Council File No: 21-0042

Comments for Public Posting: HEART LA is a legal, nonprofit that helps keep tenants and their pets together and housed. This year alone we have helped over 250 families that were facing eviction or the threat of eviction because of their companion animal, with many of those threats stemming from threats of the current emergency protections for pets coming to an end. We support this ordinance and are grateful for this incredibly important amendment to the LAMC.
