Comments for Public Posting: Please do not end eviction protections in December. Thousands of tenants are still vulnerable. This protections have kept so many people housed, as the homelessness count shows. If you lift these protections now, without implementing permanent protections, you will be allowing thousands of evictions. We need universal just cause protections, protections from eviction for missing a 1 or 2 months of rent. People are struggling.

Comments for Public Posting: City Council members it is time to end the Eviction Moratorium I am one of many known as the Mom & Pop Landlords from CD 1. While your intentions may have been to shield tenants during the pandemic you have placed a significant financial, health and physical burden on me and my family- In order to provide free housing I work 2 jobs 15 hours a day to pay the, fire insurance \$70, LADWP-water \$200 sewer service-sanitation \$142.73, RSO fees,-mortgage on the property\$1,800 which I had renovated to provide quality safe housing the rent was only \$1200 a month for a beautiful Craftman home 2 bedroom- since I have been forced to provide free housing,I have had to withdraw from my pension and pay a penalty for the withdrawal and this was needed to pay \$2923.83 to L.A. County property taxes. Despite COVID-19 case levels tapering off you have continually approved new extensions without taking into consideration that extending the moratorium is causing not only my finances to be depleted.but my health and safety as well. Also you permitted tenants to bring additional people into the rental unit-this caused not only for the DWP water bill to increase but trash and cleaning cost increased and I had to pay. As of today I have still not receive a Declaration from the tenant, but they were able to take an international trip to South America. While I continued working through the entire pandemic, taking every precaution immunized,boosted thankfully I never became ill but do you understand to what extent your actions have caused a physical, financial and emotional drain placed upon me, the financial burden that has threaten my quality of life. In Jan 2021 SCEP inspection completed in the rental unit the tenant was advised to remove, non-operational vehicles, accumulated clutter and to clean the exterior of the rental unit. This past July I had new AC's and ventilation fans installed into the rental unit- I took several photos of the damages caused by the tenant not only is the kitchen destroyed but the bathroom floor tile broken, shower stall cracked. Who will pay for these damages- how am I going to financially afford this? take on a 3rd job?. I am exploring you to bring an end to the moratoriums. In addition, I recommend that an amendment to the Los Angeles Housing Department (LAHD) Handyworker Program that provides free minor home repairs program. Your amendment should stipulated that Mom and Pop Landlords such as myself are eligible for extended renovation and

repair caused by tenants who abused the eviction moratorium-
that grants be set aside for the repairs.
