Comments for Public Posting: Have any of you been to a Mcdonald's? How is anyone supposed to use their own bag there? I'm getting charged ten cents so I don't put a burger and fries directly in my lap in the drive thru? And Mcdonald's gets to keep it? Repeal this portion of the law. I can't get into their kitchen and have them use my bag, and they are now profiting off of something that used to be free and I can't opt out of it.
