Council File No: 21-0190

Comments for Public Posting: I hike in Griffith Park almost everyday. I urge the City Council to vote no to arming LA City park rangers when it comes to a full vote before the Council. Firearms in the hands of more people leads to more gun violence and will, as history shows us, disproportionately impact poor people and people of color. Please look forward and honor your commitment made after the George Floyd uprising to reimagine public safety.
