

## Communication from Public

**Name:** Soto's white Lexus protection from his "defund" LAPD

**Date Submitted:** 02/04/2023 09:50 AM

**Council File No:** 21-0042-S3

**Comments for Public Posting:** Bravo Hugo First you come into the council, treat this like your activist union , flex your muscles with your extensions that you would directly benefit from. Next up, push for more tenant protections at the cost of me and my family and thousands like myself. And now the very police that you were so very passionate to defund receives your office's request to provide "additional patrol" services to watch your car. Why ? Because you are more important than us ? Aren't your constituent housing providers whose tenants are abusing and harassing them and threatening them not important ? Why do you need more patrol to take care of your car ? Why am I paying for LAPD to protect you? We see you and see through your BS !! You are slowly losing credibility. Sure, you are very transparent and honest. We are all very enlightened. Rest of the councilmembers , enjoy the article if not already done. <https://www.dailymail.co.uk/news/article-11712483/Defund-Police-LA-City-Council-member-asks-LAPD-EXTRA-patrols-council-office.html>
