Comments for Public Posting: Ok - let's do this, let tenants not work, not pay for groceries, not pay for travel, gas, college, why even drive and work , airlines tickets are free because you know why, they are precious abusive tenants in Los Angeles people who scam and lie and take from us ! And let nithyu, soto, katy you bloody pay up fuckers at 300,000 salary take care of the 70% of these tenants who are playing victim.et everything be free, don't go to school, don't go to work because clearly you and your bloody activists have all the time to go protest and get paid to be bussed by these nithyus. While the rest of the 30% of the landlords will work and toil. Evictions are coming !
