Comments for Public Posting: STOP listening to the Left wing insanity! Crime has skyrocketed in this city since you allowed the insanity of the no bail policy- all you did was create a revolving door for criminals- The Left doesn't care about minorities- the Left doesn't care about victims- the Left only cares about its insane agenda-If they actually cared about minorities, one look at crime statistics across this city would instantly change their minds about no bail- homicides and assaults have skyrocketed in MINORITY communities since this lunatic policy was instituted- An additional 2000 black lives have been lost across this nation- which can be laid at the feet of political correctness, blm perversion and defunding police- thank you city council- Why don't care just a little bit about the victims of thugs? Why don't you care that minority communities are being held hostage by left wing thugs and criminals? When are you going to look at the truth? You all should be charged for every single murder which has happened because YOU made policies which freed criminals to go out and commit crimes- unhindered by you
