Summary: The Greater Valley Glen Council recognizes the goal of reducing plastic waste both on land and at sea. We favor CF 21-0002-S100, the resolution in SUPPORT of the proposed Federal Break Free From Plastic Pollution Act that would shift responsibility for plastic waste pollution clean-up to those that produce it, the establishment of minimum recycled content mandates for certain products, the establishment of a national container deposit system, and the elimination of waste export loopholes. [At the same time, we recognize that between the producer and final disposition of a product's residues, there is the purchaser/user. Littering is an ongoing problem, and better enforcement of litter laws is needed.]
