**Comments for Public Posting:** I support CF 21- 0002-S106 in opposing AB 1401 (Friedman), which would prohibit a city or county from imposing minimum parking requirements on all developments located within one-half mile walking distance of a major transit stop or a high-quality transit corridor. When we also place a mandate on renting these apartments only to people without cars or drivers licenses, maybe I'll change my mind. With the current minimum standards for parking the overflow into the surrounding neighborhood creates thousands of extra miles driven circling the streets looking for parking-extra pollution, extra congestion, lost time away from family and friends, extra stress. Continue to oppose AB1401 and any similar bill to come out of Sacramento.
