Comments for Public Posting: Please know that even though the state is providing some rental assistance for 2020 back rent, we are still drowning in rent every month. Every single month the rent adds up and still I am unemployed. Relying on landlords to make the right choice is a fool's errand. Do the right thing and cancel rent. I also want to address Project Roomkey. After seeing the abysmal number of participants (less than 2,000 out of 15,000 promised), I took to the streets myself and asked folks what was preventing them from getting into hotels. The list was endless. The start with, they are only allowed 2 bags of items. Tell me, is the same restriction placed on guests when there is a busy holiday? These are systemic roadblocks you have put in place. Your current inactions do not represent me or my city.
