Comments for Public Posting: As Los Angeles City Council supported SB562 in 2017 and Medicare for All in 2019, the members should also back AB1400. It is important to keep the pressure on our legislators and this body's support partly helps make the case politically. It goes without saying that this pandemic has made it all too clear as to why we need a healthcare system that leaves nobody out. Additionally, while AB1400 is first and foremost a Single Payer bill, it aspires to also bring more culturally competent care, as well as address the need for long term services and support. Knowing some of the legislative efforts to improve cultural competence in our healthcare system and as someone working on the campaign for LTSS, I appreciate that AB1400's care provisions. My family members have been directly impacted in life-altering ways due to the lack of culturally competent skills and seamless care. The trappings of even the current Medicare system force a break in the necessary continuation of care, all because insurance companies largely rule the system. Please vote in support.

Comments for Public Posting: Calcare is the only way forward. Covid has showed us how awful our current healthcare is. Don't let the insurance and pharmaceutical companies buy you off anymore and do the right thing.

Comments for Public Posting: I wish to make known that I am tired of a democratic supermajority in Sacramento ignoring the will of the majority of their voters. The pandemic made it clear. We need Medicare For All/Single Payer NOW. Stop allowing constituents to be extorted by the people for such small donations.

Comments for Public Posting: As the local democratic institution representing 10,000,000 Angelenos, it's the responsibility of the Council to represent our overwhelming demand for universal healthcare. As one of the members of the 2020 Democratic Convention's California statewide delegation, I organized over a hundred Californian Democratic Delegates to sign an open letter demanding passage of universal healthcare. These delegates represented 50 out of California's 53 Congressional districts. Support for #AB1400 CalCare is off the charts! Californians know that it's time we joined the rest of the world in scrapping our embarrassment of a privatized, employer-based healthcare system and move towards true universal healthcare once and for all.

Comments for Public Posting: Please vote to endorse AB1400, CalCare, the Medicare for All California. It is time for this nation to join the rest of the industrialized world in offering healthcare to it's citizens, and California should lead the way.
