Comments for Public Posting: Hello, Im a resident of El Sereno. I have noticed that there is a lot of housing development. Which is great in addressing the housing shortage in Los Angeles. However, these homes/projects that being development are extremely expensive- no one in my community including myself cannot afford the homes in my community. And now we are allowing developers to destroy rare agriculture to build homes that are not even affordable to those who need it the most. El Sereno is rare in the Los Angeles County in that we have a lot of open space we can maintain and care for- I would rare see funds being used to utilize our open space not build unaffordable homes.

Comments for Public Posting: Hello, I am opposed to the 42 unit small lot project at 2720 N Eastern Avenue. This will not provide affordable housing to the Sereno community whatsoever, it will only cause gentrification through increasing housing prices. The project will also perpetuate environmental injustices and degradation as it will require more than 11,000 dump trucks to do so. Please do not remove the mature trees from this land, they are crucial to the environment.
