Council File No: 21-0042-S7

Comments for Public Posting: This council has driven small landlords to the brink of bankruptcy and insolvency. You are preventing legal and just evictions based on ULA ERAP funds that cover only a fraction of unpaid rents in the city. It is not the responsibility of private landlords to solve the homeless crisis in this city. This is why we pay taxes and vote in local elections. It is YOUR job. You have allowed unscrupulous tenants to game the system with no intention of ever paying what they owe. You have lost my confidence, my vote, and as soon as I reclaim my property, you have lost one more housing provider.
