes the following site types: Federal Superfund sites (National Priorities List (NPL)); State Response, including Military Facilities and State Superfund; Voluntary Cleanup; and School sites. EnviroStor provides similar information to the information that was available in CalSites, and provides additional site information, including, but not limited to, identification of formerly-contaminated properties that have been released for reuse, properties where environmental deed restrictions have been recorded to prevent inappropriate land uses, and risk characterization information that is used to assess potential impacts to public health and the environment at contaminated sites.

ADDITIONAL ENVIRONMENTAL RECORDS

Local Brownfield lists

US BROWNFIELDS: A Listing of Brownfields Sites
Brownfields are real property, the expansion, redevelopment, or reuse of which may be complicated by the presence or potential presence of a hazardous substance, pollutant, or contaminant. Cleaning up and reinvesting in these properties takes development pressures off of undeveloped, open land, and both improves and protects the environment. Assessment, Cleanup and Redevelopment Exchange System (ACRES) stores information reported by EPA Brownfields grant recipients on brownfields properties assessed or cleaned up with grant funding as well as information on Targeted Brownfields Assessments performed by EPA Regions. A listing of ACRES Brownfield sites is obtained from Cleanups in My Community. Cleanups in My Community provides information on Brownfields properties for which information is reported back to EPA, as well as areas served by Brownfields grant programs.

Local Lists of Hazardous waste / Contaminated Sites

US HIST CDL: National Clandestine Laboratory Register
A listing of clandestine drug lab locations. The U.S. Department of Justice ("the Department") provides this web site as a public service. It contains addresses of some locations where law enforcement agencies reported they found chemicals or other items that indicated the presence of either clandestine drug laboratories or dumpsites. In most cases, the source of the entries is not the Department, and the Department has not verified the entry and does not guarantee its accuracy. Members of the public must verify the accuracy of all entries by, for example, contacting local law enforcement and local health departments.

Date of Government Version: 09/17/2015

DEED: Deed Restriction Listing
Site Mitigation and Brownfields Reuse Program Facility Sites with Deed Restrictions & Hazardous Waste Management Program Facility Sites with Deed / Land Use Restriction. The DTSC Site Mitigation and Brownfields Reuse Program (SMBRP) list includes sites cleaned up under the program's oversight and generally does not include current or former hazardous waste facilities that required a hazardous waste facility permit. The list represents deed restrictions that are active. Some sites have multiple deed restrictions. The DTSC Hazardous Waste Management Program (HWMP) has developed a list of current or former hazardous waste facilities that have a recorded land use restriction at the local county recorder's office. The land use restrictions on this list were required by the DTSC HWMP as a result of the presence of hazardous substances that remain on site after the facility (or part of the facility) has been closed or cleaned up. The types of land use restriction include deed notice, deed restriction, or a land use restriction that binds current and future owners.

EPA WATCH LIST: EPA WATCH LIST

EPA maintains a "Watch List" to facilitate dialogue between EPA, state and local environmental agencies on enforcement matters relating to facilities with alleged violations identified as either significant or high priority. Being on the Watch List does not mean that the facility has actually violated the law only that an investigation by EPA or a state or local environmental agency has led those organizations to allege that an unproven violation has in fact occurred. Being on the Watch List does not represent a higher level of concern regarding the alleged violations that were detected, but instead indicates cases requiring additional dialogue between EPA, state and local agencies - primarily because of the length of time the alleged violation has gone unaddressed or unresolved.

2020 COR ACTION: 2020 Corrective Action Program List

The EPA has set ambitious goals for the RCRA Corrective Action program by creating the 2020 Corrective Action Universe. This RCRA cleanup baseline includes facilities expected to need corrective action. The 2020 universe contains a wide variety of sites. Some properties are heavily contaminated while others were contaminated but have since been cleaned up. Still others have not been fully investigated yet, and may require little or no remediation. Inclusion in the 2020 Universe does not necessarily imply failure on the part of a facility to meet its RCRA obligations.

RMP: Risk Management Plans

When Congress passed the Clean Air Act Amendments of 1990, it required EPA to publish regulations and guidance for chemical accident prevention at facilities using extremely hazardous substances. The Risk Management Program Rule (RMP Rule) was written to implement Section 112(r) of these amendments. The rule, which built upon existing industry codes and standards, requires companies of all sizes that use certain flammable and toxic substances to develop a Risk Management Program, which includes a(n): Hazard assessment that details the potential effects of an accidental release, an accident history of the last five years, and an evaluation of worst-case and alternative accidental releases; Prevention program that includes safety precautions and maintenance, monitoring, and employee training measures; and Emergency response program that spells out emergency health care, employee training measures and procedures for informing the public and response agencies (e.g the fire department) should an accident occur.

RAATS: RCRA Administrative Action Tracking System

RCRA Administration Action Tracking System. RAATS contains records based on enforcement actions issued under RCRA pertaining to major violators and includes administrative and civil actions brought by the EPA. For administration actions after September 30, 1995, data entry in the RAATS database was discontinued. EPA will retain a copy of the database for historical records. It was necessary to terminate RAATS because a decrease in agency resources made it impossible to continue to update the information contained in the database.

HIST FTTS: FIFRA/TSCA Tracking System Administrative Case Listing

A complete administrative case listing from the FIFRA/TSCA Tracking System (FTTS) for all ten EPA regions. The information was obtained from the National Compliance Database (NCDB). NCDB supports the implementation of FIFRA (Federal Insecticide, Fungicide, and Rodenticide Act) and TSCA (Toxic Substances Control Act). Some EPA regions are now closing out records. Because of that, and the fact that some EPA regions are not providing EPA Headquarters with updated records, it was decided to create a HIST FTTS database. It included records that may not be included in the newer FTTS database updates. This database is no longer updated.

UMTRA: Uranium Mill Tailings Sites

Uranium ore was mined by private companies for federal government use in national defense programs. When the mills shut down, large piles of the sand-like material (mill tailings) remain after uranium has been extracted from the ore. Levels of human exposure to radioactive materials from the piles are low; however, in some cases tailings were used as construction materials before the potential health hazards of the tailings were recognized.

US AIRS (AFS): Aerometric Information Retrieval System Facility Subsystem (AFS)

The database is a sub-system of Aerometric Information Retrieval System (AIRS). AFS contains compliance data on air pollution point sources regulated by the U.S. EPA and/or state and local air regulatory agencies. This information comes from source reports by various stationary sources of air pollution, such as electric power plants, steel mills, factories, and universities, and provides information about the air pollutants they produce. Action, air program, air program pollutant, and general level plant data. It is used to track emissions and compliance data from industrial plants.

HAZNET: Facility and Manifest Data

Facility and Manifest Data. The data is extracted from the copies of hazardous waste manifests received each year by the DTSC. The annual volume of manifests is typically 700,000 - 1,000,000 annually, representing approximately 350,000 - 500,000 shipments. Data are from the manifests submitted without correction, and therefore many contain some invalid values for data elements such as generator ID, TSD ID, waste category, and disposal method. This database begins with calendar year 1993.

WASTEWATER PITS: Oil Wastewater Pits Listing

Water officials discovered that oil producers have been dumping chemical-laden wastewater into hundreds of unlined pits that are operating without proper permits. Inspections completed by the Central Valley Regional Water Quality Control Board revealed the existence of previously unidentified waste sites. The water board?s review found that more than one-third of the region?s active disposal pits are operating without permission.

EDR HIGH RISK HISTORICAL RECORDS

EDR Exclusive Records

EDR MGP: EDR Proprietary Manufactured Gas Plants

The EDR Proprietary Manufactured Gas Plant Database includes records of coal gas plants (manufactured gas plants) compiled by EDR's researchers. Manufactured gas sites were used in the United States from the 1800's to 1950's to produce a gas that could be distributed and used as fuel. These plants used whale oil, rosin, coal, or a mixture of coal, oil, and water that also produced a significant amount of waste. Many of the byproducts of the gas production, such as coal tar (oily waste containing volatile and non-volatile chemicals), sludges, oils and other compounds are potentially hazardous to human health and the environment. The byproduct from this process was frequently disposed of directly at the plant site and can remain or spread slowly, serving as a continuous source of soil and groundwater contamination.

EDR Hist Auto: EDR Exclusive Historic Gas Stations

EDR has searched selected national collections of business directories and has collected listings of potential gas station/filling station/service station sites that were available to EDR researchers. EDR's review was limited to those categories of sources that might, in EDR's opinion, include gas station/filling station/service station establishments. The categories reviewed included, but were not limited to gas, gas station, gasoline station, filling station, auto, automobile repair, auto service station, service station, etc. This database falls within a category of information EDR classifies as "High Risk Historical Records", or HRHR. EDR's HRHR effort presents unique and sometimes proprietary data about past sites and operations that typically create environmental concerns, but may not show up in current government records searches.

OTHER DATABASE(S)

Depending on the geographic area covered by this report, the data provided in these specialty databases may or may not be complete. For example, the existence of wetlands information data in a specific report does not mean that all wetlands in the area covered by the report are included. Moreover, the absence of any reported wetlands information does not necessarily mean that wetlands do not exist in the area covered by the report.

CT MANIFEST: Hazardous Waste Manifest Data

Facility and manifest data. Manifest is a document that lists and tracks hazardous waste from the generator through transporters to a tsd facility.

Sensitive Receptors: There are individuals deemed sensitive receptors due to their fragile immune systems and special sensitivity to environmental discharges. These sensitive receptors typically include the elderly, the sick, and children. While the location of all sensitive receptors cannot be determined, EDR indicates those buildings and facilities - schools, daycares, hospitals, medical centers, and nursing homes - where individuals who are sensitive receptors are likely to be located.

AHA Hospitals:
Source: American Hospital Association, Inc.
Telephone: 312-280-5991
The database includes a listing of hospitals based on the American Hospital Association's annual survey of hospitals.

Medical Centers: Provider of Services Listing
Source: Centers for Medicare & Medicaid Services

GEOCHECK ®- PHYSICAL SETTING SOURCE ADDENDUM

TARGET PROPERTY ADDRESS

+/-1.62-ACRE WESTWOOD PRESBYTERIAN CHURCH PROPERTY
10822 WILSHIRE BOULEVARD/10812 ASHTON AVENUE
LOS ANGELES, CA 90024

TARGET PROPERTY COORDINATES

Latitude (North):	34.058916 - 34° 3' 32.10''
Longitude (West):	118.440485 - 118° 26' 25.75''
Universal Tranverse Mercator:	Zone 11
UTM X (Meters):	367058.0
UTM Y (Meters):	3769430.0
Elevation:	329 ft. above sea level

USGS TOPOGRAPHIC MAP

Target Property Map:	5630733 BEVERLY HILLS, CA
Version Date:	2012

EDR's GeoCheck Physical Setting Source Addendum is provided to assist the environmental professional in forming an opinion about the impact of potential contaminant migration.

Assessment of the impact of contaminant migration generally has two principal investigative components:

1. Groundwater flow direction, and
2. Groundwater flow velocity.

Groundwater flow direction may be impacted by surface topography, hydrology, hydrogeology, characteristics of the soil, and nearby wells. Groundwater flow velocity is generally impacted by the nature of the geologic strata.

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

GROUNDWATER FLOW DIRECTION INFORMATION

Groundwater flow direction for a particular site is best determined by a qualified environmental professional using site-specific well data. If such data is not reasonably ascertainable, it may be necessary to rely on other sources of information, such as surface topographic information, hydrologic information, hydrogeologic data collected on nearby properties, and regional groundwater flow information (from deep aquifers).

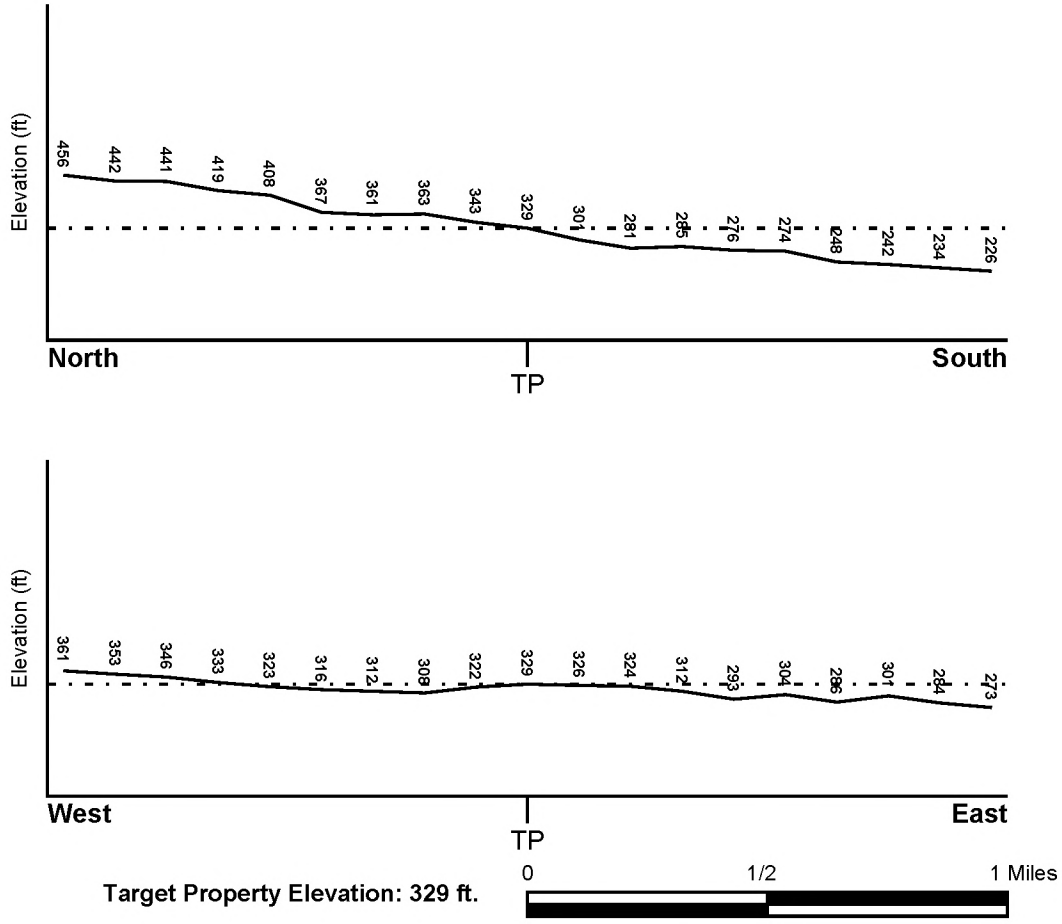

TOPOGRAPHIC INFORMATION

Surface topography may be indicative of the direction of surficial groundwater flow. This information can be used to assist the environmental professional in forming an opinion about the impact of nearby contaminated properties or, should contamination exist on the target property, what downgradient sites might be impacted.

TARGET PROPERTY TOPOGRAPHY

General Topographic Gradient: General South

SURROUNDING TOPOGRAPHY: ELEVATION PROFILES

Source: Topography has been determined from the USGS 7.5' Digital Elevation Model and should be evaluated on a relative (not an absolute) basis. Relative elevation information between sites of close proximity should be field verified.

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

HYDROLOGIC INFORMATION

Surface water can act as a hydrologic barrier to groundwater flow. Such hydrologic information can be used to assist the environmental professional in forming an opinion about the impact of nearby contaminated properties or, should contamination exist on the target property, what downgradient sites might be impacted.

Refer to the Physical Setting Source Map following this summary for hydrologic information (major waterways and bodies of water).

FEMA FLOOD ZONE

Target Property County	FEMA Flood Electronic Data
LOS ANGELES, CA	YES - refer to the Overview Map and Detail Map

Flood Plain Panel at Target Property: 06037C - FEMA DFIRM Flood data

Additional Panels in search area: Not Reported

NATIONAL WETLAND INVENTORY

NWI Quad at Target Property	NWI Electronic Data Coverage
BEVERLY HILLS	YES - refer to the Overview Map and Detail Map

HYDROGEOLOGIC INFORMATION

Hydrogeologic information obtained by installation of wells on a specific site can often be an indicator of groundwater flow direction in the immediate area. Such hydrogeologic information can be used to assist the environmental professional in forming an opinion about the impact of nearby contaminated properties or, should contamination exist on the target property, what downgradient sites might be impacted.

Site-Specific Hydrogeological Data*:

Search Radius: 1.25 miles
Status: Not found

AQUIFLOW®

Search Radius: 1.000 Mile.

EDR has developed the AQUIFLOW Information System to provide data on the general direction of groundwater flow at specific points. EDR has reviewed reports submitted by environmental professionals to regulatory authorities at select sites and has extracted the date of the report, groundwater flow direction as determined hydrogeologically, and the depth to water table.

MAP ID	LOCATION FROM TP	GENERAL DIRECTION GROUNDWATER FLOW
Not Reported		

* ©1996 Site-specific hydrogeological data gathered by CERCLIS Alerts, Inc., Bainbridge Island, WA. All rights reserved. All of the information and opinions presented are those of the cited EPA report(s), which were completed under a Comprehensive Environmental Response Compensation and Liability Information System (CERCLIS) investigation.

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

GROUNDWATER FLOW VELOCITY INFORMATION

Groundwater flow velocity information for a particular site is best determined by a qualified environmental professional using site specific geologic and soil strata data. If such data are not reasonably ascertainable, it may be necessary to rely on other sources of information, including geologic age identification, rock stratigraphic unit and soil characteristics data collected on nearby properties and regional soil information. In general, contaminant plumes move more quickly through sandy-gravelly types of soils than silty-clayey types of soils.

GEOLOGIC INFORMATION IN GENERAL AREA OF TARGET PROPERTY

Geologic information can be used by the environmental professional in forming an opinion about the relative speed at which contaminant migration may be occurring.

ROCK STRATIGRAPHIC UNIT

Era:	Cenozoic
System:	Quaternary
Series:	Quaternary
Code:	Q *(decoded above as Era, System & Series)*

GEOLOGIC AGE IDENTIFICATION

Category: Stratifed Sequence

Geologic Age and Rock Stratigraphic Unit Source: P.G. Schruben, R.E. Arndt and W.J. Bawiec, Geology of the Conterminous U.S. at 1:2,500,000 Scale - a digital representation of the 1974 P.B. King and H.M. Beikman Map, USGS Digital Data Series DDS - 11 (1994).

DOMINANT SOIL COMPOSITION IN GENERAL AREA OF TARGET PROPERTY

The U.S. Department of Agriculture's (USDA) Soil Conservation Service (SCS) leads the National Cooperative Soil Survey (NCSS) and is responsible for collecting, storing, maintaining and distributing soil survey information for privately owned lands in the United States. A soil map in a soil survey is a representation of soil patterns in a landscape. Soil maps for STATSGO are compiled by generalizing more detailed (SSURGO) soil survey maps. The following information is based on Soil Conservation Service STATSGO data.

Soil Component Name: URBAN LAND

Soil Surface Texture: variable

Hydrologic Group: Not reported

Soil Drainage Class: Not reported

Hydric Status: Soil does not meet the requirements for a hydric soil.

Corrosion Potential - Uncoated Steel: Not Reported

Depth to Bedrock Min: > 10 inches

Depth to Bedrock Max: > 10 inches

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

Soil Layer Information							
	Boundary			Classification			
Layer	Upper	Lower	Soil Texture Class	AASHTO Group	Unified Soil	Permeability Rate (in/hr)	Soil Reaction (pH)
1	0 inches	6 inches	variable	Not reported	Not reported	Max: 0.00 Min: 0.00	Max: 0.00 Min: 0.00

OTHER SOIL TYPES IN AREA

Based on Soil Conservation Service STATSGO data, the following additional subordinant soil types may appear within the general area of target property.

Soil Surface Textures:
sandy loam
gravelly - sandy loam
silt loam
clay
fine sand
gravelly - sand
sand
fine sandy loam

Surficial Soil Types:
sandy loam

TOPOGRAPHIC INFORMATION

USGS 7.5' Digital Elevation Model (DEM)
Source: United States Geologic Survey
EDR acquired the USGS 7.5' Digital Elevation Model in 2002 and updated it in 2006. The 7.5 minute DEM corresponds to the USGS 1:24,000- and 1:25,000-scale topographic quadrangle maps. The DEM provides elevation data with consistent elevation units and projection.

Current USGS 7.5 Minute Topographic Map
Source: U.S. Geological Survey

HYDROLOGIC INFORMATION

Flood Zone Data: This data, available in select counties across the country, was obtained by EDR in 2003 & 2011 from the Federal Emergency Management Agency (FEMA). Data depicts 100-year and 500-year flood zones as defined by FEMA.

NWI: National Wetlands Inventory. This data, available in select counties across the country, was obtained by EDR in 2002, 2005 and 2010 from the U.S. Fish and Wildlife Service.

State Wetlands Data: Wetland Inventory
Source: Department of Fish & Game
Telephone: 916-445-0411

HYDROGEOLOGIC INFORMATION

AQUIFLOW^{R} Information System
Source: EDR proprietary database of groundwater flow information
EDR has developed the AQUIFLOW Information System (AIS) to provide data on the general direction of groundwater flow at specific points. EDR has reviewed reports submitted to regulatory authorities at select sites and has extracted the date of the report, hydrogeologically determined groundwater flow direction and depth to water table information.

GEOLOGIC INFORMATION

Geologic Age and Rock Stratigraphic Unit
Source: P.G. Schruben, R.E. Arndt and W.J. Bawiec, Geology of the Conterminous U.S. at 1:2,500,000 Scale - A digital representation of the 1974 P.B. King and H.M. Beikman Map, USGS Digital Data Series DDS - 11 (1994).

STATSGO: State Soil Geographic Database
Source: Department of Agriculture, Natural Resources Conservation Service (NRCS)
The U.S. Department of Agriculture's (USDA) Natural Resources Conservation Service (NRCS) leads the national Conservation Soil Survey (NCSS) and is responsible for collecting, storing, maintaining and distributing soil survey information for privately owned lands in the United States. A soil map in a soil survey is a representation of soil patterns in a landscape. Soil maps for STATSGO are compiled by generalizing more detailed (SSURGO) soil survey maps.

SSURGO: Soil Survey Geographic Database
Source: Department of Agriculture, Natural Resources Conservation Service (NRCS)
Telephone: 800-672-5559
SSURGO is the most detailed level of mapping done by the Natural Resources Conservation Service, mapping scales generally range from 1:12,000 to 1:63,360. Field mapping methods using national standards are used to construct the soil maps in the Soil Survey Geographic (SSURGO) database. SSURGO digitizing duplicates the original soil survey maps. This level of mapping is designed for use by landowners, townships and county natural resource planning and management.

LOCAL / REGIONAL WATER AGENCY RECORDS

FEDERAL WATER WELLS

PWS: Public Water Systems
Source: EPA/Office of Drinking Water
Telephone: 202-564-3750
Public Water System data from the Federal Reporting Data System. A PWS is any water system which provides water to at least 25 people for at least 60 days annually. PWSs provide water from wells, rivers and other sources.

PWS ENF: Public Water Systems Violation and Enforcement Data
Source: EPA/Office of Drinking Water
Telephone: 202-564-3750
Violation and Enforcement data for Public Water Systems from the Safe Drinking Water Information System (SDWIS) after August 1995. Prior to August 1995, the data came from the Federal Reporting Data System (FRDS).

USGS Water Wells: USGS National Water Inventory System (NWIS)
This database contains descriptive information on sites where the USGS collects or has collected data on surface water and/or groundwater. The groundwater data includes information on wells, springs, and other sources of groundwater.

STATE RECORDS

Water Well Database
Source: Department of Water Resources
Telephone: 916-651-9648

California Drinking Water Quality Database
Source: Department of Public Health
Telephone: 916-324-2319
The database includes all drinking water compliance and special studies monitoring for the state of California since 1984. It consists of over 3,200,000 individual analyses along with well and water system information.

OTHER STATE DATABASE INFORMATION

California Oil and Gas Well Locations
Source: Department of Conservation
Telephone: 916-323-1779
Oil and Gas well locations in the state.

EXECUTIVE SUMMARY

A search of available environmental records was conducted by Environmental Data Resources, Inc (EDR). The report was designed to assist parties seeking to meet the search requirements of the ASTM Standard Practice for Assessment of Vapor Encroachment into Structures on Property Involved in Real Estate Transactions (E 2600-10).

DOMINANT SOIL COMPOSITION IN GENERAL AREA OF TARGET PROPERTY

The U.S. Department of Agriculture's (USDA) Soil Conservation Service (SCS) leads the National Cooperative Soil Survey (NCSS) and is responsible for collecting, storing, maintaining and distributing soil survey information for privately owned lands in the United States. A soil map in a soil survey is a representation of soil patterns in a landscape. Soil maps for STATSGO are compiled by generalizing more detailed (SSURGO) soil survey maps. The following information is based on Soil Conservation Service STATSGO data.

Soil Component Name:	URBAN LAND
Soil Surface Texture:	variable
Hydrologic Group:	Not reported
Soil Drainage Class:	Not reported
Hydric Status:	Hydric Status: Soil does not meet the requirements for a hydric soil.
Corrosion Potential - Uncoated Steel:	Not Reported
Depth to Bedrock Min:	> 10 inches
Depth to Bedrock Max:	> 10 inches

Soil Layer Information

	Boundary			Classification			
Layer	Upper	Lower	Soil Texture Class	AASHTO Group	Unified Soil	Permeability Rate (in/hr)	Soil Reaction (pH)
1	0 inches	6 inches	variable	Not reported	Not reported	Max: 0.00 Min: 0.00	Max: 0.00 Min: 0.00

OTHER SOIL TYPES IN AREA

Based on Soil Conservation Service STATSGO data, the following additional subordinant soil types may appear within the general area of target property.

Soil Surface Textures:
sandy loam
gravelly - sandy loam
silt loam
clay
fine sand
gravelly - sand
sand
fine sandy loam

Surficial Soil Types:
sandy loam
gravelly - sandy loam
silt loam
clay
fine sand
gravelly - sand
sand
fine sandy loam

Shallow Soil Types:
fine sandy loam

Registry ID: 110037253094

Environmental Interest/Information System:

US National Pollutant Discharge Elimination System (NPDES) module of the Compliance Information System (ICIS) tracks surface water permits issued under the Clean Water Act. Under NPDES, all facilities that discharge pollutants from any point source into waters of the United States are required to obtain a permit. The permit will likely contain limits on what can be discharged, impose monitoring and reporting requirements, and include other provisions to ensure that the discharge does not adversely affect water quality.

Registry ID: 110011464245

Environmental Interest/Information System:

NCDB (National Compliance Data Base) supports implementation of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA) and the Toxic Substances Control Act (TSCA). The system tracks inspections in regions and states with cooperative agreements, enforcement actions, and settlements.

RECORD SOURCES AND CURRENCY

To maintain currency of the following databases, EDR contacts the appropriate agency on a monthly or quarterly basis, as required.

Number of Days to Update: Provides confirmation that EDR is reporting records that have been updated within 90 days from the date the government agency made the information available to the public.

STANDARD ENVIRONMENTAL RECORDS

PRP: Potentially Responsible Parties
Standard Environmental Record Source: Other Standard Environmental Records
Search Distance: Property

A listing of verified Potentially Responsible Parties

Date of Government Version: 10/25/2013
Number of Days to Update: 3
Last EDR Contact :02/12/2016

Source: EPA
Telephone: 202-564-6023

RMP: Risk Management Plans
Standard Environmental Record Source: Other Standard Environmental Records
Search Distance: Property

When Congress passed the Clean Air Act Amendments of 1990, it required EPA to publish regulations and guidance for chemical accident prevention at facilities using extremely hazardous substances. The Risk Management Program Rule (RMP Rule) was written to implement Section 112(r) of these amendments. The rule, which built upon existing industry codes and standards, requires companies of all sizes that use certain flammable and toxic substances to develop a Risk Management Program, which includes a(n): Hazard assessment that details the potential effects of an accidental release, an accident history of the last five years, and an evaluation of worst-case and alternative accidental releases; Prevention program that includes safety precautions and maintenance, monitoring, and employee training measures; and Emergency response program that spells out emergency health care, employee training measures and procedures for informing the public and response agencies (e.g the fire department) should an accident occur.

Date of Government Version: 08/01/2015
Number of Days to Update: 69
Last EDR Contact :01/25/2016

Source: Environmental Protection Agency
Telephone: 202-564-8600

ALAMEDA CO. UST: Underground Tanks
Standard Environmental Record Source: State and tribal registered storage tank lists
Underground storage tank sites located in Alameda county.

Date of Government Version: 01/11/2016
Number of Days to Update: 47
Last EDR Contact :01/11/2016

Source: Alameda County Environmental Health Services
Telephone: 510-567-6700

AST: Aboveground Petroleum Storage Tank Facilities
Standard Environmental Record Source: State and tribal registered storage tank lists
Search Distance: Property

A listing of aboveground storage tank petroleum storage tank locations.

Date of Government Version: 08/01/2009
Number of Days to Update: 21
Last EDR Contact :12/23/2015

Source: California Environmental Protection Agency
Telephone: 916-327-5092

Alameda County CS: Contaminated Sites
Standard Environmental Record Source: State and tribal leaking storage tank lists
Search Distance: 0.333 Mile

A listing of contaminated sites overseen by the Toxic Release Program (oil and groundwater contamination from chemical releases and spills) and the Leaking Underground Storage Tank Program (soil and ground water contamination from leaking petroleum USTs).

Date of Government Version: 01/11/2016
Number of Days to Update: 41
Last EDR Contact :01/11/2016

Source: Alameda County Environmental Health Services
Telephone: 510-567-6700

BROWNFIELDS: Considered Brownfieds Sites Listing

Standard Environmental Record Source: State and tribal Brownfields sites
Search Distance: 0.333 Mile

A listing of sites the SWRCB considers to be Brownfields since these are sites have come to them through the MOA Process.

Date of Government Version: 12/04/2015
Number of Days to Update: 44
Last EDR Contact :03/07/2016

Source: State Water Resources Control Board
Telephone: 916-323-7905

CA BOND EXP. PLAN: Bond Expenditure Plan

Standard Environmental Record Source: Other Standard Environmental Records
Search Distance: 0.333 Mile

Department of Health Services developed a site-specific expenditure plan as the basis for an appropriation of Hazardous Substance Cleanup Bond Act funds. It is not updated.

Date of Government Version: 01/01/1989
Number of Days to Update: 6
Last EDR Contact :05/31/1994

Source: Department of Health Services
Telephone: 916-255-2118

CA FID UST: Facility Inventory Database

Standard Environmental Record Source: State and tribal registered storage tank lists
Search Distance: Property

The Facility Inventory Database (FID) contains a historical listing of active and inactive underground storage tank locations from the State Water Resource Control Board. Refer to local/county source for current data.

Date of Government Version: 10/31/1994
Number of Days to Update: 24
Last EDR Contact :12/28/1998

DEED: Deed Restriction Listing

Standard Environmental Record Source: Other Standard Environmental Records

Search Distance: 0.333 Mile

Site Mitigation and Brownfields Reuse Program Facility Sites with Deed Restrictions & Hazardous Waste Management Program Facility Sites with Deed / Land Use Restriction. The DTSC Site Mitigation and Brownfields Reuse Program (SMBRP) list includes sites cleaned up under the program's oversight and generally does not include current or former hazardous waste facilities that required a hazardous waste facility permit. The list represents deed restrictions that are active. Some sites have multiple deed restrictions. The DTSC Hazardous Waste Management Program (HWMP) has developed a list of current or former hazardous waste facilities that have a recorded land use restriction at the local county recorder's office. The land use restrictions on this list were required by the DTSC HWMP as a result of the presence of hazardous substances that remain on site after the facility (or part of the facility) has been closed or cleaned up. The types of land use restriction include deed notice, deed restriction, or a land use restriction that binds current and future owners.

ENVIROSTOR: EnviroStor Database

Standard Environmental Record Source: State and tribal - equivalent CERCLIS
Search Distance: 0.333 Mile

The Department of Toxic Substances Control's (DTSC's) Site Mitigation and Brownfields Reuse Program's (SMBRP's) EnviroStor database identifes sites that have known contamination or sites for which there may be reasons to investigate further. The database includes the following site types: Federal Superfund sites (National Priorities List (NPL)); State Response, including Military Facilities and State Superfund; Voluntary Cleanup; and School sites. EnviroStor provides similar information to the information that was available in CalSites, and provides additional site information, including, but not limited to, identification of formerly-contaminated properties that have been released for reuse, properties where environmental deed restrictions have been recorded to prevent inappropriate land uses, and risk characterization information that is used to assess potential impacts to public health and the environment at contaminated sites.

HAZNET: Facility and Manifest Data

Standard Environmental Record Source: Other Standard Environmental Records
Search Distance: Property

Facility and Manifest Data. The data is extracted from the copies of hazardous waste manifests received each year by the DTSC. The annual volume of manifests is typically 700,000 - 1,000,000 annually, representing approximately 350,000 - 500,000 shipments. Data are from the manifests submitted without correction, and therefore many contain some invalid values for data elements such as generator ID, TSD ID, waste category, and disposal method. This database begins with calendar year 1993.

2020 COR ACTION: 2020 Corrective Action Program List

Standard Environmental Record Source: Other Standard Environmental Records
Search Distance: 0.25 Mile

The EPA has set ambitious goals for the RCRA Corrective Action program by creating the 2020 Corrective Action Universe. This RCRA cleanup baseline includes facilities expected to need corrective action. The 2020 universe contains a wide variety of sites. Some properties are heavily contaminated while others were contaminated but have since been cleaned up. Still others have not been fully investigated yet, and may require little or no remediation. Inclusion in the 2020 Universe does not necessarily imply failure on the part of a facility to meet its RCRA obligations.

Last EDR Contact :02/19/2016

CERCLIS-NFRAP: CERCLIS No Further Remedial Action Planned

Standard Environmental Record Source: Other Standard Environmental Records

Search Distance: 0.333 Mile

Archived sites are sites that have been removed and archived from the inventory of CERCLIS sites. Archived status indicates that, to the best of EPA's knowledge, assessment at a site has been completed and that EPA has determined no further steps will be taken to list this site on the National Priorities List (NPL), unless information indicates this decision was not appropriate or other considerations require a recommendation for listing at a later time. This decision does not necessarily mean that there is no hazard associated with a given site; it only means that, based upon available information, the location is not judged to be a potential NPL site.

EPA WATCH LIST: EPA WATCH LIST

Standard Environmental Record Source: Other Standard Environmental Records
Search Distance: Property

EPA maintains a "Watch List" to facilitate dialogue between EPA, state and local environmental agencies on enforcement matters relating to facilities with alleged violations identified as either significant or high priority. Being on the Watch List does not mean that the facility has actually violated the law only that an investigation by EPA or a state or local environmental agency has led those organizations to allege that an unproven violation has in fact occurred. Being on the Watch List does not represent a higher level of concern regarding the alleged violations that were detected, but instead indicates cases requiring additional dialogue between EPA, state and local agencies - primarily because of the length of time the alleged violation has gone unaddressed or unresolved.

HIST FTTS: FIFRA/TSCA Tracking System Administrative Case Listing

Standard Environmental Record Source: Other Standard Environmental Records

Search Distance: Property

A complete administrative case listing from the FIFRA/TSCA Tracking System (FTTS) for all ten EPA regions. The information was obtained from the National Compliance Database (NCDB). NCDB supports the implementation of FIFRA (Federal Insecticide, Fungicide, and Rodenticide Act) and TSCA (Toxic Substances Control Act). Some EPA regions are now closing out records. Because of that, and the fact that some EPA regions are not providing EPA Headquarters with updated records, it was decided to create a HIST FTTS database. It included records that may not be included in the newer FTTS database updates. This database is no longer updated.

UMTRA: Uranium Mill Tailings Sites

Standard Environmental Record Source: Other Standard Environmental Records

Search Distance: 0.333 Mile

Uranium ore was mined by private companies for federal government use in national defense programs. When the mills shut down, large piles of the sand-like material (mill tailings) remain after uranium has been extracted from the ore. Levels of human exposure to radioactive materials from the piles are low; however, in some cases tailings were used as construction materials before the potential health hazards of the tailings were recognized.

The database is a sub-system of Aerometric Information Retrieval System (AIRS). AFS contains compliance data on air pollution point sources regulated by the U.S. EPA and/or state and local air regulatory agencies. This information comes from source reports by various stationary sources of air pollution, such as electric power plants, steel mills, factories, and universities, and provides information about the air pollutants they produce. Action, air program, air program pollutant, and general level plant data. It is used to track emissions and compliance data from industrial plants.

US BROWNFIELDS: A Listing of Brownfields Sites

Standard Environmental Record Source: Other Standard Environmental Records

Search Distance: 0.333 Mile

Brownfields are real property, the expansion, redevelopment, or reuse of which may be complicated by the presence or potential presence of a hazardous substance, pollutant, or contaminant. Cleaning up and reinvesting in these properties takes development pressures off of undeveloped, open land, and both improves and protects the environment. Assessment, Cleanup and Redevelopment Exchange System (ACRES) stores information reported by EPA Brownfields grant recipients on brownfields properties assessed or cleaned up with grant funding as well as information on Targeted Brownfields Assessments performed by EPA Regions. A listing of ACRES Brownfield sites is obtained from Cleanups in My Community. Cleanups in My Community provides information on Brownfields properties for which information is reported back to EPA, as well as areas served by Brownfields grant programs.

EDR Hist Auto: EDR Exclusive Historic Gas Stations

Standard Environmental Record Source: Historical Gas Stations

Search Distance: 0.25 Mile

EDR has searched selected national collections of business directories and has collected listings of potential gas station/filling station/service station sites that were available to EDR researchers. EDR's review was limited to those categories of sources that might, in EDR's opinion, include gas station/filling station/service station establishments. The categories reviewed included, but were not limited to gas, gas station, gasoline station, filling station, auto, automobile repair, auto service station, service station, etc. This database falls within a category of information EDR classifies as "High Risk Historical Records", or HRHR. EDR's HRHR effort presents unique and sometimes proprietary data about past sites and operations that typically create environmental concerns, but may not show up in current government records searches.

EDR MGP: EDR Proprietary Manufactured Gas Plants

Standard Environmental Record Source: Former manufactured Gas Plants

Search Distance: 0.333 Mile

RECORD SOURCES AND CURRENCY

The EDR Proprietary Manufactured Gas Plant Database includes records of coal gas plants (manufactured gas plants) compiled by EDR's researchers. Manufactured gas sites were used in the United States from the 1800's to 1950's to produce a gas that could be distributed and used as fuel. These plants used whale oil, rosin, coal, or a mixture of coal, oil, and water that also produced a significant amount of waste. Many of the byproducts of the gas production, such as coal tar (oily waste containing volatile and non-volatile chemicals), sludges, oils and other compounds are potentially hazardous to human health and the environment. The byproduct from this process was frequently disposed of directly at the plant site and can remain or spread slowly, serving as a continuous source of soil and groundwater contamination.

Date of Government Version: 08/28/2009

RECORD SOURCES AND CURRENCY

TOPOGRAPHIC INFORMATION

USGS 7.5' Digital Elevation Model (DEM)

Source: United States Geologic Survey

EDR acquired the USGS 7.5' Digital Elevation Model in 2002 and updated it in 2006. The 7.5' minute DEM corresponds to the USGS 1:24,000- and 1:25,000-scale topographic quadrangle maps. The DEM provides elevation data with consistent elevation units and projection.

HYDROLOGIC INFORMATION

Flood Zone Data: This data, available in select counties across the country, was obtained by EDR in 1999 from the Federal Emergency Management Agency (FEMA). Data depicts 100-year and 500-year flood zones as defined by FEMA.

NWI: National Wetlands Inventory. This data, available in select counties across the country, was obtained by EDR in 2002 and 2005 from the U.S. Fish and Wildlife Service.

HYDROGEOLOGIC INFORMATION

AQUIFLOW® Information System

Source: EDR proprietary database of groundwater flow information

EDR has developed the AQUIFLOW® Information System (AIS) to provide data on the general direction of groundwater flow at specific points. EDR has reviewed reports submitted to regulatory authorities at select sites and has extracted the date of the report, hydrogeologically determined groundwater flow direction and depth to water table information.

GEOLOGIC INFORMATION

STATSGO: State Soil Geographic Database

Source: Department of Agriculture, Natural Resources Conservation Services. The U.S. Department of Agriculture's (USDA) Natural Resources Conservation Service (NRCS) leads the national Conservation Soil Survey (NCSS) and is responsible for collecting, storing, maintaining and distributing soil survey information for privately owned lands in the United States. A soil map in a soil survey is a representation of soil patterns in a landscape. Soil maps for STATSGO are compiled by generalizing more detailed (SSURGO) soil survey maps.

SSURGO: Soil Survey Geographic Database

Source: Department of Agriculture, Natural Resources Conservation Services (NRCS)

Telephone: 800-672-5559

SSURGO is the most detailed level of mapping done by the Natural Resources Conservation Services, mapping scales generally range from 1:12,000 to 1:63,360. Field mapping methods using national standards are used to construct the soil maps in the Soil Survey Geographic (SSURGO) database. SSURGO digitizing duplicates the original soil survey maps. This level of mapping is designed for use by landowners, townships and county natural resource planning and management.

To: DPH-ehmail
Subject: Phase I ESA FOIA Request

Dear Sir or Madam:

SKA Consulting, L.P. (SKA) is conducting a Phase I Environmental Site Assessment (ESA) for a 1.62-acre tract of land occupied by Westwood Presbyterian Church located at 10822 Wilshire Boulevard/10812 Ashton Avenue (southwest of the intersection of Wilshire Boulevard and Malcom Avenue) in Los Angeles, Los Angeles County, California.

We are requesting any information available under the Freedom of Information Act (FOIA) that may help to determine if the present or past usage of the property has resulted in recognized environmental conditions or violations of any environmental regulations concerning your agency. Available information such as building permits, building code violations, occupancy records, capital improvement plans, infrastructure construction, tank registration or removal documents, environmental reports or audits, and/or utility maintenance (water and wastewater) would be helpful.

Please reference Project Number 3013-0004 in your reply. SKA appreciates your assistance in this matter. If you have any questions, please do not hesitate to call me at (503) 866-8704. Our fax number is (713) 266-0996.

Sincerely,

SKA CONSULTING, L.P.

Jessica Jenkins

Attachments: image003.jpg
image001.jpg
image002.jpg

When the Wilshire property was purchased by the Presbyterian Church in around 1948-1949, the property was vacant. The Presbyterian Church/WPC did not do any demolition. If it had ever been used for anything else, I am unaware.

At various times since 1950, WPC purchased additional property -- the back parking lot (which was also vacant land) from the cemetery, the Ashton house (as far as I know, always a single family residence), and the property on the north side of Ashton where the apartment building is now (that property had one empty lot and a duplex when owned by WPC). The north-side-of-Ashton property was sold by WPC around 1980.

David and I started attending WPC in 1989. I have never heard of Westwood Printing and Reproduction. Could it be an error?

PHASE I ENVIRONMENTAL SITE ASSESSMENT
OWNER/OCCUPANT INQUIRY FORM

Dear Owner/Occupant:

Our firm is conducting a Phase I Environmental Site Assessment for the subject property described below. This assessment is being conducted in accordance with ASTM Standard Practice E 1527-05 for Environmental Site Assessments. Pursuant to the Standard, we are required to interview the owner/occupant as part or our investigation of the current and past uses of the property.

Please complete the following questionnaire and return it to our office as soon as possible. We ask that you answer each question to the best of your actual knowledge. "Yes" answers should be accompanied by a brief explanation wherever possible. If you have additional comments or statements that you feel may be relevant to this assessment, a comments section is available on the last page of the questionnaire. If you have any documentation, reports, or other third party information that you would like to provide, please attach any such items to the questionnaire upon return. If you have any questions or need additional guidance in completing this form, please contact our office at the above number.

Thank you for your assistance.

Sincerely,

SKA Consulting, L.P.

Disclosure: You are not bound by any laws or regulations to answer the questions associated herein. This questionnaire is intended to assist SKA Consulting, L.P. in gathering reasonably ascertainable information that relates to the performance of this Phase I Environmental Site Assessment under the ASTM E 1527-05 Standard, and does not constitute an admission of liability to, or for, any recognized environmental conditions or impairments in connection with the subject property.

PHASE I ENVIRONMENTAL SITE ASSESSMENT
OWNER/OCCUPANT INQUIRY FORM

The following questions pertain to the subject property only	Currently			Previously		
39. Is the subject property served by a private water well or non-public water-supply system?	Yes	(No)	Unk	Yes	(No)	Unk
40. Have contaminants been identified in the water well or non-public water-supply system that exceed guidelines applicable to the water system or has the well been designated as contaminated by any governmental, environmental and/or health agency?	Yes	(No)	Unk	Yes	(No)	Unk
41. Does the owner/occupant have any knowledge of environmental cleanup liens or governmental notification relating to past or recurrent violations of environmental laws with respect to the subject property?	Yes	(No)	Unk	Yes	(No)	Unk
42. Has the owner/occupant been informed of the past or current existence of regulated and/or hazardous substances such as petroleum products at the subject property?	Yes	(No)	Unk	Yes	(No)	Unk
43. Has the owner/occupant been informed of past or current environmental violations with respect to the subject property?	Yes	(No)	Unk	Yes	(No)	Unk
44. Is the owner/occupant aware of environmental assessments and/or reports that have been conducted for the subject property?	Yes	(No)	Unk	Yes	(No)	Unk
45. Is the owner/occupant aware of any past, threatened, or pending lawsuits or administrative proceedings concerning a release or threatened release of any regulated and/or hazardous substances (including petroleum products) involving the subject property or occupant of the subject property?	Yes	(No)	Unk	Yes	(No)	Unk
46. Do any activities at the subject property generate wastewater?	(Yes)	No	Unk	(Yes)	No	Unk
47. If wastewater is generated, is it discharged into a sanitary sewer system on or adjoining to the subject property?	(Yes)	No	Unk	(Yes)	No	Unk
48. Do any activities at the subject property generate, distribute, store, or dispose of regulated and/or hazardous materials?	Yes	(No)	Unk	Yes	(No)	Unk
49. Is the owner/occupant aware of any activity and use limitations such as engineering controls, land use restrictions, or institutional controls on the subject property relating to environmental contamination of soil and/or groundwater?	Yes	(No)	Unk	Yes	(No)	Unk

Please explain any "Yes" answers below:

46. Wastewater from lavatories (human waste)
47. Wastewater is discharged into a sanitary sewer system under property which connects to city system on Ashton Ave.

ADDITIONAL COMMENTS:

Questions that ask about adjoining properties - I'm answering based on the Ashton property. ALL other adjoining properties I dont know what has taken place there in the past or present.

Sewer system damage
Pierce Brothers Westwood Village, location #420
1218 Glendon Ave., Los Angeles, CA 90024

Prepared by Anthony Lampe
Market Director, Los Angeles
(818) 298-7970

Description
Discovered Feb 2, 2015, sewage backflowed into fountain overflow

Westwood's sewer system is pumped from the cemtery property under the adjoining property's parking lot and ties into the city's system on Ashton Avenue.

The system is no longer operable and shut down.

Existing sewer with flow direction

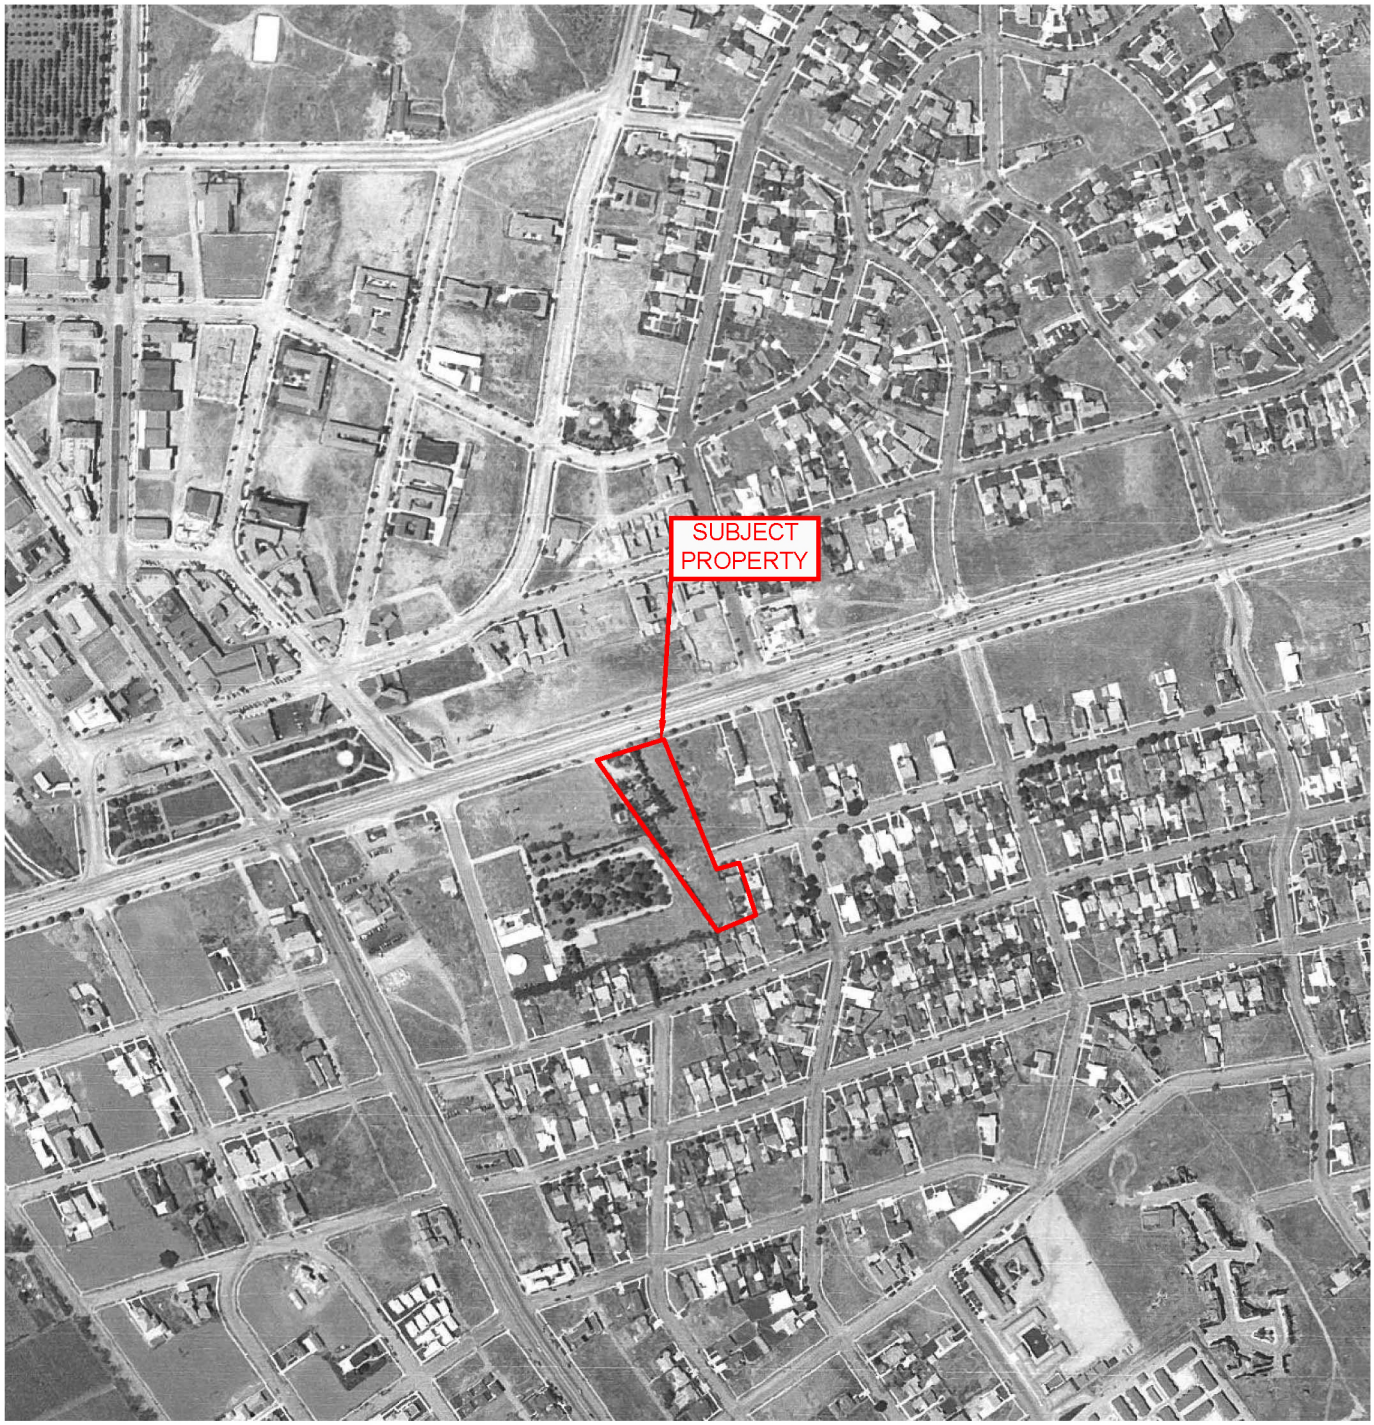

Damaged area in need of replacement

Contractor:
Newtson Plumbing
Scott Newtson cell (310) 280-8480

Plumbing inspection notes:
Sewer line is the original. Between section (A) and (B) the line dips low and the camera goes under water usually caused by saturated ground conditions. The camera goes underwater again and the plumber's snake is unable to penetrate past the western edge of the parking lot. High pressured water jetting is unable to clear the problem, the line is 100% blocked and in need of replacement.

Working on preparing a range estimate for complete repair.

EXECUTIVE SUMMARY

DESCRIPTION

Environmental Data Resources, Inc.'s (EDR) City Directory Abstract is a screening tool designed to assist environmental professionals in evaluating potential liability on a target property resulting from past activities. EDR's City Directory Abstract includes a search and abstract of available city directory data. For each address, the directory lists the name of the corresponding occupant at five year intervals.

Business directories including city, cross reference and telephone directories were reviewed, if available, at approximately five year intervals for the years spanning 1920 through 2013. This report compiles information gathered in this review by geocoding the latitude and longitude of properties identified and gathering information about properties within 332 feet of the target property.

A summary of the information obtained is provided in the text of this report.

RESEARCH SUMMARY

The Sanborn Library has been searched by EDR and maps covering the target property location as provided by SKA Consulting, LP were identified for the years listed below. The Sanborn Library is the largest, most complete collection of fire insurance maps. The collection includes maps from Sanborn, Bromley, Perris & Browne, Hopkins, Barlow, and others. Only Environmental Data Resources Inc. (EDR) is authorized to grant rights for commercial reproduction of maps by the Sanborn Library LLC, the copyright holder for the collection. Results can be authenticated by visiting www.edrnet.com/sanborn.

The Sanborn Library is continually enhanced with newly identified map archives. This report accesses all maps in the collection as of the day this report was generated.

PHASE I ENVIRONMENTAL SITE ASSESSMENT
USER-PROVIDED INFORMATION

Dear Owner/Occupant:

Our firm is conducting a Phase I Environmental Site Assessment for the subject property described below. This assessment is being conducted in accordance with ASTM Standard Practice E 1527-05 for Environmental Site Assessments. Pursuant to the Standard, we are required to interview the User as part or our investigation of the current and past uses of the property.

Please complete the following questionnaire and return it to our office as soon as possible. We ask that you answer each question to the best of your actual knowledge. "Yes" answers should be accompanied by a brief explanation wherever possible. If you have additional comments or statements that you feel may be relevant to this assessment, a comments section is available on the last page of the questionnaire. If you have any documentation, reports, or other third party information that you would like to provide, please attach any such items to the questionnaire upon return. If you have any questions or need additional guidance in completing this form, please contact our office at the above number. Thank you for your assistance.

Sincerely,

SKA Consulting, L.P.

Disclosure: You are not bound by any laws or regulations to answer the questions associated herein. This questionnaire is intended to assist SKA Consulting, L.P. in gathering reasonably ascertainable information that relates to the performance of this Phase I Environmental Site Assessment under the ASTM E 1527-05 Standard, and does not constitute an admission of liability to, or for, any recognized environmental conditions or impairments in connection with the subject property.

PROPOSAL AND CONTRACT

CLIENT : Jerry D. Steckling

DATE : December 8, 2011
SUBJECT: Asbestos Abatement

JOB SITE: **Westwood Presbyterian Church** 10822 Wilshire Boulevard Los Angeles, California 90024

Phone No.: 707-280-2146 Email : JDS@JBXAudio.com

Rapco-West proposes the following estimate for the removal of gross asbestos containing material (ACM).

DESCRIPTION OF WORK:
- Remove spray applied acoustic material from upper walls of church interior (approx. 2,000 SF).
- Owner to provide access and scaffolding.
- Not responsible for damage to crown-molding, custom interior paint or wall paper of dwelling interior.
- All subject rooms must be emptied prior to job start date.
- Abatement to include: wetting, containment and set-up of negative air filtration.
- All asbestos hazardous waste material to be double bagged and disposed of at a government regulated landfill.
- Price does not include any city building permits (if applicable).

The above work to be completed in a substantial and workmanlike manner according to standard practices for the sum of:

$10,000.00— TEN THOUSAND DOLLARS

- AQMD permit and 2 week waiting period required on any asbestos removal over 100 square feet unless emergency waiver is requested in writing. (Additional $150.00 fee required).

OWNER RESPONSIBILITIES:

1) Owner to provide water and power to work areas during project.

2) Owner to provide access to project site on job start date during work hours.

3) **Project site area to be vacated during entire project. It is also important that you telephone our office before reentering your home to ensure the job is complete. A verbal clearance will be given to you at that time.**

4) Owner responsible for removing all non-stationary objects from rooms where asbestos abatement work is being performed, if applicable.

5) Owner responsible for disconnecting any fire sprinklers prior to abatement. (If applicable) If fire sprinklers are not disconnected prior to abatement, then Rapco will not be responsible for any damage to fire sprinkler system or any water damage as a result thereof or any personal injury to owner or third parties as a result thereof.

6) **Payment terms: Progress Payment upon Crew Arrival**
   a. **50% payment due at start of job.**
   b. **50% upon project completion.**

GENERAL NOTES:

1) Work will be performed in compliance with South Coast AQMD, CAL/OSHA and EPA regulations.

2) Rapco-West licensing information:
   a. **Contractor's license #671425**
   b. **CAL/OSHA #263**
   c. **Contractor's License Bond #103603**

3) Inaccessible areas where asbestos cannot be removed will be sealed with asbestos encapsulation material as practical. Not responsible for inaccessible asbestos, i.e. in walls, etc.

4) All contaminated material will be disposed of per EPA regulations at a government regulated hazardous waste landfill.

5) Duct tape and staples are used to contain off the work area with polyethylene plastic. Some paint and/or plaster/drywall will peel away when duct tape is removed. Not responsible for damage to paint, wood, walls, plumbing, wallpaper, mirrors, floors, carpets, ceilings, ceiling lights ceiling fixtures, water damage, etc. Not responsible for damage to electrical or other wiring.

APPENDIX 4
ENVIRONMENTAL PROFESSIONAL'S QUALIFICATIONS

Scott K. Leafe
President/Managing Partner/Principal Environmental Scientist

Professional Experience

Mr. Leafe has more than 30 years of practical environmental and nuclear engineering experience. His U.S. Navy experience includes qualifications as a Nuclear Power Plant Supervisor and Nuclear Power Plant Instructor. His environmental engineering responsibilities have included direction, management and coordination of Phase I Environmental Site Assessments (ESAs), Phase II Investigations, Risk-Assessment, and remedial construction projects. He has served as Project Director/Manager for hundreds of environmental assessments completed throughout the continental U.S.

Relevant Experience

- Project Director for Phase I and II ESAs, risk assessments, soil and groundwater remediation, and regulatory closures involving residential, commercial and industrial property, oil and gas production fields, railroad alignments, and railroad yards impacted by petroleum hydrocarbons and other hazardous or otherwise regulated contaminants.

- Project Direct for Phase I and Phase II Site Investigations on approximately 300 square blocks of inner-city property associated with community redevelopment and revitalization efforts in Houston, Texas.

- Project Manager for site investigations, groundwater recovery and treatment, and regulatory closures on leaking and non-leaking underground storage tank sites in Texas, Idaho, Kentucky, Connecticut, Michigan, Louisiana, and Tennessee.

Education

- Master of Divinity, Liberty University Theological Seminary, 2013
- BA, Business Administration, LeTourneau University, 2000
- Nuclear Engineering Laboratory Technician School, 1987
- Naval Nuclear Prototype School, 1984
- Naval Nuclear Power School, 1984
- Studies in Chemical Engineering, 1981-1983, Texas A&M University

Training

- 40-Hour Hazardous Waste Worker (29 CFR 1910.120), 1992
- 8-Hour Hazardous Waste Supervisor, (29 CFR 1910.120), 1994
- 8-Hour Hazardous Worker Refresher Training (29 CFR 1910.120), 2014
- 49 CFR Parts 382-396 Function Specific, 1995
- NORM Training Course, 1995

Jessica L. Jenkins
Senior Project Manager

Professional Experience

Ms. Jenkins has 16 years of experience as an environmental consultant with four national consulting firms and one regional consulting firm. Her primary focus has been project management and staff development related to due diligence evaluation, site investigation, remediation and cleanup strategy for the real estate and petroleum industries. These projects include Phase I and II Environmental Site Assessments (ESAs) related to property transactions, Underground Storage Tank (UST) Investigations, Risk Assessments, and Remedial Construction Projects. Ms. Jenkins is responsible for overall project planning, direction, and project management activities to ensure accurate, efficient, and cost-effective completion of projects. Ms. Jenkins is experienced in evaluating field and analytical data to determine the source of contamination at sites, and she also has knowledge of state and federal requirements related to regulatory reporting, site remediation, and closure.

Relevant Experience

- Managed environmental assessments and subsurface investigations for major lenders/equity partners/real estate investment trusts related to high-profile property transactions. Responsibilities included client development and management, preparation of complex technical reports, supervision of staff and financial project management.

- Project Manager for remediation projects of sites planned for future residential and commercial use including manufacturing plants, former rail yards, junk yards, metal foundries and properties impacted by current and historical oil/gas exploration and production (E&P) activities (pits/ponds, well casings, pipelines and non-permitted landfills). Scopes of services involved pro forma development, negotiation of cost-cap/pollution legal liability insurance policy on behalf of the buyer, completion of Affected Property Assessment Reports (APARs) to summarize the findings and conclusions; Remedial Action Plans (RAPs) to perform soil and/or groundwater remediation; and Response Action Completion Reports (RACRs) to document that the remediation was adequate to ensure regulatory closure.

Education

- M.S. - Environmental Science and Regulatory Policy, May 1996, University of Wisconsin, Green Bay
- B.A. - Environmental Science/Political Science, May 1994, Baylor University, Waco, Texas

Licenses

- California Registered Environmental Assessor, 2009
- Oregon Soil Matrix Supervisor License No. 23910, 2009
- Corrective Action Project Manager No. 01384 Certification in Texas, 1998
