Comments for Public Posting: Let's gear up lawsuits. Protecting vulnerable now , all of a sudden ?!! The unpopular, ugly , novice politicians who have no finesse, no education - way to go to get your votes. Where were these vulnerable s 10 years ago ? Where was homelessness 10 years ago ? Every one of you progressive dickheads need to be kicked out. Between you city and county, you guys fuck up . I hope you all get sued and your tenants too. My tucking con artist who gets into the unit with 2 incomes and now owes me over \$19,000 should also pay up. All of this fraud will catch up to you all. I hope and wish all of you and your lying tenants rot in hell. More homelessness , you go !! Mass evictions coming.
