Comments for Public Posting: Testimony from an unhoused resident at the beach who was offered a hotel room from PRK and why he rejected. Said persons was offered a hotel from Project Roomkey but he said the overall experience felt like he was going to jail even though he hadn't done anything wrong. He said that he was told he had to stay in his room while at the hotel and that food would be brought to him, 3 meals a day. Also, they don't give residents their keys. For work, this person once painted homes and did handy work, even though he was working he could not get affordable housing based off of what he made. He is from CA. (stating simply because many believe that unhoused residents are mostly from out of town, some are but many are from CA). The housing market should NOT be so privatized!

Comments for Public Posting: I would like to urge my council member Paul Krekorian and the entire council to fully authorize the expansion of Project Roomkey and to start seizing hotels to help house the homeless in our city. With the help of FEMA and support from Sacramento, LA should immediately start using this program to help our neighbors get safely into hotels and off the streets. With the dangers of covid ever present, we need to help these people get off the streets and into safe, secure hotel rooms. I fully support this motion. Comments for Public Posting: I strongly support this policy and urge the Council to support it. We must take care of our unhoused neighbors at all times but especially during the COVID crisis. It will help them but ultimately anything that slows the spread of COVID helps all of us. I thank Councilmembers Raman and Bonin for moving this forward.

Comments for Public Posting: It is unthinkable how bad the housing situation is in Los Angeles. That the Mayor and/or City Council has not used FEMA money to help people become housed proves that our present leadership is inadequate and unable to work properly for its residents. We are all impacted in Los Angeles County by the state of Los Angeles city. You are failing so loudly, so often and so painfully, you have lost our confidence. If there were a larger threat than Covid, how would you cope? Who would survive? The hatred for working people, who are not rich and conniving, or born with a silver spoon is more than evident.

Comments for Public Posting: The city has the hotel capacity to save lives. It's not a resource problem. It's a political will problem. Why won't the political leaders do what's necessary to save lives? To keep people safe?

Comments for Public Posting: There are over 70k hotel rooms that can be used to help our neighbors without shelter. These units should be converted to help providing housing for those in need.
