Comments for Public Posting: I am all for reducing plastic in ALL things: This would include disposable water bottles, plastic in our clothing and other products. The first step would be for our City Council leaders to Lead By Example. Stop using disposable bags, bottles, etc. Start supporting American companies that use 100% cotton or Linen. Until I see that you all take your personal carbon footprint seriously, then I will NOT support any measure you take to make others stop doing what you yourselves won't stop doing.
