The original East Side Communities of Los Angeles/ The Pueblo will continue to Fight inequitable land use, Racist public policy, Violence against our precious native habitats and displacement of Brown and Indigenous People who made this place whose land was stolen by the Incorporation of the City of Los angeles in 1781 in a land grab. Given the past, and current struggles of our communities dealing with the past fallout of Racist land policy ie the freeways, Exide, Dodger's Stadium, etc, something needs to be made right to set precedent to back up all the claims of Equity and social justice the city touts but does not live up to. The MND is inadequate, inaccurate, & doesn't recognize the major impacts the project would have on environ & humans. The approval was illegally obtained w/ inadequate Public Notice; disenfranchising El Sereno residents of transparent/ equitable access. In the MND the project's cumulative impacts were not analyzed. The multiple violations of the Northeast Los Angeles Community Plan that include the preservation of green space & maintenance of balanced housing stock are unacceptable. City failed to inform CDFW of TTLC's destructive plans for the rare urban woodland and its habitat. We support the ongoing litigation against this project & the Abolition of violent exploitative development in the city of LA that has no end in its legacy of harm. STAND WITH THE PEOPLE

Lincoln Heights Intel stands in support of Delia Guerrero / Coyotl + Macehualli's Lawsuit against the Eastern / Lombardy hill development, aka Vista El Sereno subdivision by TLC developers, aka TTLC.

The original East Side Communities of Los Angeles/ The Pueblo will continue to Fight inequitable land use, Racist public policy, Violence against our precious native habitats and displacement of Brown and Indigenous People who made this place whose land was stolen by the Incorporation of the City of Los Angeles in 1781 in a land grab. Given the past, and current struggles of our communities dealing with the past fallout of Racist land policy ie the freeways, Exide, Dodger's Stadium, etc, something needs to be made right to set precedent to back up all the claims of Equity and social justice the city touts but does not live up to.

The MND is inadequate, inaccurate, & doesn't recognize the major impacts the project would have on environ & humans. The approval was illegally obtained w/ inadequate Public Notice; disenfranchising El Sereno residents of transparent/ equitable access.

In the MND the project's cumulative impacts were not analyzed. The multiple violations of the *Northeast Los Angeles Community Plan* that include the preservation of green space & maintenance of balanced housing stock are unacceptable. City failed to inform CDFW of TTLC's destructive plans for the rare urban woodland and its habitat.

We support the ongoing litigation against this project & the Abolition of violent exploitative development in the city of LA that has no end in its legacy of harm.
