Comments for Public Posting: This is just so much more destruction of the livability of California coming off the desk of the perverted Scott Weiner- people are leaving this state in droves precisely because communists like Weiner are determined to make Californians as miserable as possible while taxing them to death to do it- but I guess since Newsom is inviting illegal aliens to hop on the backs of the taxpayers, Weiner wants to find a place to put all those illegal aliens- Never a thought for citizens- This is sheer communism- removing the voice of the people? How dare you- nothing but piece of shit perverts and communists ruin your own fucking neighborhood- leave hard working people alone- the destruction of the middle class is clearly the goal with Weiner- first tax them to death- then remove their voice from their community- what evil- its almost incomprehensible- This motion is nothing more than the destruction of the rights of the citizens of this state- I hope you all rot in hell-
